## **Nilopolitics A Hydrological Regime 1870-1990 Cairo Papers In Social Science:**

*Cairo Papers in Social Science*, 2005      **The Nile Development Game** Mina Michel Samaan, 2018-12-30 This book introduces an analytic framework constructed upon the iterated Prisoners Dilemma game to model and analyze transboundary water interactions along the Nile River. It presents a thorough and in depth analysis of the historical path through which conflict and cooperation have been generated among the Nile riparians over large scale developmental schemes. This is done through modeling water interactions in the basin as an iterated Prisoners Dilemma game and employing process tracing method to compare four distinguishable rounds of the game: the colonial round, the Cold War round, the post Cold War round, and the post 2011 round. The book examines the influences of the changing political contexts at the domestic, regional, and global levels on the game outcomes. This framework is initially applied on several cases of international rivers worldwide while the rest of the book is devoted to the Nile case. The book's central argument is that the riparians' interests, capabilities, and beliefs are heterogeneous in varying degrees and that the changing multilevel political contexts influence the level of such heterogeneities among the riparians which ultimately drive the equilibrium dynamics in the Nile game to generate different conflictive and cooperative outcomes over time. Although the book's main conclusion indicates that the absence of economic interdependence and regional integration will transfer the game into tug of war which will impose harsh punishment on the basin communities and ecosystems, on the long term, the final chapter lists a group of recommendations addressed to the riparian states and international donors exploring the way for boosting cooperation and preventing conflicts in the basin. Presenting clear theoretical, methodological, and policy implications, this book is appropriate for students and scholars of international relations, hydrology, and development studies.      Water Resources Perspectives: Evaluation, Management and Policy

W.W. Wood, A.S. Alsharhan, 2003-12-09 Many countries in the world have made great efforts to remedy the water shortage by providing financial and technical backing for water desalination, treatment of wastewater, and improved management and conservation techniques. Water ministries, universities, and research centres have supported scientific research and applied the most recent technologies in search of new and alternative water supplies. Laws have been promulgated, economic and public relation campaigns developed to promote and encourage the practice of efficient water use, and the conservation of this scarce commodity. This book covers water resources and management and provides a new vision of water resources management, water conservation, and legislations, water law, and modern techniques of water resources investigation.      *Historical Dictionary of Ethiopia* David H. Shinn, Thomas P. Ofcansky, 2013-04-11

Ethiopia is clearly one of the most important countries in Africa. First of all, with about 75 million people, it is the third most populous country in Africa. Second, it is very strategically located in the Horn of Africa and borders Eritrea, Sudan, Kenya, and Somalia, with some of whom it has touchy and sometimes worse relations. Yet its capital, Addis Ababa, is the headquarters of the African Union, the prime meeting place for Africa's leaders. So if things went poorly in Ethiopia, this would not be good.

for Africa and for a long time this was the case with internal disruption rife until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi The Historical Dictionary of Ethiopia Second Edition covers the history of Ethiopia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Ethiopia Fiscal Policy Measures in Egypt: Public Debt and Food Subsidy Jūdah 'Abd al-Khāliq, Karima Korayem, 2001 A collection of papers on new dimensions in the study of social history of the Middle East delivered at the Cairo Papers Eighth Annual Symposium by Horst Unbehauen Joseph Massad Nelly Hanna Martina Rieker Khaled Fahmy and Peter Gran The Political Economy of the New Egyptian Republic Nicholas S.
