Making It in America Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is

*Chicana Liberation* Marisela R. Chávez, 2024-04-30 Mexican American women reached across generations to develop a bridging activism that drew on different methods and ideologies to pursue their goals Marisela R Ch vez uses a wealth of untapped oral histories to reveal the diverse ways activist Mexican American women in Los Angeles claimed their own voices and space while seeking to leverage power Ch vez tells the stories of the people who honed beliefs and practices before the advent of the Chicano movement and the participants in the movement after its launch in the late 1960s As she shows Chicanas across generations challenged societal traditions that at first assumed their place on the sidelines and then assigned them second class status within political structures built on their work Fueled by a surging pride in their Mexican heritage and indigenous roots these activists created spaces for themselves that acknowledged their lives as Mexicans and women Vivid and compelling *Chicana Liberation* reveals the remarkable range of political beliefs and life experiences behind a new activism and feminism shaped by Mexican American women The New Americans? Heather Silber

Mohamed, 2017-03-24 In 2006 millions of Latinos mobilized in opposition to H R 4437 an immigration proposal pending before the US Congress In her new book Heather Silber Mohamed suggests that these unprecedented protests marked a turning point for the Latino population a point that is even more salient ten years later as the issue of immigration roils the politics of the 2016 presidential election In *The New Americans* Silber Mohamed explores the complexities of the Latino community particularly as it is united and divided by the increasingly pressing questions of immigration The largest minority group in the United States Latinos are also one of the most diverse *The New Americans* focuses on the three largest national origin groups Mexicans Puerto Ricans and Cubans as well as two rapidly growing subgroups Salvadorans and Dominicans charting similarities and differences defined by country of origin gender tenure in the country and language Taking advantage of a unique natural experiment Silber Mohamed s study also shows how the messages advanced during the 2006

*The Oxford Handbook of American Women's and Gender History* boldly interprets the diverse history of women and how ideas about gender shaped their access to political and cultural power in North America

Over twenty nine chapters this handbook illustrates how women's and gender history can shape how we view the past looking at how gender influenced people's lives as they participated in migration colonialism trade warfare artistic production and community building

Theoretically cutting edge each chapter is alive with colorful historical characters from young Chicanas transforming urban culture to free women of color forging abolitionist doctrines Asian migrant women defending the legitimacy of their marriages and transwomen fleeing incarceration

Together their lives constitute the history of a continent

Leading scholars across multiple generations demonstrate the power of innovative research to excavate a history hidden in plain sight

Scrutinizing silences in the historical record from the inattention to enslaved women's opinions to the suppression of Indian women's involvement in border diplomacy the authors challenge the nature of historical evidence and remap what counts in our interpretation of the past

Together and separately these essays offer readers a deep understanding of the variety and centrality of women's lives to all dimensions of the American past even as they show that the boundaries of women's American and history have shifted across the centuries

**Universal Citizenship** R. Andrés Guzmán, 2019-01-15 Recently many critics have questioned the idea of universal citizenship by pointing to the racial class and gendered exclusions on which the notion of universality rests Rather than jettison the idea of universal citizenship however R Andr s Guzm n builds on these critiques to reaffirm it especially within the fields of Latina o and ethnic studies Beyond conceptualizing citizenship as an outcome of recognition and admittance by the nation state in a negotiation for the right to have rights he asserts that insofar as universal citizenship entails a forceful entrance into the political from the latter s foundational exclusions it emerges at the limits of legality and illegality via a process that exceeds identitarian capture Drawing on Lacanian psychoanalysis and philosopher Alain Badiou s notion of generic politics Guzm n advances his argument through close analyses of various literary cultural and legal texts that foreground contention over the limits of political belonging These include the French Revolution responses to Arizona s H B 2281 the 2006 immigrant rights protests in the United States the writings of Oscar Zeta Acosta Frantz Fanon s account of Algeria s anticolonial struggle and more In each case Guzm n traces the advent of the citizen as a collective subject made up of anyone who seeks to radically transform the organizational coordinates of the place in which she or he lives
