John Campbell McMillian, Paul Buhle

Lyrical Left:

The Lyrical Left Edward Abrahams, 1986 Encyclopedia of the Harlem Renaissance Cary D. Wintz, Paul Finkelman, 2012-12-06 From the music of Louis Armstrong to the portraits by Beauford Delaney the writings of Langston Hughes to the debut of the musical *Show Boat* the Harlem Renaissance is one of the most significant developments in African American history in the twentieth century The *Encyclopedia of the Harlem Renaissance* in two volumes and over 635 entries is the first comprehensive compilation of information on all aspects of this creative dynamic period For a full list of entries contributors and more visit the *Encyclopedia of Harlem Renaissance* website *New Left Revisited* John Campbell McMillian, Paul Buhle, 2008 Starting with the premise that it is possible to say something significantly new about the 1960s and the New Left the contributors to this volume trace the social roots the various paths and the legacies of the movement that set out to change America As members of a younger generation of scholars none of them apart from Paul Buhle has first hand knowledge of the era Their perspective as non participants enables them to offer fresh interpretations of the regional and ideological differences that have been obscured in the standard histories and memoirs of the period Reflecting the diversity of goals the clashes of opinions and the tumult of the time these essays will engage seasoned scholars as well as students of the 60s **Learning from the Left** Julia L. Mickenberg, 2006 Publisher Description *Martyrs of the Early American Left* Robert C. Cottrell, 2023-04-17 Intertwining the stories of three leading early twentieth century radical Americans this book presents the enthralling tale of the too short lives of Inez Milholland Randolph Bourne and John Reed It highlights the movements and personal experiences that drew such privileged individuals to the American left willing to sacrifice comfortable circumstances and opportunities As writers and activists the trio became leading spokespersons for feminism sexual liberation unions civil liberties pacifism internationalism socialism anarchism and in Reed's case communism Challenging capitalism patriarchy and the nation state the independently minded Milholland Bourne and Reed possessed a twofold commitment to personal liberation and community With their early deaths they left behind personal models for acting living and thinking afresh One could say they became martyrs to the very movements they championed **Left of the Color Line** Bill V. Mullen, James Smethurst, 2012-01-01 This collection of fifteen new essays explores the impact of the organized Left and Leftist theory on American literature and culture from the 1920s to the present In particular the contributors explore the participation of writers and intellectuals on the Left in the development of African American Chicano Chicana and Asian American literature and culture By placing the Left at the center of their examination the authors reposition the interpretive framework of American cultural studies Tracing the development of the Left over the course of the last century the essays connect the Old Left of the pre World War II era to the New Left and Third World nationalist Left of the 1960s and 1970s as well as to the multicultural Left that has emerged since the 1970s Individual essays explore the Left in relation to the work of such key figures as Ralph Ellison T S Eliot Chester Himes Harry Belafonte Amrico Paredes and Alice Childress

The collection also reconsiders the role of the Left in such critical cultural and historical moments as the Harlem Renaissance the Cold War and the Black Arts Movement of the 1960s and 1970s The contributors are Anthony Dawahare Barbara Foley Marcial Gonz lez Fred Ho William J Maxwell Bill V Mullen Cary Nelson B V Olgu n Rachel Rubin Eric Schocket James Smethurst Michelle Stephens Alan Wald and Mary Helen Washington [Why America Needs a Left](#) Eli Zaretsky,2013-04-26 The United States today cries out for a robust self respecting intellectually sophisticated left yet the very idea of a left appears to have been discredited In this brilliant new book Eli Zaretsky rethinks the idea by examining three key moments in American history the Civil War the New Deal and the range of New Left movements in the 1960s and after including the civil rights movement the women s movement and gay liberation In each period he argues the active involvement of the left especially its critical interaction with mainstream liberalism proved indispensable American liberalism as represented by the Democratic Party is necessarily spineless and ineffective without a left Correspondingly without a strong liberal center the left becomes sectarian authoritarian and worse Written in an accessible way for the general reader and the undergraduate student this book provides a fresh perspective on American politics and political history It has often been said that the idea of a left originated in the French Revolution and is distinctively European Zaretsky argues by contrast that America has always had a vibrant and powerful left And he shows that in those critical moments when the country returns to itself it is on its left liberal bases that it comes to feel most at home **The Palgrave Handbook of Left-Wing Extremism, Volume 2** José Pedro Zúquete,2023-09-21 This handbook provides a broad overview of left wing extremism and its associated key issues and themes It breaks new ground by assembling a comparative analysis of the phenomenon that is both multidimensional and multidisciplinary Gathering a wide range of influential scholars who have worked at length in the field of extremism studies from different perspectives backgrounds and geographical settings the Palgrave Handbook of Left Wing Extremism presents an array of thought provoking and innovative as well as informative analyses and discussions both historical and contemporary about the phenomenon of left wing extremism and of how researchers conceive of and approach it in their study The Handbook is designed to be for the foreseeable future the reference work for all students researchers and general readers interested in achieving a comprehensive understanding of left wing extremism in all its manifestations subtleties and dynamics and both its current and its potential directions *Left in Dark Times* Bernard-Henri Lévy,2009-10-13 In this unprecedented critique Bernard Henri L vy revisits his political roots scrutinizes the totalitarianisms of the past as well as those on the horizon and argues powerfully for a new political and moral vision for our times Are human rights Western or universal Does anti Semitism have a future and if so what will it look like And how is it that progressives themselves those who in the past defended individual rights and fought fascism have now become the breeding ground for new kinds of dangerous attitudes an unthinking loathing of Israel an obsessive anti Americanism an idea of tolerance that in its justification of Islamic fanaticism for example could become the cemetery of democracies and an indifference masked by

relativism to the greatest human tragedies facing the world today At a time of ideological and political transition in America Left in Dark Times articulates the threats we all face in many cases without our even being aware of it and offers a powerful new vision for progressives everywhere The Religious Left in Modern America Leilah Danielson, Marian Mollin, Doug Rossinow, 2018-05-15 This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left The volume covers a diversity of perspectives including Protestant Catholic and Jewish history and important essays on African American Latino and women s spirituality Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left This volume will appeal to historians of modern American politics religion and social movements religious studies scholars and contemporary activists

Discover tales of courage and bravery in Crafted by is empowering ebook, Unleash Courage in **Lyrical Left** . In a downloadable PDF format (PDF Size: *), this collection inspires and motivates. Download now to witness the indomitable spirit of those who dared to be brave.
