Fantasies of music in nostalgic medievalism

Helen Dell, 2024-01-30 In the period between the Second World War and the present there has been an extraordinary rise in the production of medievalist fantasy literature and film. This has been accompanied by the revival, performance, and invention of medieval music. In this enterprise, modern fantasies of the Middle Ages have exercised great influence. *Fantasies of music in nostalgic medievalism* shows how music, medievalism, and nostalgia have been woven together in the fantasies of writers and readers, musicians, musicologists, directors, and listeners, film makers, and film goers.

This book studies the ways in which three fields of creative activity inspired by the medieval musical performance literature cinema and their reception have worked together to produce and sustain for some the fantasy of a long lost long mourned paradisaal home
