Roberg,2012-01-01 Ecotourism is often promoted as a way to visit a unique area of spectacular beauty While tourists travel to these destinations to view environmental wonders they seldom consider the effects of their visit on the indigenous people or on the location itself Tourism in Northeastern Argentina The Intersection of Human and Indigenous Rights with the Environment an edited collection by Penny Seymoure and Jeffrey L Roberg examines the impact of tourism on indigenous and local populations and the environment they live in specifically in several locations in the northeast of Argentina Several of the chapters examine the lives and problems of the Mbya Guaran people an indigenous

culture that has been attempting to survive in the rainforest of Misiones Province In recent years the loss of traditional lands some of which was taken for tourist hotels has led the Mbya to engage in tourism with both positive and negative changes to their culture Most of the tourists who interact with the Mbya come to the area to see the beautiful Iguazu National Park and Waterfalls and stay in the nearby city of Puerto Iguazu The waterfalls now draw over one million visitors a year The authors of this volume further explore how while Puerto Iguazu has been engaged in mass tourism for many years the nearby small town of Colonia Carlos Pelligrini has struggled to keep its younger tourism industry modest due in part to its location near pristine wetlands This town faces a number of challenges that must be addressed soon to protect both the surrounding wetlands and the town itself Tourism in Northeastern Argentina explores all of these issues and more in the context of human and indigenous rights and the protection of the environment

Historia comparada de las literaturas argentina y brasileña - Tomo IV Marcela Croce ,2018-06-12 El periodo que se inicia con las manifestaciones vanguardistas de los años 20 y se cierra con el desbaratamiento de los regímenes de Getulio Vargas y Juan Domingo Perón es uno de los más fructíferos en términos estéticos Una antropología impresionista lo caracteriza como el momento que conduce de los últimos hombres felices a los sujetos desazonados que en los años 50 procuran reflotar una izquierda revolucionaria en medio de la debacle del populismo Para llegar a ese punto tanto la Argentina como Brasil atravesaron una etapa de ensayos intuitivos a veces con afanes sociológicos e invariablemente con un despliegue retórico que ubica a esas obras entre las producciones más representativas de la literatura En el orden de las aproximaciones voluntaristas al ser nacional se enlazan Ezequiel Martínez Estrada y Gilberto Freyre Eduardo Mallea y Paulo Prado Raúl Scalabrini Ortiz y Sérgio Buarque de Holanda a veces conectados con la vanguardia más revulsiva la Antropofagia y el martinfierrismo a veces oponiéndose a semejantes desbordes el regionalismo El volumen comienza estableciendo las condiciones para que surjan los movimientos de renovación y se clausura con el lamento oligárquico por la pérdida de privilegios que se advierte definitiva hacia mediados de siglo Las contradicciones que abarcan tres décadas son indagadas en una serie de capítulos en que las polémicas más virulentas alternan con el humanismo político la militancia católica y la búsqueda de explicaciones para la modernización dependiente en la que quedan incluidos Argentina y Brasil en el orden mundial definido por el dominio absoluto de los Estados Unidos en la escena internacional
