members of anticommunist reading groups organizing against sex education pro life Democrats gradually drawn into conservative circles and new arrivals finding work in defense companies and a sense of community in Orange County's mushrooming evangelical churches We learn what motivated them and how they interpreted their political activity Lisa McGirr shows that their movement was not one of marginal people suffering from status anxiety but rather one formed by successful entrepreneurial types with modern lifestyles and bright futures She describes how these suburban pioneers created new political and social philosophies anchored in a fusion of Christian fundamentalism xenophobic nationalism and western libertarianism While introducing these rank and file activists McGirr chronicles Orange County's rise from nut country to political vanguard Through this history she traces the evolution of the New Right from a virulent anticommunist anti establishment fringe to a broad national movement nourished by evangelical Protestantism Her original contribution to the social history of politics broadens and often upsets our understanding of the deep and tenacious roots of popular conservatism in America
