Nicolas Poussins Landscape Allegories:

Nicolas Poussin's Landscape Allegories Sheila McTighe, 1996-03-29 Nicolas Poussin's Landscape Allegories offers new interpretations for several of the most beautiful and enigmatic paintings of the artist's late career. Sheila McTighe examines the landscapes within the social and intellectual context of seventeenth-century libertinage, a clandestine atheist movement, and argues that despite their outward limpidity, Poussin's landscape allegories are deliberately obfuscatory; their meaning ensconced in a set of signs and symbols recognizable only to an intellectual milieu that was marginal in seventeenth-century cultural life.

Landscape and the Visual Hermeneutics of Place, 1500-1700 Karl A.E. Enenkel, Walter Melion, 2020-12-29 This volume examines the image-based methods of interpretation that pictorial and literary landscapists employed between 1500 and 1700. The seventeen essays ask how landscape construed as the description of place in image and/or text more than merely inviting close viewing was often seen to call for interpretation or better for the application of a method or principle of interpretation. Contributors: Boudewijn Bakker, William M. Barton, Stijn Bussels, Reindert Falkenburg, Margaret Goehring, Andrew Hui, Sarah McPhee, Luke Morgan, Shelley Perlove, Kathleen P. Long, Lukas Reddemann, Denis Ribouillault, Paul J. Smith, Troy Tower, and Michel Weemans.

Poussin's Women Troy Thomas, 2025-10-01 Poussin's Women: Sex and Gender in the Artist's Works examines the paintings and drawings of the well-known seventeenth-century French painter Nicolas Poussin (1594-1665) from a gender studies perspective, focusing on a critical analysis of his representations of women. The book's thematic chapters investigate Poussin's women in their roles as predators, as lustful, or the objects of lust, as lovers, killers, victims, heroines, or models of virtue. Poussin's paintings reflect issues of gender within his social situation as he consciously or unconsciously articulated its conflicts and assumptions. A gender studies approach brings to light new critical insights that illuminate how the artist represented women both positively and negatively within the framework of his seventeenth-century culture. This book covers the artist's works from Classical mythology, Roman history, Tasso, and the Bible. It serves as a good overview of Poussin as an artist, discussing the latest research and including new interpretations of his major works.

Poussin and France Todd Olson, Nicolas Poussin, 2002-01-01 Nicolas Poussin, perhaps the most famous French painter of the seventeenth century, lived and worked for many years in Rome. Yet he remained deeply engaged with cultural and political transformations occurring in France. Argues Todd R. Olson in this original exploration of Poussin's paintings, their production, and their reception. Poussin's references to ancient literature and sculpture addressed a political elite, the Robe nobility, whose humanist education in classical antiquity equipped them to relate Greek and Roman history to contemporary events and to deploy ancient precedents in legalistic and political arguments. When the French civil war, known as the Fronde, erupted in the middle of the seventeenth century, the paintings that Poussin exported to France responded directly in both subject and style to the crisis in monarchical authority and the disenfranchisement of his Robe patrons. Olson demonstrates that Poussin's association with a disgraced political group, his loss of official support, and his exile in Italy

imbued his history paintings with a symbolic weight The painter's audience considered the hard-earned pleasures of his restrained difficult pictorial style a benchmark of integrity as well as a criticism of the Regency's indiscriminate collecting practices and taste for foreign luxury Poussin transformed the easel painting its making and collection into an expression of cultural and political commitments binding a community Olson's fresh insights reveal the importance of this painter's work to a learned and powerful French constituency at a critical moment in French history and demonstrate that Poussin's famously timeless style was far more responsive to historical contingencies than has been previously recognized

Poussin and Nature Metropolitan Museum of Art (New York, N.Y.), 2008 The work of the great French painter Nicolas Poussin 1594-1665 is most often associated with classically inspired settings and figures depicting solemn scenes from mythology or the Bible Yet he also created some of the most influential landscapes in Western art endowing them with a poetic quality that has been admired by artists as different as Constable Turner and Cezanne As the British critic William Hazlitt noted in 1844 This great and learned man might be said to see nature through the glass of time This beautiful catalogue presents the first in depth examination of Poussin's landscapes Featured here are more than 40 paintings ranging from the artist's early Venetian inspired pastorals to his grandly structured and austere works designed as metaphors or allegories for the processes of nature Also included are approximately 60 drawings and essays by internationally renowned scholars who examine the painter's visual literary and philosophical influences as well as his relationships with his patrons and his place in the art historical canon Publisher description

Translations of the Sublime Caroline A. van Eck, 2012-09-28 Contrary to widely held assumptions the early modern revival of Pseudo-Longinus On the Sublime did not begin with the adaptation published by Boileau in 1674 it was not connected solely with the Greek editions that began to appear from 1554 nor was its impact limited to rhetoric and literature Manuscript copies began to circulate in Quattrocento Italy but very few have been studied Neither have the ways the sublime was used in rhetoric and literature but also in the arts architecture and the theatre been studied in any systematic way The present volume is a first attempt to chart the early modern translations of Pseudo-Longinus both in the literal sense of the history of its dissemination by means of editions versions and translations in Latin and vernacular languages but also in the figurative sense of its uses and transformations in the visual arts in the period from the first early modern editions of Longinus until its popularization by Boileau Contributors include Francis Goyet Hana Gröndler Lydia Hamlett Sigrid de Jong Helen Langdon Bram Van Oostveldt Eugenio Refini Paul Smith and Dietmar Till

Landscape Allegory in Cinema D. Melbye, 2010-07-19 This study seeks to understand the form of cinematic space referred to as the landscape of the mind in which natural outdoor settings serve as outward manifestations of characters' inner subjective states

Poussin and the Poetics of Painting Jonathan Unglaub, 2006-02-06 This book examines how Poussin cultivated a poetics of painting from the literary culture of his own time and especially through his response to the work of Torquato Tasso Tasso's poetic discourses were the most important

source for Poussin's theory of painting Poussin does not merely illustrate Tasso's verse but cultivates pictorial means to refashion the poet's metaphors of desire Offering new interpretations of these works this book also investigates Poussin's larger literary culture and how this context illuminates the artist's response to contemporary poetic texts especially in his mythological paintings

"Painting and Narrative in France, from Poussin to Gauguin " Nina Baym, 2017-07-05

Before Modernism narrative painting was one of the most acclaimed and challenging modes of picture making in Western art yet by the early twentieth century storytelling had all but disappeared from ambitious art France was a key player in both the dramatic rise and the controversial demise of narrative art This is the first book to analyse French painting in relation to narrative from Poussin in the early seventeenth to Gauguin in the late nineteenth century Thirteen original essays shed light on key moments and aspects of narrative and French painting through the study of artists such as Nicolas Poussin Charles Le Brun Jacques Louis David Paul Delaroche Gustave Moreau and Paul Gauguin Using a range of theoretical perspectives the authors study key issues such as temporality theatricality word and image relations the narrative function of inanimate objects the role played by viewers and the ways in which visual narrative has been bound up with history painting The book offers a fresh look at familiar material as well as studying some little known works of art and reveals the centrality and complexity of narrative in French painting over the course of three centuries
