marginalized groups over the past century from the early twentieth century markings of hobos soldiers and Japanese internees to the later inscriptions of surfers cholos and punks Whether describing daredevil kids bored workers or clandestine lovers Phillips profiles the experiences of people who remain underrepresented in conventional histories revealing the powerful role of graffiti as a venue for cultural expression Graffiti aficionados might be surprised to learn that the earliest documented graffiti bubble letters appear not in 1970s New York but in 1920s Los Angeles Or that the negative letterforms first carved at the turn of the century are still spray painted on walls today With discussions of characters like Leon Ray Livingston a.k.a. Looking High and Low Brenda Jo Bright, Liza Bakewell, 2022-12-06 Can low riders rightfully be considered art Why are Chicano murals considered art while graffiti is considered vandalism What do Native American artisans think about the popular display of their ceremonial objects How do the middlebrow notions of Getty workers influence highbrow values at the J Paul Getty Trust Looking High and Low attempts to answer these questions and the broader question What is art by bringing together a collection of challenging essays on the meaning of art in cultural context and on the ways that our understandings of art have been influenced by social process and aesthetic values Arguing that art is constituted across cultural boundaries rather than merely inside them the contributors explore the relations between art cultural identity and the social languages of evaluation among artists art critics art institutions and their audiences in the Southwest and in Mexico The authors use anthropological methods in art communities to uncover compelling evidence of how marginalized populations make meaning for themselves how images of ethnicity function in commercial culture how Native populations must negotiate sentimental marketing and institutional appropriation of their art work and how elite populations use culture and ritual in ways that both reveal and obscure their power and status The authors make dramatic revelations concerning the construction and contestation of ideas of art as they circulate between groups where notions of what art should be are often at odds with each other This volume challenges conventional modes of analyzing art Its ethnographic explorations illuminate the importance of art as a cultural force while creating a greater awareness of the roles that scholars museum curators and critics play in the evaluation of art

A Handbook of Latinx Art Rocío Aranda-Alvarado, Deborah Cullen-Morales, 2025. A curated selection of key texts and artists' voices exploring US Latinx art and art history from the 1960s to the present. A Handbook of Latinx Art is the first anthology to explore the rich, deep, and often overlooked contributions that Latinx artists have made to art in the United States. Drawn from wide-ranging sources, this volume includes texts by artists, critics, and scholars from the 1960s to the present that reflect the diversity of the Latinx experience across the nation, from the West Coast and the Mexican border to New York, Miami, and the Midwest. The anthology features essential writings by Mexican American, Puerto Rican, Cuban American, Dominican American, and Central American artists to highlight how visionaries of diverse immigrant groups negotiate issues of participation and belonging, material style, and community in their own voices. These intersectional essays cut across region, gender, race, and class to lay out a complex, emerging field that reckons with different histories, geographies, and political engagements, and ultimately underscores the importance of Latinx artists to the history of American art.
