Who's who in Horror and Fantasy Fiction Michael Ashley,1978 Manning the Law Ngaire Naffine,2025-09-18 This is a study of elite English men of English law and the methods they used to retain and justify their power and privilege through controlling the story of the legal person It looks at how these men of legal authority thought of themselves and their institution how they studied and explained law and how they put themselves in the middle of it as the standard human in need of legal regulation and protection and in charge of that regulation and protection and assigned to women an inferior legal role and being The main strategy used to do all this was manipulation of the concept of the legal person From the 1860s to the 1920s the courts declared that women were not persons who could exercise public power to vote to sit in Parliament to gain degrees to be lawyers Up to the end of the 20th century and into the 21st women s personhood remained precarious in the private sphere for rape was excused within a marriage and female reproduction remained under state control as it still does The book examines the active exclusion of women from the means of making legal meaning especially the ability to shape law s central concept and shows the epistemological effects of this sex differential of legal power which are still felt today Leading legal thinkers who helped to masculinise the concept of the person to the detriment of women are still revered Law s continuing male orientation is neither seen nor acknowledged and the legal person is treated falsely as if he had always been and remains anyone **The Orcusian, Books 1-4 of the Age of Magic Series** Rex Jameson,2022-09-30
