Sexual Revolutions Gottfried Heuer, 2010-11-17 The ideas of psychoanalyst Otto Gross 1877 1920 have had a seminal influence on the development of the psychoanalytic discipline and yet his work has been largely overlooked Sexual Revolutions introduces the work of Otto Gross to the academic and clinical fields of psychoanalysis and Jungian Analysis

Transparent Minds Dorrit Claire Cohn, 2020-05-05 This book investigates the entire spectrum of techniques for portraying the mental lives of fictional characters in both the stream of consciousness novel and other fiction Each chapter deals with one main technique illustrated from a wide range of nineteenth and twentieth century fiction by writers including Stendhal Dostoevsky James Mann Kafka Joyce Proust Woolf and Sarraute Robert Musil and the NonModern Mark M. Freed, 2011-04-28 Positions Robert Musil's theory and writings within recent critical accounts of modernism and brings him into dialogue with continental philosophy **German Literature in a New Century** Katharina Gerstenberger, Patricia

Herminghouse, 2008 While the first decade after the fall of the Berlin wall was marked by the challenges of unification and the often difficult process of reconciling East and West German experiences many Germans expected that the new century would achieve normalization The essays in this volume take a closer look at Germany's new normalcy and argue for a more nuanced picture that considers the ruptures as well as the continuities Germany's new generation of writers is more diverse than ever before and their texts often not only speak of a Germany that is multicultural but also take a more playful attitude toward notions of identity Written with an eye toward similar and dissimilar developments and traditions on both sides of the Atlantic this volume balances overviews of significant trends in present day cultural life with illustrative analyses of individual writers and texts **Monatshefte**, 1975 *Twilight Memories* Andreas Huyssen, 2012-11-12 In this new collection of essays on memory and amnesia in the postmodern world cultural critic Andreas Huyssen considers how

nationalism literature art politics and the media are obsessed with the past The great paradox of our fin de siecle culture is that novelty is even more associated with memory than with future expectation Drawing heavily on the dilemmas of contemporary Germany Huyssen's discussion of cultural memory illustrates the nature of contemporary nationalism the work of such artists and thinkers as Anselm Kiefer Alexander Kluge and Jean Baudrillard and many others The book includes illustrations from contemporary Germany **Thomas Mann Studies, Volume 2** Klaus W. Jonas, Ilse B.

Jonas, 2016-11-11 Seldom if ever has there lived in the United States a foreign born writer who has won such universal acclaim and made such an impact on the American literary scene as Thomas Mann Not only have Mann's works with very few exceptions been translated but he is also one of the most eagerly collected of all modern authors This volume will serve any student of literature or collector who is anxious to locate materials on Thomas Mann Thomas Mann Studies Volume II is intended first of all as the bibliographical record for the period from 1954 to 1965 Since the death of Mann in 1955 a vast amount of material has been published about the man and his work This extraordinary book lists almost four thousand items

of criticism about the novelist which are not to be found in any previous bibliography By far the majority of the items are in German followed by a large number in English French Italian and Swedish Other languages represented include Japanese Dutch Spanish Romanian Danish Polish and Russian Achieving its primary purpose of facilitating research in the rapidly growing area of Thomas Mann studies throughout the world this book forms the complete record of critical secondary literature about Mann published as well as unpublished through 1965 It also contains a comprehensive chapter on Mann's manuscripts describing the public and private collections in which his papers are now preserved

Modernist Exoskeleton Murray Rachel Murray, 2020-03-02 Argues for the importance of insects to modernism's formal innovations Uses the idea of the insect as a key to modernist writers' engagement with questions of politics psychology life and literary form Provides in depth analysis of lesser known modernist narratives such as H. D.'s *Asphodel* and Lewis's *Snooty Baronet* as well as new readings of canonical texts including D. H. Lawrence's *Lady Chatterley's Lover* and Samuel Beckett's *Trilogy* Explores the influence of popular scientific writing on modernist aesthetics Reveals the attentiveness of modernist writers to nonhuman life thus forging new lines of connection between modernism and literary animal studies Focusing on the writing of Wyndham Lewis D. H. Lawrence H. D. and Samuel Beckett this book uncovers a shared fascination with the aesthetic possibilities of the insect body its adaptive powers distinct stages of growth and swarming formations Through a series of close readings it proposes that the figure of the exoskeleton which functions both as a protective outer layer and as a site of encounter can enhance our understanding of modernism's engagement with nonhuman life as well as its questioning of the boundaries of the human

Turning Points Ansgar Nünning, Kai Marcel Sicks, 2012-10-30 At times of crisis and revolution such as ours diagnoses of crucial junctures and ruptures turning points in the continuous flow of history are more prevalent than ever Analysing literary cinematic and other narratives the volume seeks to understand the meanings conveyed by different concepts of turning points the alternative

concepts to which they are opposed when used to explain historical change and those contexts in which they are unmasked as false and over simplifying constructions Literature and film in particular stress the importance of turning points as a sensemaking device as part of a character's or a community's cultural memory while at the same time unfolding the constructive and hence relative character of turning points Offering complex reflections on the notion of turning points literary and filmic narratives are thus of particular interest to the present volume

Distinguished Outsider Christian Rogowski, 1994 A study of the shifts of critical opinion on Musil with special reference to *The Man Without Qualities* Austrian writer Robert Musil 1880-1942 ranks with Proust Joyce Kafka and Thomas Mann as a master of the modern prose narrative his works encompass a wide range of theoretical and aesthetic impulses ranging from Nietzsche to Mach from Gestalt theory to Freudian psychoanalysis This volume traces the scholarly reception of Musil's works marked by discontinuities and abrupt shifts of perception At the beginning of his career Musil was stereotyped as an author primarily interested in morally questionable psychological issues before being plunged into near oblivion by his exile forced by National Socialism After the Second World War he was rediscovered but the development of Musil studies was severely hampered by the inability to determine an authoritative edition of his unfinished masterpiece *Der Mann ohne Eigenschaften* *The Man without Qualities* 1930-43 Professor Rogowski shows how successive generations of scholars have appropriated Musil for their own ends constructing a bewildering and often contradictory array of images of the author according to their own ideological and methodological biases and how this multitude of different perspectives corresponds with changes in German studies and historical developments over the past four decades In so doing he sheds new light on Musil's paradoxical status as in the words of Frank Kermode the least read of the great twentieth century novelists CHRISTIAN ROGOWSKI is assistant professor of German at Amherst College

Friedrich Nietzsche's Impact on Modern German Literature Herbert W. Reichert, 2020-05-01 These previously published essays discuss Nietzsche's influence on Arthur Schnitzler Carl Sternheim Georg Kaiser Robert Musil and Hermann Hesse As a Festschrift it also contains a tribute to Herbert W Reichert and a bibliography of his writings

Modernity and the Text Andreas Huyssen, David Bathrick, 1989-09-06 The study of Austrian and German modernist literature has a long and venerable history in this country There have been no attempts yet however

to reassess German and Austrian literary modernism in light of current discussion of modernity and postmodernity Addressing a set of historical and theoretical questions central to current reevaluations of modernism this volume presents American readers with a state of the art account of German modernism studies in the eighties Essays by Jochen Schulte Sasse Russell A Berman Peter Uwe Hohendahl Judith Ryan Mark Anderson Klaus R Scherpe Biddy Martin Klaus L Berghahn and Acbar Abbas center around German and Austrian literary and philosophical prose of the early twentieth century texts by well known authors Kafka Rilke Musil Döblin Benjamin Benn and Junger and less well known ones Franz Jung Carl Einstein Ernst Bloch Lou Andreas Salome are examined Particular attention is paid to the processes and strategies by which certain experiences of modern life are translated into modern aesthetic forms The unique contribution of this volume is that it combines theory with an attempt to reintroduce an historical and contextual dimension The authors believe that their revisions of Austrian and German modernism will themselves be informed by a new set of questions pertinent to the modernist debate

Skin Claudia Benthien, 2002 She also examines the changing significance of skin through brilliant analyses of art philosophy and anatomical drawings and writings as well as Germanic American and African American literature Benthien discusses the semantic and psychic aspects of touching feeling and intellectual perception the motifs of perforated armored or transparent skin and much more through close readings of such authors as Kleist Büchner Hawthorne Balzac Rilke Kafka Plath Morrison Wideman and Ondaatje

The Vanishing Subject Judith Ryan, 1991-10-08 Is thinking personal Or should we not rather say it thinks just as we say it rains In the late nineteenth century a number of psychologies emerged that began to divorce consciousness from the notion of a personal self They asked whether subject and object are truly distinct whether consciousness is unified or composed of disparate elements what grounds exist for regarding today's self as continuous with yesterday's If the American pragmatist William James declared himself on balance in favor of a real and verifiable personal identity which we feel his Austrian counterpart the empiricist Ernst Mach propounded the view that the self is unsalvageable The Vanishing Subject is the first comprehensive study of the impact of these pre Freudian debates on modernist literature In lucid and engaging prose Ryan traces a complex set of filiations between writers and thinkers over a sixty year period and restores a lost element in the genesis and development of modernism From writers who see the self as nothing more or less than a bundle of sensory impressions Ryan moves to others who hesitate between empiricist and Freudian views of subjectivity and consciousness and to those who wish to salvage the self from its apparent disintegration Finally she looks at a group of writers who abandon not only the dualisms of subject and object but dualistic thinking altogether Literary impressionism stream of consciousness and point of view narration and the question of epiphany in literature acquire a new aspect when seen in the context of the psychologies without the self Rilke's development of a position akin to phenomenology Henry and Alice James's relation to their psychologist brother Kafka's place in the modernist movements Joyce's rewriting of Pater Proust's engagement with contemporary thought Woolf's presentation of consciousness and Musil's projection of a

utopian counter reality are problems familiar to readers and critics The Vanishing Subject radically revises the way we see them *Zarathustra's Children* Raymond Furness, 2000 A study of the enormous influence of the writings of Friedrich Nietzsche on turn of the century German literature The aim of this book is to explore that post Nietzschean archipelago of German literature which no one mind can hope to map let alone inhabit Michael Hamburger and to introduce it to the English speaking reader for the first time in accessible form The study starts from the assumption that the daring imagery and cosmic sweep of Thus Spake Zarathustra provided the impetus for the creation of visionary epics and cosmological poetic universes The book is original in that it presents for the first time a selection of writers hitherto regarded as impossible of access and reduces their epic scope to manageable proportions while preserving their essential meaning Among the writers treated are Alfred Mombert Theodor Däubler Rudolf Pannwitz Ludwig Derleth Alfred Schuler Ludwig Klages Christian Morgenstern and the members of the Friedrichshagen Circle Furness draws on the most recent scholarship and provides a fascinating account of a lost generation The book will be of interest to Nietzsche scholars to students of Lebensphilosophie and to those interested in German literature around the turn of the century It will be of special interest to those drawn to the creation of myths and to radical religious thought Raymond Furness is professor and former chair of German at St Andrews University Scotland He has published widely on late nineteenth and early twentieth century German literature

Held, 2012-12-06 **The Nature Essay** Simone Schröder, 2019-01-04 The Nature Essay Ecocritical Explorations is the first extended study of a powerful literary form born out of the traditions of Enlightenment and Romanticism It traces the varied stylistic paradigms of the nature essay down to the present day Reading essays as platforms for ecological discourse the book analyses canonical and marginalised texts mainly from German English and American literature Simone Schröder argues that the essay's environmental impact is rooted in its negotiation of scientific poetic spiritual and ethical modes of perceiving nature Together the chapters on these four aspects form a historical panorama of the nature essay as a genre that continues to flourish in our time of ecological crisis Authors discussed include Alexander von Humboldt Henry David Thoreau Virginia Woolf Robert Musil Ernst Jünger W G Sebald Kathleen Jamie and David Foster Wallace
