Proshloe Kazakhstana V Istochnikakh I Materialakh:

Proshloe Kazakhstana v istochnikakh i materialakh ,1936 The Heritage of Soviet Oriental Studies Michael Kemper,Stephan Conermann,2011-02-01 This book examines the Russian Soviet intellectual tradition of Oriental and Islamic studies which comprised a rich body of knowledge especially on Central Asia and the Caucasus The Soviet Oriental tradition was deeply linked to politics probably even more than other European Orientalisms It breaks new ground by providing Western and post Soviet insider views especially on the features that set Soviet Oriental studies apart from what we know about its Western counterparts for example the involvement of scholars in state supported anti Islamic agitation the early and strong integration of Orientals into the scientific institutions the spread of Oriental scholarship over the Oriental republics of the USSR and its role in the Marxist reinterpretation of the histories of these areas The authors demonstrate the declared emancipating agenda of Soviet scholarship with its rhetoric of anti colonialism and anti imperialism made Oriental studies a formidable tool for Soviet foreign policy towards the Muslim World and just like in the West the Iranian Revolution and the mujahidin resistance to the Soviet occupation of Afghanistan necessitated a thorough redefinition of Soviet Islamic studies in the early 1980s Overall the book provides a comprehensive analysis of Soviet Oriental studies exploring different aspects of writing on Islam and Muslim history societies and literatures It also shows how the legacy of Soviet Oriental studies is still alive especially in terms of interpretative frameworks and methodology after 1991 Soviet views on Islam have contributed significantly to nation building in the various post Soviet and Russian Muslim republics **Russian Practices of Governance in Eurasia** Gulnar T. Kendirbai,2020-03-04 This book analyses the role of the mobility factor in the spread of Russian rule in Eurasia in the formative period of the rise of the Russian Empire and offers an examination of the interaction of Russian authorities with their nomadic partners Demonstrating that the mobility factor strongly shaped the system of protectorate that the Russian and Qing monarchs imposed on their nomadic counterparts the book argues that it operated as a flexible institutional framework which enabled all sides to derive maximum benefits from a given political situation The author establishes that interactions of Russian authorities with their Kalmyk and Qazaq counterparts during the mid 16th to the mid 19th centuries were strongly informed by the power dynamics of the Inner Asian frontier These dynamics were marked by Russia s rivalry with Qing Chinese and Jungar leaders to exert its influence over frontier nomadic populations This book shows that each of these parties began to adopt key elements of existing steppe political culture It also suggests that the different norms of governance adopted by the Russian state continued to shape its elite politics well into the 1820s and beyond The author proposes that by combining key elements of this culture with new practices Russian authorities proved capable of creating innovative forms of governance that ended up shaping the very nature of the colonial Russian state itself An important contribution to the ongoing debates pertaining to the nature of the spread of Russian rule over the numerous populations of the vast Eurasian terrains this book will be of interest to academics working on Russian history Central Asian
