Biles, 2023-10-03 The revised and updated third edition of *The Making of Urban America* includes seven new articles and a
richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the

commercial and cultural aspects of urban history these essays illustrate the growth and change that created modern day
urban life Dynamic topics such as technology immigration and ethnicity suburbanization sunbelt cities urban political history
and planning and housing are examined *The Making of Urban America* is the only reader available that covers all of U S
urban history and that also includes the most recent interpretive scholarship on the subject *Midwestern Women* Lucy
Eldersveld Murphy, Wendy Hamand Venet, 1997-12-22 an excellent introduction to a complex subject Anyone interested in the
Midwest or in women s history will find it a valuable resource *Agricultural History* the volume as a whole invigorates the field
of midwestern history *Wisconsin Magazine of History* examines four centuries of Midwestern women s history including
urban and rural frontier settlers and American Indians Mexican and European migrants The book mixes telling anecdotes
with scholarly research Indianapolis Star Writing about four centuries of midwestern women s history including urban rural
and frontier women Native Americans African Americans Mexicanas as well as European migrants essayists discuss ways
midwestern women s lives resemble those women of other regions and ways in which their lives are distinctive By addressing
a broad range of questions about the lives of midwestern women this volume encourages further research of this neglected
but important group The volume also includes a lengthy bibliography **A New Language, A New World** Nancy C.
Carnevale, 2010-10-01 An examination of Italian immigrants and their children in the early twentieth century *A New
Language A New World* is the first full length historical case study of one immigrant group s experience with language in
America Incorporating the interdisciplinary literature on language within a historical framework Nancy C Carnevale
illustrates the complexity of the topic of language in American immigrant life By looking at language from the perspectives of
both immigrants and the dominant culture as well as their interaction this book reveals the role of language in the formation
of ethnic identity and the often coercive context within which immigrants must negotiate this process **Immigrants in
American History** Elliott Robert Barkan, 2013-01-17 This encyclopedia is a unique collection of entries covering the arrival
adaptation and integration of immigrants into American culture from the 1500s to 2010 Few topics inspire such debate
among American citizens as the issue of immigration in the United States Yet it is the steady influx of foreigners into America
over 400 years that has shaped the social character of the United States and has favorably positioned this country for

globalization Immigrants in American History Arrival Adaptation and Integration is a chronological study of the migration of various ethnic groups to the United States from 1500 to the present day This multivolume collection explores dozens of immigrant populations in America and delves into major topical issues affecting different groups across time periods For example the first author of the collection profiles African Americans as an example of the effects of involuntary migrations A cross disciplinary approach derived from the contributions of leading scholars in the fields of history sociology cultural development economics political science law and cultural adaptation introduces a comparative analysis of customs beliefs and character among groups and provides insight into the impact of newcomers on American society and culture

Postethnic America David A Hollinger, 2006-02-28 Sympathetic with the new ethnic consciousness Hollinger argues that the conventional liberal toleration of all established ethnic groups no longer works because it leaves unchallenged the prevailing imbalance of power Yet the multiculturalist alternative does nothing to stop the fragmenting of American society into competing ethnic enclaves each concerned primarily with its own well being Hollinger argues instead for a new cosmopolitanism an appreciation of multiple identities new cross cultural affiliations based not on the biologically given but on consent on the right to emphasize or diminish the significance of one's ethnoracial affiliation Postethnic America is a bracing reminder of America's universalist promise as a haven for all peoples While recognizing the Eurocentric narrowness of that older universalism Hollinger makes a stirring call for a new nationalism He urges that a democratic nation state like ours must help bridge the gap between our common fellowship as human beings and the great variety of ethnic and racial groups represented within the United States

Good Music for a Free People Nancy Newman, 2010 In this book the author examines the activities and reception of the Germania Musical Society an orchestra whose members emigrated from Berlin during the revolutions of 1848 These two dozen Forty eighters gave nearly a thousand concerts in North America during the ensuing six year period possibly reaching a million listeners Drawing on a memoir by Henry Albrecht the author provides insights into the musicians desire to bring their music to the audiences of a democratic republic at this turbulent time Eager to avoid the egotism and self promotion of the European patronage system they pledged to work for their mutual interests both musically and socially One for all and all for one became their motto

John Mitchel Bryan P. McGovern, 2009 This is an informative balanced biography that embraces a man who seemed defined by contradictions McGovern unravels these to reveal how Mitchel made sense of himself and his world The result is a must read book for anyone interested in nineteenth century Irish and American history

Susannah U Bruce author of *The Harp and the Eagle Irish American Volunteers and the Union Army 1861-1865* This book chronicles the life and times of John Mitchel a radical Irish nationalist who relocated to the American South where he became an ardent supporter of the Confederacy before and during the Civil War Mitchel was exiled for his beliefs by the British government in 1848 during the Great Famine 1845-52 Though neither a peasant nor a Catholic he empathized with the plight of over one million impoverished Irish Catholic emigrants who fled starvation These

expatriates believed that they had been forced unwillingly from their homes by the British government which they also blamed for causing the famine or at least creating conditions that seriously threatened Irish survival As a publisher of several expatriate newspapers Mitchel was able to echo the sentiments of his audience and perhaps more important shape the prevailing attitudes of Irish Americans attempting to adjust to a hostile society Well educated bourgeois and respected by the Irish immigrant community the Protestant Mitchel became an ardent Irish nationalist during a time when most Irish Protestants including the Scotch Irish in America were becoming almost uniformly opposed to Irish nationalism In giving full treatment to his experience in America this first contemporary biography of Mitchel addresses the basic paradox of his ideology why an Irish nationalist who called for an end to the British enslavement of the Irish enthusiastically supported the slave society of the American South It thus sheds invaluable light on how Irish nationalism played out on both sides of the Atlantic and on issues of racism and cultural assimilation facing the United States during the mid nineteenth century Bryan McGovern is an assistant professor of history at Kennesaw State University He published an essay on Mitchel in *New Hibernia Review* Annual Report - National Endowment for the Humanities National Endowment for the Humanities,1986

Frontier Settlement and Market Revolution Charles E. Brooks,1996 In *Frontier Settlement and Market Revolution* Charles E Brooks explains how the Holland Land Purchase in which the Holland Land Company purchased 3 3 million acres of land in western New York State contributed to the development of a frontier region **Mexican Chicago** Gabriela F. Arredondo,2008 *Becoming Mexican in early twentieth century Chicago* **To Tara Via Holyhead** Lyndon Fraser,1997 *To Tara via Holyhead* provides a fascinating glimpse into the lives and experiences of Irish Catholic immigrants in nineteenth century Christchurch Lyndon Fraser has used a wide variety of government local body and church records to track individuals and families in detail He shows how the immigrants adjusted imaginatively and creatively to a new environment by forging durable social networks based on ethnic ties *To Tara via Holyhead* is also a significant contribution to the study of immigration to New Zealand as it explores issues of ethnicity kinship and community that have been widely debated by historians Fraser is familiar with these discussions and is able to make valuable comparisons with North American experience Unequal Freedoms Jeff Strickland,2015-09-08 Focusing on Charleston South Carolina Jeff Strickland examines the ways that race ethnicity and class shaped the political economy of this vital Southern city during the second half of the nineteenth century **National Endowment for the Humanities ... Annual Report** National Endowment for the Humanities, *A Measure of Success* Michael J. McTighe,1994-01-01 As a framework for this analysis he develops a methodology for measuring the success or influence of religion in a particular society Merchants, Midwives, and Laboring Women Diane C. Vecchio,2006 Diane C Vecchio s unique study considers the work experiences of Italian immigrant women and their daughters in the previously unexamined regions of Milwaukee Wisconsin and Endicott New York during the turn of the twentieth century Using Italian and American sources and rich oral histories this study reveals that women in

Italy had economic responsibilities that often included work experiences outside of the home including jobs as midwives and businesswomen Demonstrating the regional variation of Italian women s work as well as the skills they transplanted to America balances the image of inexperienced and low skilled labourers that dominates scholarship on Italian working women Vecchio s research on Endicott sheds light on the gendered nature of life in a company town governed by welfare paternalism while her research on Milwaukee emphasizes how Italian immigrant women turned to small business enterprise when local opportunities for wage earning were limited Dutch Immigrant Women in the United States, 1880-1920 Suzanne M. Sinke,2002 Examining the domain of the home as well as the related realms of education religion health care and worldview Sinke discerns women s contributions to the creation and adaptation of families and communities pointing out how they differed from those of men Through Sinke s articulate and captivating descriptions of real women the statistical evidence comes to life providing valuable and heretofore unexamined views on the international marriage market language shifts the acquisition of American customs the church s role in adaptation and the shifting economies that allowed women to work outside the home A parallel analysis of the United States and the Netherlands as developing welfare states provides a fascinating look at what Dutch immigrant women left behind compared to what they faced in America regarding health care education and quality of life issues BOOK JACKET *Beyond Cannery Row* Carol Lynn McKibben,2006-01-04 Presenting a nuanced story of women migration community industry and civic life at the turn of the twentieth century Carol Lynn McKibben s *Beyond Cannery Row* analyzes the processes of migration and settlement of Sicilian fishers from three villages in Western Sicily to Monterey California and sometimes back again McKibben s analysis of gender and gender roles shows that it was the women in this community who had the insight the power and the purpose to respond and even prosper amid changing economic conditions Vividly evoking the immigrants everyday experiences through first person accounts and detailed description McKibben demonstrates that the cannery work done by Sicilian immigrant women was crucial in terms of the identity formation and community development These changes allowed their families to survive the challenges of political conflicts over citizenship in World War II and intermarriage with outsiders throughout the migration experience The women formed voluntary associations and celebrated festas that effectively linked them with each other and with their home villages in Sicily Continuous migration created a strong sense of transnationalism among Sicilians in Monterey which has enabled them to continue as a viable ethnic community today *Absolute Convictions* Eyal Press,2007-02-20 In 1998 one of only two doctors in Buffalo New York who performed abortions was shot dead by a radical antiabortion activist The son of the surviving doctor now presents a gripping account of a family and a city caught in the crossfire of moral fervor and individual rights in the fierce battle over abortion **A Companion to 19th-Century America** William Barney,2008-04-15 A Companion to 19th Century America is an authoritative overview of current historiographical developments and major themes in the history of nineteenth century America Twenty seven scholars all specialists in their own thematic areas
