Prospero And Ariel The Rise And Fall Of Radio A Personal Recollection:

Prospero and Ariel Douglas Geoffrey Bridson, 1971 **Mother Country** Stephen Bourne, 2010-08-10 Very little attention has been given to black British and West African and Caribbean citizens who lived and worked on the front line during the Second World War Yet black people were under fire in cities like Bristol Cardiff Liverpool London and Manchester and many volunteered as civilian defence workers such as air raid wardens fire fighters stretcher bearers first aid workers and mobile canteen personnel Many helped unite people when their communities faced devastation Black children were evacuated and entertainers risked death when they took to the stage during air raids Despite some evidence of racism black people contributed to the war effort where they could The colonies also played an important role in the war effort support came from places as far away as Trinidad Jamaica Guyana and Nigeria Mother Country tells the story of some of the forgotten Britons whose contribution to the war effort has been overlooked until now *Wyndham Lewis's Cultural Criticism and the Infrastructures of Patronage* Nathan O'Donnell, 2020 This is the first book length study of Wyndham Lewis s cultural criticism a valuable body of writing which posed questions that have yet to be answered about the role and status of the artist in a professionalised society and ultimately about the value economic civic political of the work of art *Wyndham Lewis and the Cultures of Modernity* Dr Nathan Waddell, Ms Alice Reeve-Tucker, Professor Andrzej Gasiorek, 2013-05-28 Making a strong case for a revaluation of Wyndham Lewis 1882 1957 this collection argues that significant aspects of Lewis s writing painting and thinking have not yet received the attention they deserve The contributors explore Lewis s contributions to the production and circulation of modernism and assess the links between Lewis s writing and painting and the work of other key contemporary figures to position Lewis not only as one of the first twentieth century cultural critics but also as one who anticipated the work of the Frankfurt School and other social theorists Familiar topics and themes such as Vorticism receive fresh appraisals and Lewis s significance as a philosopher critic novelist and artist becomes fully realized in the context of his associations with important figures such as John Rodker Charlie Chaplin Evelyn Waugh Naomi Mitchison and Rebecca West Lewis emerges as a figure whose writings on politics corporate patronage shell shock anthropology art and cinema extend their influence into the late twentieth and early twenty first centuries **Postwar Politics, Society and the Folk Revival in England, 1945-65** Julia Mitchell, 2019-09-19 The English folk revival cannot be understood when divorced from the history of post war England yet the existing scholarship fails to fully engage with its role in the social and political fabric of the nation Postwar Politics Society and the Folk Revival in England is the first study to interweave the story of a gentrifying folk revival with the socio political tensions inherent in England s postwar transition from austerity to affluence Julia Mitchell skillfully situates the English folk revival in the context of the rise of the new left the decline of heavy industry the rise of local regional and national identities the Americanisation of English culture and the development of mass culture In doing so she demonstrates that the success of the English folk revival derived from its sense of authenticity and its engagement with

topical social and political issues such as the conflicted legacy of the Welfare State the fight for nuclear disarmament and the fallout of nationalization In addition she shrewdly compares the US and British revival to identify the links but also what was distinctive about the movement in Britain Drawing on primary sources from folk archives the BBC the music press and interviews with participants this is a theoretically engaged and sophisticated analysis of how postwar culture shaped the folk revival in England

Life On Air, 2008-09-25 Radio Four has been described as the greatest broadcasting channel in the world the heartbeat of the BBC a cultural icon of Britishness and the voice of Middle England Defined by its rich mix encompassing everything from journalism and drama to comedy quizzes and short stories its programmes such as Today The Archers Woman's Hour The Hitchhiker's Guide To the Galaxy Gardeners Question Time and The Shipping Forecast have been part of British life for decades Others less successful have caused offence and prompted derision Born as it was in the Swinging Sixties Radio Four's central challenge has been to change with the times while trying not to lose faith with those who see it as a standard bearer for quality authoritativeness or simply old fashioned BBC values In this first major behind the scenes account of the station's history David Hendy a former producer for Radio Four draws on privileged access to the BBC's own archives and new interviews with key personnel to illuminate the arguments and controversies behind the creation of some of its most popular programmes He reveals the station's struggle to justify itself in a television age favouring clear branding and tightly targeted audiences with bitter disputes between the BBC and its fiercely loyal listeners The story of these struggles is about more than the survival of one radio network Radio Four has been a lightning rod for all sorts of wider social anxieties over the past forty years A kaleidoscopic view of the changing nature of the BBC the book provides a gripping insight into the very nature of British life and culture in the last decades of the twentieth century

The History of Broadcasting in the United Kingdom: Volume V: Competition Asa Briggs, 1995-03-23 Part of a five volume history of the rise and development of broadcasting in the United Kingdom

The Oxford Handbook of Radio and Podcasting Michele Hilmes, Andrew Bottomley, 2024 Radio today remains the most accessible and widely available communication medium worldwide despite technological shifts and a host of upstart challengers Since its origins in the 1920s radio has innovated a new world of sound culture now expanded into the digital realm of podcasting that is enabling the medium to reach larger audiences than ever before Yet radio remains one of the least studied of the major areas of communication arts due largely to its broadcast era ephemerality With the advent of digital technology radio's past has been unlocked and soundwork is exploding as a creative field creating a lively and diverse sonic present while simultaneously making critical historical analysis possible at last This volume offers newly commissioned chapters giving readers a wide ranging view of current critical work in the fields of radio and podcasting employing specific case studies to analyze sound media's engagement with the arts with the factual world of news talk and documentary programming as a primary means of forging community along with national transnational and alternative identities and as a subject of academic and critical research Its historical scope

extends from radio's earliest days through its mid twentieth century decades as the powerful voice of nations and empires onto its transformation into a secondary medium during the television era and into the expanding digital present Over the course of 37 chapters it provides evidence of the sound media's flexibility and adaptation across diverse cultures by examining radio's past and present uses in regions including the United States Canada Britain Australia Poland China Korea Kenya Angola and Mozambique South Asia and the Caribbean Contributors include historians and media scholars as well as sound artists and radio podcast producers Notably companion links to digital quotations from works analyzed are included in many chapters along with chapter audiographies offering links to further listening Throughout The Oxford Handbook of Radio and Podcasting connects radio's broadcast past to its digital present and traces themes of creativity identity community nation and transnationality across more than a century of audio media

Anatomy of Sound Jacob Smith, Neil Verma, 2016-06-28 This collection of essays examines one of the most important yet understudied media authors of all time Norman Corwin using him as a critical lens to consider the history of multimedia authorship particularly in the realm of sound Known for seven decades as the poet laureate of radio Corwin is most famous for his radio dramas which reached tens of millions of listeners around the world and contributed to radio drama's success as a mass media form in the 1930s and 1940s But Corwin was a pioneer in multiple media including cinema theater TV public service broadcasting journalism and even cantata In each of these areas Corwin had a distinctive approach to sonic aesthetics and mastery of multiple aspects of media production relying in part on his inventive atmospheric effects in the studio both prerecorded and more impressively live in real time From the front lines of World War II to his role as Chief of Special Projects for United Nations Radio and his influence on media today the political and social aspect of Corwin's work is woven into these essays With a foreword by Michele Hilmes and contributions from Thomas Doherty Mary Ann Watson Shawn VanCour David Ossman and others this volume cements Corwin's reputation as perhaps the greatest writer in the history of radio while also showing that his long career is a neglected model of multimedia authorship Provided by publisher

Audio Drama Modernism Tim Crook, 2020-11-19 Audio Drama and Modernism traces the development of political and modernist sound drama during the first 40 years of the 20th Century It demonstrates how pioneers in the phonograph age made significant innovative contributions to sound fiction before during and after the Great War In stunning detail Tim Crook examines prominent British modernist radio writers and auteurs revealing how they negotiated their agitational contemporaneity against the forces of Institutional containment and dramatic censorship The book tells the story

of key figures such as Russell Hunting who after being jailed for making sound pornography in the USA travelled to Britain to pioneer sound comedy and montage in the pre Radio age Reginald Berkeley who wrote the first full length anti war play for the BBC in 1925 and D G Bridson Olive Shapley and Joan Littlewood who all struggled to give a Marxist voice to the working classes on British radio

Radio Modernism Todd Avery, 2016-12-05 Radio Modernism marries the fields of radio studies and modernist cultural historiography to the recent ethical turn in literary and cultural studies to examine how representative British writers negotiated the moral imperative for public service broadcasting that was crafted embraced and implemented by the BBC's founders and early administrators Weaving together the institutional history of the BBC and developments in ethical philosophy as mediated and forged by writers such as T S Eliot H G Wells E M Forster and Virginia Woolf Todd Avery shows how these and other prominent authors involvement with radio helped to shape the ethical contours of literary modernism In so doing Avery demonstrates the central role radio played in the early dissemination of modernist art and literature and also challenges the conventional assertion that modernists were generally elitist and anti democratic

Intended for readers interested in the fields of media and cultural studies and modernist historiography this book is remarkable in recapturing for a twenty first century audience the interest fascination excitement and often consternation that British radio induced in its literary listeners following its inception in 1922
