Nietzsche His Philosophy Of Contradictions And The Contradictions Of His Philosophy:

Nietzsche Wolfgang Müller-Lauter, 1999 This is the first translation into English of a milestone in Nietzsche interpretation Wolfgang Müller-Lauter examines Nietzsche's doctrines of the will to power and the overman in light of Nietzsche's philosophy of real contradictions He shows that Nietzsche's vision of inherently contradictory wills to power is the source of irresolvable contradictions in his philosophy Müller-Lauter has remained at the forefront of German Nietzsche studies throughout the quarter century since this book first appeared This long awaited translation containing two substantial subsequent essays is a major addition to the English language Nietzsche literature Nietzsche Wolfgang Müller-Lauter, 1999 This is the first translation into English of a milestone in Nietzsche interpretation Wolfgang Müller-Lauter examines Nietzsche's doctrines of the will to power and the overman in light of Nietzsche's philosophy of real contradictions He shows that Nietzsche's vision of inherently contradictory wills to power is the source of irresolvable contradictions in his philosophy Müller-Lauter has remained at the forefront of German Nietzsche studies throughout the quarter century since this book first appeared This long awaited translation containing two substantial subsequent essays is a major addition to the English language Nietzsche literature **Nietzsche** Wolfgang Müller-Lauter, 1999 **Nietzsche's Revolution** C. Schotten, 2009-07-20 This book claims Nietzsche as a leftist revolutionary but without overlooking the conservative and retrogressive elements of his political philosophy The author argues that these two halves of his philosophy help construct a new form of politics for contemporary readers a possibility of revolution post Marx Nietzsche on Consciousness and the Embodied Mind Manuel Dries, 2018-09-10 Nietzsche's thought has been of renewed interest to philosophers in both the Anglo American and the phenomenological and hermeneutic traditions Nietzsche on Consciousness and the Embodied Mind presents 16 essays from analytic and continental perspectives Appealing to both international communities of scholars the volume seeks to deepen the appreciation of Nietzsche's contribution to our understanding of consciousness and the mind Over the past decades a variety of disciplines have engaged with Nietzsche's thought including anthropology biology history linguistics neuroscience and psychology to name just a few His rich and perspicacious treatment of consciousness mind and body cannot be reduced to any single discipline and has the potential to speak to many And as several contributors make clear Nietzsche's investigations into consciousness and the embodied mind are integral to his wider ethical concerns This volume contains contributions by international experts such as Christa Davis Acampora Emory University Keith Ansell Pearson Warwick University João Constâncio Universidade Nova de Lisboa Frank Chouraqui Leiden University Manuel Dries The Open University Oxford University Christian J Emden Rice University Maria Cristina Fornari University of Salento Anthony K Jensen Providence College Helmut Heit Tongji University Charlie Huenemann Utah State University Vanessa Lemm Flinders University Lawrence J Hatab Old Dominion University Mattia Riccardi University of Porto Friedrich Ulfers and Mark Daniel Cohen New York University and EGS and Benedetta Zavatta CNRS **Nietzsche and Theology** David

Deane,2017-03-02 Theology has always viewed Nietzschean thought with a sideways glance never quite sure what to make of it Where serious engagement has occurred it has tended to either reject such thought outright or to accept it to such an extent that it loses its identity as Christian theology This book outlines a model for incorporating Nietzschean thought within the structures of a wholly traditional Christological anthropology What is perhaps even more significant is what shows up in Christological anthropology under this Nietzschean light Using Nietzschean concepts a whole new lexicon is opened up for understanding and articulating traditional accounts of sin and fallenness accounts which modern theology has often lacked the categories to articulate The book culminates in a doctrine of reconciliation which is given urgency and coherence precisely through such reinvigoration of traditional accounts using Nietzschean thought *The New Cambridge Companion to Nietzsche* Tom Stern,2019-04-18 Provides comprehensive and up to date coverage of Nietzsche s philosophy his key works and themes his major influences and his legacy **Thinking Life with Luce Irigaray** Gail M. Schwab,2020-04-01 Featuring a highly accessible essay from Irigaray herself this volume explores her philosophy of life and living Life thinking an important contemporary trend in philosophy and in women s and gender studies stands in contrast to philosophy s traditional grounding in death exemplified in the work of philosophers such as Socrates Plato and Schopenhauer The contributors to Thinking Life with Luce Irigaray consider Irigaray s criticisms of the traditional Western philosophy of death including its either/or dualisms and binary logic as well as some of Irigaray s solutions for cultivating life The book is comprehensive in its analyses of Irigaray s relationship to classical and contemporary philosophers writers and artists and produces extremely fruitful intersections between Irigaray and figures as diverse as Homer and Plato Alexis Wright the First Nations novelist of Australia and twentieth century French philosophers like Sartre Badiou Deleuze and Guattari It also develops Irigaray s relationship to the arts with essays on theater poetry architecture sculpture and film *The Multidimensionality of Hermeneutic Phenomenology* Babette Babich,Dimitri Ginev,2014-01-15 This book offers new reflections on the life world from both phenomenological and hermeneutic perspectives It presents a prism for a new philosophy of science and technology especially including the social sciences but also the environment as well as questions of ethics and philosophical aesthetics in addition to exploring the themes of theology and religion Inspired by the many contributions made by the philosopher Joseph Kockelmans this book examines the past present and future prospects of hermeneutic phenomenology It raises key questions of truth and method as well as highlights both continental and analytic traditions of philosophy Contributors to The Multidimensionality of Hermeneutic Phenomenology include leading scholars in the field as well as new voices representing analytic philosophers of science hermeneutic and phenomenological philosophers of science scholars of comparative literature theorists of environmental studies specialists in phenomenological ethics and experts in classical hermeneutics Nietzsche's Meta-Existentialism Vinod Acharya,2013-11-27 Vinod Acharya presents a new existential interpretation of Nietzsche s philosophy He contends that Nietzsche s peculiar form of existentialism can be

understood only by undertaking a thorough analysis of his characterization and critique of metaphysics This reading remedies the shortcomings of previous existential interpretations of Nietzsche which typically view existentialism as concerned primarily with the meaning of individual existence and therefore necessarily at odds with the abstraction and objectivity of metaphysical thought Acharya argues that the approach of Nietzsche's philosophy especially in his mature works is to make the typical existential position foundational and then to develop to the fullest the implications of this position This meta existential approach necessarily yields an ambiguous and open ended critique of metaphysics Taking issue with the Heideggerian the poststructuralist and the naturalistic interpretations this book contends that Nietzsche neither simply overcomes metaphysics nor remains trapped within its confines Acharya argues that an ever renewed encounter with and critique of metaphysics is an essential aspect of Nietzsche's meta existentialism
