World Dictionaries in Print 1983 ,1983 El proceso político de las derechas en Colombia y los imaginarios sobre las guerras internacionales 1930-1945 Javier Guerrero Barón,2014-09-30 Este libro trata de comprender cómo construyó Colombia el discurso del odio categorizado introducida por la historia de las emociones y los sentimientos la cual nos podrá ayudar a comprender las contradicciones que se materializaron posteriormente en el periodo de La Violencia buceando tras la sociogenésis del discurso del conflicto interpartidista durante la República Liberal Este libro se estructura en cinco partes La primera comienza con algunas tesis sobre la revolución mundial de los años veinte la cual fue ante todo una revolución de la cultura política marcada por los movimientos sociales urbanos de masas y las revoluciones tecnológicas de las comunicaciones especialmente por la radiodifusión y el megafono que fueron el marco de la aparición de la plaza pública y de

los grandes caudillos teniendo en lo social como telón de fondo la gran crisis que se desata en 1929 y que apalancó el ascenso de las derechas mundiales. Este proceso llevó al poder a algunos partidos fascistas en la Europa convulsionada de los años veinte y treinta y explica especialmente el fenómeno Mussolini Hitler y la irrupción de movimientos inspirados en el llamado nacionalismo nuevo cuya propuesta se inspira en las revoluciones de orden nuevo que son a su vez una respuesta directa al auge del socialismo de los movimientos obreros y las huelgas atribuido al triunfo de la revolución soviética de 1917. Para explicar la muy temprana radicalización de la confrontación verbal de las derechas en comparación con otros países donde la llegada de los discursos fascistas fue más atemperada y tardía en esta primera parte se propone desarrollar algunas tesis interpretativas sobre el proceso de construcción de la que hemos denominado revolución imaginada y su camino hacia la revolución frustrada el 9 de abril y La Violencia. Se trata del proceso construido en los discursos políticos tanto liberales como conservadores. Los liberales exaltando la República Liberal como una especie de panacea fundadora de la modernidad después de la noche oscura conservadora e imaginando en una hipótesis conocida como revolución en marcha grandes reformas que no lo eran tanto y que se frustrarían con la caída de la República Liberal en 1946. Los conservadores denostando la República Liberal se alióndola como una alianza de liberales y comunistas que llevó al patrocinio de los movimientos sindicales y a la construcción de un gran complot revolucionario que como en la metáfora española se transformó en un plan secreto dirigido desde Moscú para destruir la república católica forjada desde la Constitución de 1886 con reformas anticatólicas contra el Concordato con el Vaticano la Ley de Tierras para despojar a los legítimos dueños los terratenientes y hacendados y el favorecimiento de las huelgas y el desorden de allí que había que restaurar el antiguo orden católico frente al poder oculto de la masonería el judaísmo internacional el liberalismo y el comunismo que Aliados eran los responsables de la destrucción de la patria del derrumbe del orden terrateniente y patronalista tradicional. Habían llegado los mismos fantasmas que llevaron a Europa a la guerra mundial. En la parte segunda y siempre como historias conectadas observamos rápidamente y como fundamento para comprender la contemporaneidad colombiana la República española con su propio drama y la fantástica emisión de señales e imágenes al principio alrededor de la fiesta republicana multicolor del derrumbamiento pacífico de la monarquía a luego alrededor de la traumática organización del gobierno de la reorganización de las derechas del Bienio negro de los grandes errores de la coalición republicana socialista de la experiencia de los Frentes Populares y de la crisis indefectible de la República que se hundió como un barco viejo y desvencijado en medio de la tempestad del ocaso de Occidente de la acción directa y de la violencia cotidiana que desataron las fuerzas desenfrenadas de la guerra mostrando cómo España se convirtió en una metáfora colombiana donde el discurso se traslapa sin que sean claros los umbrales entre lo español y lo vernáculo. República Frente Popular rojos mata curas incendiarios de iglesias y asaltantes de conventos no se diferencian. Liberales republicanos y comunistas son lo mismo en México Colombia o España. De esta amalgama tampoco es ajena la guerra de los cristeros mexicanos y las reformas de Lázaro Cárdenas. En las batallas retóricas el liberalismo es tratado como un gran

enemigo universal En esta parte tercera que hemos nombrado como La renuncia a la democracia o el embrujo del Eje y es otra de las tesis buscamos demostrar cómo a partir del desarrollo de la Guerra Civil Española y del avance de los partidos fascistas sobre varias democracias europeas algunos sectores predominantemente más no exclusivamente conservadores renunciaron a su vocación civilista y democrática Desde finales de los años veinte personajes de la vida política hacen referencia a Mussolini y a las derechas europeas algunas veces identificándose con estos fenómenos en ascenso hasta el punto de que un sector del Partido Conservador a veces disidente a veces oficialista se autoproclama y autodenomina vocero de las derechas y sus juventudes lanzaron sus autónomos movimientos nacionalistas al examinar las cosechas del discurso del nacionalismo nuevo y su entronización y la derechización de los demócratas ante el ascenso vertiginoso de los fascismos con su referente internacional en la formación del Eje Berlín Roma Tokio al que adhirió Madrid contra un supuesto complot comunista auspiciado por el liberalismo El Plan Moscú desarrolla con minucia un episodio revelador del clima político de un supuesto complot comunista en 1937 del que se imputaba participación directa al presidente López Pumarejo para apoderarse del gobierno como en España cuya prueba reina era un documento auténtico o apócrifo donde se dan instrucciones precisas para el desarrollo de dicha estrategia entre ellas la utilización de los gobiernos de López y Santos la toma de los sindicatos la financiación de tráfico de armas con moneda falsa y estrategias de combinación de todas las formas de lucha incluyendo el secuestro de dirigentes burgueses La cuarta parte titulada El discurso de la guerra mundial y la construcción del basilisco aborda cómo Laureano Gómez construye ese gran símbolo mítico para representar a sus grandes enemigos la masonería a veces desaparece por conveniencia y el judaísmo sobre todo después de la guerra mundial el comunismo y el liberalismo La quinta y última parte toma el título de la consigna que en 1934 lanzó Laureano Gómez en un artículo de prensa Nuestro deber es hacer prácticamente invivible el ambiente de la República analiza el deterioro creciente del clima político y la ascendente animosidad interpartidista que condujo al país hacia el abismo insondable de la Violencia Tomando como punto de partida la frustración de la política de convivencia que produjo la masacre de Gachet y las consecuencias de estos sucesos se hace una reflexión sobre las vías por las que Colombia estaba autodestruyendo su sistema democrático

Farmacología aplicada en anestesiología. Escenarios clínicos Juan Heberto Muñoz Cuevas, 2024-01-25 La anestesiología es una de las especialidades más completas dentro de la práctica de la medicina ya que permite al especialista actuar con base en el conocimiento y el razonamiento de las bases anatómicas y fisiológicas aunadas al pleno dominio de la farmacología y sus aplicaciones en la anestesiología permitiendo tomar decisiones para una correcta selección de técnicas invasivas en el paciente con el propósito de ofrecer una serie de procedimientos perioperatorios de calidad y seguridad en cualquier escenario clínico y en cualquier instancia que se requiera Es evidente el aporte científico de finales del siglo pasado y el inicio del actual enfocado a la biología molecular específicamente al sistema nervioso que pretende desenmarañar mediante el estudio y el descubrimiento de un gran número de neurotransmisores así como una diversidad de mecanismos de acción con diferentes sistemas intracelulares y

extracelulares involucrados en el estado anestésico considerado tradicionalmente como hipnosis analgesia e inmovilidad ante una noxa específica. Estos conceptos con base en la medicina basada en evidencias se han ido modificando en la actualidad con tendencia a demostrar la importancia de alcanzar y mantener concentraciones de un fármaco en uno o varios sitios efectores y/o zonas target y a plasma para alcanzar objetivos específicos que modifican la neurotransmisión celular responsables de la respuesta clínica durante un evento anestésico. El dominio de la farmacología aplicada en anestesiología es fundamental para que cualquier médico anestesiólogo proceda a realizar la adecuada elección asociación e interacción de fármacos para generar la respuesta clínica deseada procurando minimizar la incidencia y la intensidad de efectos adversos inherentes al manejo de este tipo de fármacos al titular los agentes anestésicos dentro de una ventana terapéutica. La sinergia y los efectos aditivos que resultan de la polifarmacia durante un evento anestésico necesarios y suficientes para producir un estado anestésico adecuado en un tiempo determinado se basan en el correcto razonamiento de una dosificación segura y confiable así como en la titulación de la misma durante el evento quirúrgico diagnóstico y/o terapéutico individualizado para el paciente para cualquier escenario clínico y ante todo tipo de situación. Interactuar con los receptores específicos y modificar la respuesta farmacodinámica son factores que deben ser tomados en cuenta para que la decisión al implementar una estrategia farmacológica se basa en la cinética del fármaco involucre una respuesta clínica que permita cuantificar la intensidad de esa estrategia con el objetivo de alcanzar y manejar las ventanas terapéuticas de cada uno de los fármacos requeridos para minimizar los eventos de infradosificación o sobredosisificación todo esto con base en una relación entre concentración plasmática y concentración sitio efecto permitiendo una respuesta clínica efectiva y a la vez prevenir o eliminar efectos adversos inherentes a la combinación de varios fármacos en cada paciente.
