Prosopography Of The Later Roman Empire Ad 260 395:

The Prosopography of the Later Roman Empire: Volume 1, AD 260-395 A. H. M. Jones, J. R. Martindale, J. Morris, 1971-03-02 Prosopography definition a study that identifies and relates a group of persons or characters within a particular historical or literary context [Http www merriam webster com dictionary prosopography](http://www.merriam-webster.com/dictionary/Prosopography) **The Prosopography of the Later Roman Empire** A. H. M. Jones, John Robert Martindale, J. Morris, 2006 The Prosopography of the Later Roman Empire Arnold Hugh Martin Jones, John Robert Martindale, J. Morris, 1987 **The Prosopography of the Later Roman Empire** A. H. M. Jones, John Robert Martindale, J. Morris, 1971 The Prosopography of the Later Roman Empire John Robert Martindale, 1975 **The Prosopography of the Later Roman Empire 2 Part Set: Volume 3, AD 527-641** J. R. Martindale, 1992-10-15 Volume 3 of The Prosopography of the Later Roman Empire consists of two volumes sold together in a slipcase It provides a complete secular biographical dictionary prosopography of the period AD 527 the beginning of the reign of Justinian to 641 the death of Heraclius The information has been gathered from a wide variety of sources in Latin Greek Arabic Syriac and other languages The project makes available for the first time in one work a mass of information relating to the personnel of the Roman Empire and the western kingdoms that were its heirs and of other nations with which Rome had dealings and is intended as a research tool for historians of late antiquity and the early Middle Ages **The Prosopography of the Later Roman Empire. - V. 1** Arnold Hugh Martin Jones, 1997 Emperor and Senators in the Reign of Constantius II Muriel Moser, 2018-12-06 In this book Muriel Moser investigates the relationship between the emperors Constantine I and his son Constantius II AD 312 361 and the senators of Constantinople and Rome She examines and contextualizes the integration of the social elites of Rome and the Eastern provinces into the imperial system and demonstrates their increased importance for the maintenance of imperial rule in response to political fragility and fragmentation An in depth analysis of senatorial careers and imperial legislation is combined with a detailed assessment of the political context shared rule the suppression of usurpations Constantius use of Constantine s memory Using a wide range of literary epigraphic numismatic and legal sources some of which are as yet unpublished this volume produces significant new readings of the history of the senates in Rome and Constantinople of the construction of imperial rule and of historical change in Late Antiquity Roman Aristocrats in Barbarian Gaul Ralph Whitney Mathisen, 2013-08-21 A study of the collapse of Roman rule in ancient Gaul and the shift to Germanic power Skin clad barbarians ransacking Rome remains a popular image of the decline and fall of the Roman Empire but why when and how the Empire actually fell are still matters of debate among students of classical history In this pioneering study Ralph W Mathisen examines the fall in one part of the western Empire Gaul to better understand the shift from Roman to Germanic power that occurred in the region during the fifth century AD Mathisen uncovers two apparently contradictory trends First he finds that barbarian settlement did provoke significant changes in Gaul including the disappearance of most secular offices under the Roman imperial administration the

appropriation of land and social influence by the barbarians and a rise in the overall level of violence Yet he also shows that the Roman aristocrats proved remarkably adept at retaining their rank and status How did the aristocracy hold on Mathisen rejects traditional explanations and demonstrates that rather than simply opposing the barbarians or passively accepting them the Roman aristocrats directly responded to them in various ways Some left Gaul Others tried to ignore the changes wrought by the newcomers Still others directly collaborated with the barbarians looking to them as patrons and holding office in barbarian governments Most significantly however many were willing to change the criteria that determined membership in the aristocracy Two new characteristics of the Roman aristocracy in fifth century Gaul were careers in the church and greater emphasis on classical literary culture These findings shed new light on an age in transition Mathisen's theory that barbarian integration into Roman society was a collaborative process rather than a conquest is sure to provoke much thought and debate All historians who study the process of power transfer from native to alien elites will want to consult this work I can warmly recommend Mathisen's latest book to all students of the western provinces in Late Antiquity It is a well planned well presented lucid and illuminating work that confidently gathers together ideas that Mathisen and other scholars have been floating for the last few years and takes them to a very satisfying conclusion In brief Mathisen provides an excellent summary of recent research in his field enlivened by his own interpretation of a number of important issues

International Journal of the Classical Tradition

Public Disputation, Power, and Social Order in Late Antiquity

Richard Lim, 2024-07-19

Transformations of Romanness Walter Pohl, Clemens Gantner, Cinzia Grifoni, Marianne

Pollheimer-Mohaupt, 2018-07-09 Roman identity is one of the most interesting cases of social identity because in the course of time it could mean so many different things for instance Greek speaking subjects of the Byzantine empire inhabitants of the city of Rome autonomous civic or regional groups Latin speakers under barbarian rule in the West or increasingly representatives of the Church of Rome Eventually the Christian dimension of Roman identity gained ground The shifting concepts of Romanness represent a methodological challenge for studies of ethnicity because depending on its uses Roman identity may be regarded as ethnic in a broad sense but under most criteria it is not Romanness is indeed a test case how an established and prestigious social identity can acquire many different shades of meaning which we would class as civic political imperial ethnic cultural legal religious regional or as status groups This book offers comprehensive overviews of the meaning of Romanness in most former Roman provinces complemented by a number of comparative and thematic studies A similarly wide ranging overview has not been available so far

Education in Greek and Roman Antiquity Lee

Too, 2001-10-01 This volume examines the idea of ancient education in a series of essays which span the archaic period to late antiquity It calls into question the idea that education in antiquity is a disinterested process arguing that teaching and learning were activities that occurred in the context of society Education in Greek and Roman Antiquity brings together the scholarship of fourteen classicists who from their distinctive perspectives pluralize our understanding of what it meant to

teach and learn in antiquity These scholars together show that ancient education was a process of socialization that occurred through a variety of discourses and activities including poetry rhetoric law philosophy art and religion **Ammianus Marcellinus** Fred C. Jenkins,2015-11-14 In Ammianus Marcellinus An Annotated Bibliography 1474 to the Present Fred W Jenkins surveys scholarship on Ammianus from the editio princeps to the present Included are bibliographies editions translations commentaries concordances and indexes Web sites and secondary scholarship in many languages **Early Christian Hagiography and Roman History** Timothy David Barnes,2010 In their present form the first five chapters are revised versions of lectures delivered in German at the University of Jena on 10 14 November 2008 P xi *Texts and Culture in Late Antiquity* J. H. D. Scourfield,2007-12-31 Late Antiquity has increasingly been viewed as a period of transformation and dynamic change in its literature as in society and politics In this volume thirteen scholars focus on the intellectual and literary culture of the time investigating complex relationships between late Antique authors and the texts which they had inherited through the classical pagan and Christian traditions Particular emphasis is placed on works that carried special authority Homer Virgil Plato and the Bible The volume thus contributes to the history of the reception of classical texts and through its inclusiveness classical and classicizing philosophical and patristic writing are all represented seeks to offer a view of the textual world of late Antiquity as a unified whole It affords a scholarly introduction to a sweep of late Antique literature in Greek and Latin Authors and genres discussed include Juvenius and Claudian Plotinus and Proclus Jerome and John Cassian geographical and grammatical writing and Christian cento **In Defiance of History** Victoria Leonard,2022-02-16 This volume offers a counterbalance to the dismissal that Orosius's *Histories Against the Pagans* has suffered in most recent criticism Orosius is traditionally considered to be a mediocre scholar and an essentially worthless historian This book takes his literary endeavour seriously recognizing the unique contribution the *Histories* made at a crucial moment of debate and uncertainty where the present was shaped by restructuring the past The significance of the *Histories* is recognised intrinsically rather than only in comparison with other texts and authors principally Augustine of Hippo Orosius's mentor The approach of the book is historiographical exploring the form purpose and meaning of the *Histories* The themes of divine providence monotheism and imperial authority are examined and the subjects of war and the sack of Rome receive extended analysis The book foregrounds Orosius's significant historiographical innovations that are seldom explored such as the subversion of imperial history within a Christian spectrum in the synchronization of the emperor Augustus and Christ Each chapter contributes to the progression of knowledge about Orosius's *Histories* and the wider literary and historiographical culture of disruption that characterised the late fourth and early fifth centuries CE On Roman Time Michele Renee Salzman,1991-03-25 Because they list all the public holidays and pagan festivals of the age calendars provide unique insights into the culture and everyday life of ancient Rome The *Codex Calendar* of 354 miraculously survived the Fall of Rome Although it was subsequently lost the copies made in the Renaissance remain invaluable documents of Roman society and

religion in the years between Constantine's conversion and the fall of the Western Empire In this richly illustrated book Michele Renee Salzman establishes that the traditions of Roman art and literature were still very much alive in the mid fourth century Going beyond this analysis of precedents and genre Salzman also studies the Calendar of 354 as a reflection of the world that produced and used it Her work reveals the continuing importance of pagan festivals and cults in the Christian era and highlights the rise of a respectable aristocratic Christianity that combined pagan and Christian practices Salzman stresses the key role of the Christian emperors and imperial institutions in supporting pagan rituals Such policies of accommodation and assimilation resulted in a gradual and relatively peaceful transformation of Rome from a pagan to a Christian capital

The Lost History of Sextus Aurelius Victor Justin Stover, George Woudhuysen, 2023-07-31 A radical rewriting of the history of fourth century Latin literature This book rediscovers a lost history of the Roman Empire written by Sextus Aurelius Victor ca 320-390 and demonstrates for the first time both the contemporary and lasting influence of his historical work Though little regarded today Victor is the best attested historian of the later Roman Empire read by Jerome and Ammianus honoured with a statue by the pagan Emperor Julian and appointed to a prestigious prefecture by the Christian Theodosius Through careful analysis of the ancient evidence including newly discovered material this book re-examines the two short imperial histories attributed to Victor in the manuscripts known today as the *Caesares* and the *Epitome de Caesaribus* and discusses a wide range of both canonical and neglected authors and texts from Sallust and Tacitus to Eunapius and the *Historia Augusta* By providing a new account of the original scope and scale of Victor's *Historia* this book revolutionises our understanding of the writing of history in late antiquity Not only does it have profound implications for the transmission of Classical texts in the Middle Ages and the history of Classical scholarship but it also solves some of the enduring mysteries of later Latin literature

The Codex of Justinian Bruce W. Frier, Serena Connolly, Simon Corcoran, Michael Hewson Crawford, John Noël Dillon, Dennis P. Kehoe, Noel Emmanuel Lenski, Thomas A. J. McGinn, Charles F. Pazdernik, Timothy Kearley, Benet Salway, 2016 The first reliable annotated English translation with original texts of one of the central sources of the Western legal tradition

A Military Life of Constantine the Great Ian Hughes, 2021-01-13 A new analysis of the strengths organization weapons and tactics of the Roman army Constantine inherited and his military reforms Much of Constantine I's claim to lasting fame rests upon his sponsorship of Christianity and many works have been published assessing whether his apparent conversion was a real religious experience or a cynical political maneuver However his path to sole rule of the Roman Empire depended more upon the ruthless application of military might than upon his espousal of Christianity He fought numerous campaigns many against Roman rivals for Imperial power most famously defeating Maxentius at the Battle of the Milvian Bridge In this new study Ian Hughes assesses whether Constantine would have deserved the title the Great for his military achievements alone or whether the epithet depends upon the gratitude of Christian historians All of Constantine's campaigns are narrated and his strategic and tactical decisions

analyzed The organization strengths and weaknesses of the Roman army he inherited are described and the effect of both his and his predecessors reforms discussed The result is a fresh analysis of this pivotal figure in European history from a military perspective

Yeah, reviewing a books **Prosopography Of The Later Roman Empire Ad 260 395** could grow your close friends listings. This is just one of the solutions for you to be successful. As understood, carrying out does not suggest that you have extraordinary points.
