Making Of Contemporary Europe:

Contemporary Europe Richard Sakwa, Anne Stevens, 2012-03-28 This fully revised third edition provides a wide ranging introduction to political economic and social life across the whole continent Ideal for students new to the subject this popular text stimulates fresh thinking on issues and debates **The Making of Contemporary Europe** R. Ben Jones, 1980-01-01

Contemporary Europe William Outhwaite, 2016-10-04 Europe is one of the most dynamic and interesting areas of the world pioneering in the European Union a new form of governance for half a billion people represented in the world's first directly elected transnational parliament This book situates the European Union in a broader European global historical and geographical context providing a readable presentation of the most important facts and drawing on the theoretical approaches which have transformed the study of contemporary Europe over the past two decades The European Union is still on the road to what has been called an unknown destination and this book presents its economic political legal and social trajectory from the middle of the last century to the present Contemporary Europe covers some of these issues in an interdisciplinary framework aiming to situate the development of the European Union in a broader context of pan European and global processes Europe has been cut down to size but it does not have to become a global backwater and the study of contemporary Europe's institutional reality does not have to be boring The book counter this misperception conveying the essential facts and theories of contemporary European reality in a clear and approachable analysis It will serve as a readable introduction both to the academic field of European studies and to contemporary Europe itself Dissonant Heritages and Memories in Contemporary Europe Tuuli Lähdesmäki, Luisa Passerini, Sigrid Kaasik-Krogerus, Iris van Huis, 2019-08-13 This open access book discusses political economic social and humanitarian challenges that influence both how people deal with their past and how they build their identities in contemporary Europe Ongoing debates on migration on local national inter and transnational levels prove that it is a divisive issue with regards to understanding European integration and identity At the same time the European Union increasingly invests in projects related to European heritage museums and cultural memory networks while having to take dissonant heritages into account These processes in their combination offer an interesting dynamic and form the complex puzzle that poses challenging questions for anyone involved in academic research heritage practices and policy debates With this puzzle at its core this book explicitly focuses on slippery and transforming notions of Europe and critically discusses ongoing and transforming power structures of heritage and memory in today's Europe The book combines theoretical and methodological contributions to the debates on European heritage and memory studies and in depth analyses of empirical case studies Its main aim is to bring research fields concerning memory and heritage into a closer dialogue and thus explore the cultural and political dynamics of contemporary Europe

Contemporary European Foreign Policy Walter Carlsnaes, Helene Sjursen, Brian White, 2004-05-24 Bogen behandler europæisk udenrigspolitik i bred forstand og kommer ind på forsvarspolitik diplomati menneskerettigheder og sikkerhedspolitik

The Routledge Companion to Contemporary European Theatre and Performance Ralf Remshardt, Aneta

Mancewicz, 2023-08-24 This is a comprehensive overview of contemporary European theatre and performance as it enters the third decade of the twenty first century It combines critical discussions of key concepts practitioners and trends within theatre making both in particular countries and across borders that are shaping European stage practice With the geography geopolitics and cultural politics of Europe more unsettled than at any point in recent memory this book s combination of national and thematic coverage offers a balanced understanding of the continent s theatre and performance cultures Employing a range of methodologies and critical approaches across its three parts and ninety four chapters this book s first part contains a comprehensive listing of European nations the second part charts responses to thematic complexes that define current European performance and the third section gathers a series of case studies that explore the contribution of some of Europe s foremost theatre makers Rather than rehearsing rote knowledge this is a collection of carefully curated interpretive accounts from an international roster of scholars and practitioners The Routledge Companion to Contemporary European Theatre and Performance gives undergraduate and graduate students as well as researchers and practitioners an indispensable reference resource that can be used broadly across curricula

Nation and Identity in Contemporary

Europe Brian Jenkins, Spyros A. Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena

Welfare to Work in Contemporary European Welfare States Anja Eleveld, Thomas Kampen, Josien

Arts, 2020-01-29 With welfare to work programmes under intense scrutiny this book reviews a wide range of existing and future policies across Europe Seventeen contributors provide case studies and legal sociological and philosophical perspectives from around the continent building a rich picture of welfare to work policies and their impact They show how many schemes do not adequately address social rights and lived experiences and consider alternatives based on theories of non domination For anyone interested in the justice of welfare to work this book is an important step along the path towards more fair and adequate legislation

Migration and the Crisis of Democracy in Contemporary Europe Christoph M.

Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other
