

The background of the slide is a painting. It depicts a woman in a dark, long-sleeved Victorian dress sitting in a room. She is looking down at a book or paper she is holding. To her left is a large, patterned rug with a red and yellow floral design. The room has a dark wall and a framed picture in the background.

Teaching British Women Writers, 1750-1900 Jeanne Moskal, Shannon R. Wooden, 2005 The exuberant recovery from obscurity of scores of British women writers has prompted professors and publishers to revisit publication of women's writings New curricular inclusion of these sometimes quirky often passionate writers profoundly disrupts traditional pedagogical assumptions about what constitutes literature This book addresses this radically changed educational landscape offering practical proven teaching strategies for newly recovered writers both in special topics courses and in traditional teaching environments Moreover it addresses the institutional issues confronting feminist scholars who teach women writers in a variety of settings and the kinds of career altering effects the decision to teach this material can have on junior and senior scholars alike Collectively these essays argue that teaching noncanonical women writers invigorates the curriculum as a whole not only by introducing the voices of women writers but by incorporating new genres by asking new questions about readers assumptions and aesthetic values and by altering the power relations between teacher and student for the better

The Romance of the Lyric in Nineteenth-Century Women's Poetry Lee Christine O'Brien, 2012-10-05 The Romance of the Lyric in Nineteenth Century Women's Poetry Experiments in Form offers a new account of the nature of the lyric as nineteenth century women poets developed the form It offers fresh assessments of the imaginative and aesthetic complexity of women's poetry The monograph seeks to redefine the range and cultural significance of women's writing using the work of poets who have not heretofore been part of critical accounts of nineteenth century lyric poetry These new voices are set beside new readings of the poetry of established figures for example Christina Rossetti's *Goblin Market* and Augusta Webster's *Medea in Athens* and *Circe* The monograph draws substantially on the poetry of Rosamund Marriott Watson who was lost to literary history before the restoration of her oeuvre through the scholarly and critical work of Professor Linda K Hughes to make the case that once neglected and lost voices provide new ways of determining the cultural centrality of women and the poetry they produced in one of the richest periods of poetic experimentation in the Western literary tradition This monograph contends that Watson's poetry and prose provide new ways of analyzing the complex and frequently transgressive nature of the lyric engagement of women with folklore and myth and with the growing understanding in the nineteenth century of the fragmented fluid self in general and of the writer in particular

[A Monument to the Memory of George Eliot](#) Constance M. Fulmer, Margaret E. Barfield, 2013-10-28 The Autobiography is the personal journal of an independent Victorian woman who describes her day to day activities as a businesswoman social reformer scholar and journalist makes many insightful observations on gender issues and provides intriguing details of her relationships with many of the leading political and literary figures of her day particularly the novelist George Eliot whom she admired as a writer and as a person During the

journal years 1876-1900 Simcox made many significant contributions toward improving people's lives but she was always particularly concerned with women's issues. With her friend Mary Hamilton she established a shirtmaking cooperative to provide employment for women, kept the accounts and managed the enterprise. She helped establish trade unions and promote women's suffrage, served as a delegate to the Trade Union Congress and worked closely with Emma Paterson, Annie Besant, Harriet Law, Charles Bradlaugh and William Morris. Simcox was also the author of three books and a regular contributor to leading periodicals. The Autobiography reveals Simcox's childhood, her attitudes toward men and marriage and her relationships with her mother and her two older brothers, both noted writers. The journal provides unique insights into the mind of a remarkable 19th-century woman who worked in and left her mark on a man's world. Her book is a fascinating source of facts, observations and opinions for scholars and readers interested in Eliot Victorian literature and society, gender and women's issues.

Working Women, 1800-2017 Martine Stirling, Delphine Sangu, 2021-04-20

This book examines how over the past 300 years or so women have adapted their work methods, means of subsistence and daily routine to fulfil their dual role as carers and breadwinners. From the industrial revolution which ended agrarian-based subsistence and meant an exodus towards the cities for many families to the digital revolution which redefined the work environment, working hours and even in some cases biological functions, women have succeeded in meeting the challenge of changing work practices, social expectations and economic and family needs. Although women's work both past and present is a much researched area, this volume sheds new light on the subject by combining the approach of historians, sociologists and language and culture specialists and applying it to different countries. Drawing upon original fieldwork and little-known archives, the book will be of interest not only to an academic audience but to anyone wanting to know more about gender, family and labour issues across Europe between the 19th and 21st centuries.

Dress Culture in Late Victorian Women's Fiction Dr Christine Bayles Kortsch, 2013-04-28

In her immensely readable and richly documented book, Christine Bayles Kortsch asks us to shift our understanding of late Victorian literary culture by examining its inextricable relationship with the material culture of dress and sewing. Even as the Education Acts of 1870, 1880 and 1891 extended the privilege of print literacy to greater numbers of the populace, stitching samplers continued to be a way of acculturating girls in both print literacy and what Kortsch terms dress culture. Kortsch explores nineteenth-century women's education, sewing and needlework, mainstream fashion, alternative dress movements, working-class labor in the textile industry and forms of social activism, showing how dual literacy in dress and print cultures linked women writers with their readers. Focusing on Victorian novels written between 1870 and 1900, Kortsch examines fiction by writers such as Olive Schreiner, Ella Hepworth Dixon, Margaret Oliphant, Sarah Grand and Gertrude Dix with attention to influential predecessors.

like Elizabeth Gaskell Charlotte Bront and George Eliot Periodicals with their juxtaposition of journalism fiction and articles on dress and sewing are particularly fertile sites for exploring the close linkages between print and dress cultures Informed by her examinations of costume collections in British and American museums Kortsch s book broadens our view of New Woman fiction and its relationship both to dress culture and to contemporary women s fiction

Imagining Women's Property in Victorian Fiction Jill Rappoport,2023-03-25 Imagining Women s Property in Victorian Fiction reframes how we think about Victorian women s changing economic rights and their representation in nineteenth century novels The reform of married women s property law between 1856 and 1882 constituted one of the largest economic transformations England had ever seen as well as one of its most significant challenges to family traditions By the end of this period women who had once lost their common law property rights to their husbands reclaimed their own assets regained economic agency and forever altered the legal and theoretical nature of wedlock by doing so Yet in literary accounts reforms were neither as decisive as the law implied nor limited to marriage Legal rights frequently clashed with

other family claims and the reallocation of wealth affected far more than spouses or the marital state. Competition between wives and children is just one of many ways in which Victorian fiction suggests the perceived benefits and threats of property reform. In nineteenth century fiction portrayals of women's claims to ownership provide insight into the social networks forged through property transactions and also offer a lens to examine a wide range of other social matters including testamentary practices, wills and copyright law, economic and evolutionary models of mutuality, the twin dangers of greed and generosity, inheritance and custody rights, the economic ramifications of loyalty and family obligation, and the legacy of nineteenth century economic practices for women today. Understanding the reform of married women's property as both an ideologically and materially substantial redistribution of the nation's wealth as well as one complicated by competing cultural traditions, this book explores the widespread ways in which women's financial agency was imagined by fiction that engages with but also diverges from the law in accounts of economic choices and transactions. Repeatedly, narratives by Austen, Dickens, Gaskell, Trollope, Eliot, and Oliphant suggest both that the law is inadequate to account for the way that property enables and disrupts relationships and that the form of the Victorian novel in its ability to track intimate and intricate exchanges across generations is better suited to such tasks. *Women in Journalism at the Fin de Siècle* F. Gray, 2012-03-13

As the nineteenth century drew to a close, women became more numerous and prominent in British journalism. This book offers a fascinating introduction to the work lives of twelve such journalists, and each essay examines the career, writing, and strategic choices of women battling against the odds to secure recognition in a male-dominated society. **The Routledge Concise History of Nineteenth-Century Literature** Josephine Guy, Ian Small, 2010-11-15 Nineteenth century Britain saw the rise of secularism, the development of a modern capitalist economy, multi-party democracy, and an explosive growth in technological, scientific, and medical knowledge. It also witnessed the emergence of a mass literary culture which changed permanently the relationships between writers, readers, and publishers. Focusing on the work of British and Irish authors, *The Routledge Concise History of Nineteenth Century Literature* considers changes in literary forms, styles, and genres, as well as in critical discourses, examines literary movements such as Romanticism, Pre-Raphaelitism, Aestheticism, and Decadence, considers the work of a wide range of canonical and non-canonical writers, discusses the impact of gender studies, queer theory, postcolonialism, and book history, contains useful student-friendly features such as explanatory text boxes, chapter summaries, a detailed glossary, and suggestions for further reading. In their lucid and accessible manner, Josephine M. Guy and Ian Small provide readers with an understanding of the complexity and variety of nineteenth century literary culture, as well as the historical conditions which produced it. **The January-May Marriage in Nineteenth-Century British Literature**

E. Godfrey, 2009-02-02 By considering the disruptive potential of age-disparate marriages in nineteenth century British literature, Godfrey offers provocative new readings of canonical texts including *Don Juan*, *Jane Eyre*, and *Bleak House*.
