

The background of the image is a soft, warm-toned sky with a gradient from light yellow to pale orange. Several birds are captured in flight, their silhouettes and some wing details visible against the bright background. One bird is prominently shown in the upper right corner, another in the lower right, and several others are scattered in the lower left and center, all appearing to be in various stages of flight. The overall mood is uplifting and inspirational.

My Little About Flying:

Flying Magazine ,1953-07 *The Journey* Justin G. Jadin,2013-02 Justin had given up hope on ever finding true love but when he met Lily everything changed Born into a traditional Chinese family Lily was expected to do as she was told Loyalty to country and to family was of utmost importance while loyalty to self was not a common pursuit Raised in a society where it was considered a weakness to show emotions or develop character Lily quietly dreamed of liberation and sharing a life with someone she felt happy with Despite facing burdensome challenges of age race and cultural differences Justin and Lily knew without a doubt that their love was worth fighting for A book for anyone who has risen above the binding expectations of others and discovered a freedom that only belief in the impossible can bring It is for anyone who dare to believe in things that are yet to be seen and for anyone who dare to believe in destiny and refuse to give up on their dream It is for anyone who has ever longed to experience true love and to believe in it s possibility A timeless tale with a twist of finding love and holding onto it at all costs **'Flying from My Mind'** David G. Cook,2008-03-27 The memoirs of a hang glider pilot and pioneer and his first hand account of designing the revolutionary Shadow microlight aircraft This fascinating story begins in 1973 when David Cook built a glider in an attempt to win the Selsey Birdman Rally an annual event where all types of creations are launched from the end of Bognor Pier Between 1975 and 1977 he won every National and International hang gliding competition entered and then in 1977 he designed and built a power unit for his glider In 1978 it became the first and lowest powered microlight to cross the English Channel Cook s successes in this venture led to sponsorship from Duckhams Oils and there followed a period of demonstration flights at major air shows In 1982 he designed a microlight called Shadow and in 1983 it took the FAI world speed and distance records for the class In 1992 he took the aircraft to 23 600 ft to claim the world altitude record for the class beaten later by himself in a newly designed Streak to 27 150 ft David started a company to build the Shadow in 1984 and has demonstrated its remarkable flying abilities around the world during which time he had many amusing and some exciting experiences In 1987 the Shadow won the British Design Award **Flying Magazine** ,1969-04 **Flying Magazine** ,1948-02 **Selections for Recitation compiled for the use of Elementary Schools ...
