Prospectus For A Habitable Planet:

Prospectus for a Habitable Planet Dan Smith, Edward Palmer Thompson, 1987 **The Road to Peace** Ernie Regehr, Simon Rosenblum, 1988-01-01 In 1988 as the Berlin Wall began to quake and the United States and the Soviet Union prepared to slash their nuclear arsenals Canada's government remained firmly tied to a Cold War vision of the world In this book Regehr and Rosenblum assessed the international strategic situation at the very moment that the superpowers nuclear standoff began to melt away Against the backdrop of significant undertakings to halt the drift towards annihilation the authors find much to criticize in Canadian defence policy complicity in reckless American war fighting strategies undue adherence to organizations such as NATO and NORAD whose justifications were fast disappearing a retrograde approach to defending Arctic sovereignty *The Road to Peace* is a compelling document that vividly conveys the heady atmosphere of the Cold War's apogee **Explaining Auschwitz and Hiroshima** Richard J. B. Bosworth, 2002-01-31 First published in 1993 Routledge is an imprint of Taylor Francis an informa company **Nuclear Rites** Hugh Gusterson, 1996-11-29 An extremely important work It demonstrates the power that ethnographic analysis can have when directed at an examination of our own society's central nervous system Faye Ginsburg author of *Contested Lives* Essential reading for anyone trying to understand what Cold War science was in all its cultural aspects and what this same science now in transformation might yet be George E Marcus co editor of *The Traffic in Culture* **E.P. Thompson** Harvey J. Kaye, Keith McClelland, 1990 A discussion of the historical theoretical and political problems that have been central to the work of Thompson as an historian socialist and peace activist A key focus is the relationship between determination and agency the central thesis of *The making of the English working class* in particular reference to historical theory and practice Paper edition unseen 15 95 Annotation copyrighted by Book News Inc Portland OR **Routledge Library Editions: Sustainability** Various Authors, 2021-03-04 The 4 volumes in this set originally published between 1988 and 1997 draw together research by leading academics in the area of sustainability and provides a rigorous examination of related key issues The volumes examine environmental policy and plans for a sustainable future This set will be of particular interest to students of Environmental Studies *Arctic Twilight* Kevin McMahon, 1988 Acknowledgments Author's Note Prologue Reigns Chapter One Friends Chapter Two Laws Chapter Three Systems Chapter Four Belief Bibliography **How Harvard Rules** John Trumpbour, 1989 A collection of essays on Harvard arranged in six sections Three major themes pervade the book the myth of Harvard's independence the myth of Harvard as a liberal left institution and Harvard's contribution to ethno centrism and the superiority of the West *Defining and Classifying Children in Need* Nick Axford, 2017-03-02 Need is a popular but controversial concept in social policy Needs led has become a mantra in children's services in recent years yet theorists still argue about the meaning and value of the concept of need There are lots of needs assessment at the individual child and population levels but case files vary enormously in quality and reports of need analyses frequently gather dust on shelves How then should we define and

measure children's needs and how should this influence the design of services This edited collection answers these questions in order to help policy makers managers practitioners and researchers with identifying and serving children in need It offers a critical appraisal of the state of play regarding the theory of need the needs that children have methods for assessing children's needs at the individual and group levels and approaches to designing services to meet identified needs **The Glorious Art of Peace** John Gittings, 2012-02-23 Human progress and prosperity depend on a peaceful environment and most people have always sought to live in peace yet our perception of the past is dominated too often not by stories of peace but by tales of war In this path breaking study former Guardian East Asia Editor John Gittings demolishes the myth that peace is dull and that war is in our genes and opens an alternative window on history to show the strength of the case for peace which has been argued from ancient times onwards Beginning with a new analysis of the treatment of peace in Homer's Iliad he explores the powerful arguments against war made by classical Chinese and Greek thinkers and by the early Christians Gittings urges us to pay more attention to Erasmus on the Art of Peace and less to Machiavelli on the Art of War The significant shift in Shakespeare's later plays towards a more peace oriented view is also explored Gittings traces the growth of the international movement for peace from the Enlightenment to the present day and assesses the inspirational role of Tolstoy and Gandhi in advocating non violence Bringing the story up to date he shows how the League of Nations in spite of its failure led to high hopes for a stronger United Nations but that real chances for peace were missed in the early years of the cold war And today Gittings argues that instead of being obsessed by a new war on terror we should be seeking peaceful solutions to the challenges of nuclear proliferation conflict and extremism poverty and inequality and climate change This paperback edition includes a new preface in which Gittings looks at how the world is confronted with new dangers to peace as the election of President Trump highlights the continuing unpredictability and irrational nature of a system of international relations which could lead to new wars and even nuclear disaster **Así Es la Vida** Jack Delano, 1996 Verzameling cartoons van Jack Delano tussen 1955 en 1963 verschenen in het weekblad The Island times in San Juan Puerto Rico *European Polyphony: Perspectives beyond East-West Confrontation* Ole Waeber, Pierre Lemaitre, Elzbieta Tromer, 1989-10-16 This study deals with the internal socio political changes that the traditional political structures have not been able to incorporate the perspectives of the superpowers and surveys of the debate on European security in each of 11 states The book begins and ends with a theoretical overview Troubled Pleasures Kate Soper, 1990-11-17 What happens when life's simple joys become complicated When pleasure is transformed as a function of consumption the innocent comforts of food nature and place are embedded in complex practices of distribution and exploitation Exotic and diverse objects of pleasure are made available only at the price of a heightened awareness of their origins genealogies and possible effects authenticity recedes behind objects produced as pleasures Troubled Pleasures considers the ways in which modern pleasure is fraught with unhappy implications at the same time as contemporary critical

arguments put into question the touchstones of identity morality subjectivity and desire It brings together writings which explore the sources of pleasure s loss of innocence and which argue the case for a scrupulous alternative hedonism Including essays on human needs socialism and gender a feminist response to Joyce s Ulysses and a fictional reflection on appetite and excess Troubled Pleasures plots an Epicurean path between righteous asceticism and conspicuous consumption **A Companion to Political Geography** John A. Agnew, Katharyne Mitchell, Gerard Toal, 2008-04-15 A Companion to Political Geography presents students and researchers with a substantial survey of this active and vibrant field Introduces the best thinking in contemporary political geography Contributions written by scholars whose work has helped to shape the discipline Includes work at the cutting edge of the field Covers the latest theoretical developments **Realism, Utopia, and the Mushroom Cloud** Michael Bess, 1993-12 Two world wars concentration camps the obliteration of Hiroshima and Nagasaki and continued preparations for nuclear war illustrate the modern world s propensity for mass destruction Yet there have been important signs of resistance to this trend These have included not only the emergence of mass based peace and disarmament movements but activist intellectuals grappling with the growing problem posed by mass violence among nation states Bess examines the lives and ideas of four of these intellectuals Leo Szilard of Hungary and later the United States E P Thompson of England Danilo Dolci of Italy and Louise Weiss of France Realism Utopia and the Mushroom Cloud is a powerful important scholarly work casting new light upon some of the great issues of modern times Readers will learn much from it Lawrence S Wittner Peace and Change Bess seeks to understand the way in which the creation of the atomic bomb has changed the social and political situation of humankind Are we to be held hostage by military forces or can we transform our situation He describes the lives of four very different activists each with different views on what causes conflict and how best to address conflict Overall this book offers an interesting perspective on life after the atomic bomb In asking ourselves what the possibilities of our future are we can turn to these lives for some guidance This book is informative provocative and encourages one to consider carefully how s he chooses to live Erin McKenna Utopian Studies These four lives researched and skillfully presented by historian Michael Bess make fascinating stories in themselves They also serve as useful vehicles for examining major cross currents of Cold War resistance From Weiss the cynical pragmatist to Szilard the high level fixer to Thompson the social reformer to Dolci the spiritual street organizer Michael Bess has woven an illuminating tapestry of human efforts to cope with life under the mushroom cloud Samuel H Day Jr The Progressive *The Geopolitics Reader* Simon Dalby, Paul Routledge, Gearóid Ó Tuathail, 2003-08 The Geopolitics Reader offers an interdisciplinary sourcebook of the most important political geographical historical and sociological readings of geopolitics in the late twentieth century The Reader is divided into five parts which draw on the most illuminating examples of imperial Cold War contemporary geopolitics new environmental themes and multiple resistances to the practices of geopolitics The editors provide comprehensive introductions and critical comment at the beginning of each part and visual geopolitical texts in the form of
