

In a 1971 interview,¹ Barthes explains that he first read Michelet at the suggestion of Joseph Barari, a musicologist and scholar interested in the philosophy of history, whom he had met as a student before the war. Barari was a highly cultured man who was well-read outside the mainstream and who had the ability to sense the 'enigmatic' within the 'outmoded'.² Jules Michelet (1798-1874) was a major figure of the French Romantic movement, who had been at the forefront of intellectual life in the nineteenth century. His political ideas were particularly influential among the radical and socialist leaders who took part in the upheavals of 1848, notably the Paris popular uprising of June 1848, which was brutally repressed by the elite bourgeoisie that had been wielding power since the 1789 French Revolution. In addition to his life's work – a *History of France* in 23 volumes (1833-1867) – Michelet's publications included an impassioned *History of the French Revolution* in seven volumes (1847-53) and a visionary *Introduction to Universal History* (1831), as well as smaller books on more personal themes – nature, love, womanhood. His approach to historiography was highly subjective and his beliefs – a mixture of sentimentalism, socialism, anticlericalism and Republican idealism verging on the mystical – were imparted with rich eloquence. With the introduction of scientific methods into the study of history towards the end of the nineteenth century, Michelet's work was bound not to fare well. Indeed the 1911 edition of the *Encyclopædia Britannica*, which by 1974 had altogether dropped his entry,³ was already introducing Michelet as the 'most stimulating, but most untrustworthy (not in facts, which he never consciously falsifies, but in suggestion) of all historians.'⁴ By the time Barthes started reading Michelet and took to him, Michelet's highly subjective interpretation of history, sympathetic approach to his subject and dithyrambic style were long outmoded. Yet it was precisely these aspects that fascinated Barthes.

Barthes was not interested in Michelet's political ideas, which he described as unoriginal, adding that Michelet's defence of republican and democratic institutions was largely shared by the liberal petty bourgeoisie of mid-nineteenth century France.⁵ Barthes was essentially interested in Michelet the man of letters, whose writings he admired for their 'baroque strength'.⁶ Barthes was fascinated by Michelet's total dedication to both history and writing, manifest in his intense, personal involvement in his narratives. Barthes was also particularly sensitive to those aspects that would eventually lead to a positive re-evaluation of Michelet's work: his desire to re-create the past in all its material, existential, experiential reality; to exhumate the dead and the nameless in order give them a voice; and thus conjure up the totality of human experience.
