Prostitution Morality:

A Moral Defense of Prostitution Rob Lovering, 2021-07-09 Is prostitution immoral In this book Rob Lovering argues that it is not Offering a careful and thorough critique of the many twenty to be exact arguments for prostitution s immorality Lovering leaves no claim unchallenged Drawing on the relevant literature along with his own creative thinking Lovering offers a clear and reasoned moral defense of the world s oldest profession Lovering demonstrates convincingly on both consequentialist and nonconsequentialist grounds that there is nothing immoral about prostitution between consenting adults The legal implications of this view are also brought to bear on the current discourse surrounding this controversial topic

Regulating Morality Hans Krabbendam, H.-M. T. D. ten Napel, 2000 The purpose of this volume is to compare the experiences of state efforts to control moral behavior in two countries The Netherlands and the United States of America by exploring the historical developments in regulating morality and the contemporary efforts to implement moral policies The volume opens with an overview of the theoretical and historical setting of the debate about moral developments in the Netherlands and the United States Various hypotheses are then tested by comparing the histories of prostitution and abortion policies in both countries in the nineteenth and twentieth centuries the jurisprudence and legislation with respect to euthanasia and the course and contents of family law divorce adoption homo marriage Apart from the comparative aspect these case studies are highly informative and fascinating to read in and by themselves **Sex, Science and Morality in**

China Joanna McMillan, 2006 Drawing on interviews with China s foremost sex experts this book provides a detailed examination of the political social and moral ramifications of gender sex and sexuality in China today **Laws Relating to Sex Morality in New York City** Arthur Barnett Spingarn, 1916 **Designing Prostitution Policy** Hendrik

Wagenaar, Helga Amesberger, Sietske Altink, 2017-04-26 Available Open Access under CC BY NC licence While the debate on regulating prostitution usually focuses on national policy it is local policy measures that have the most impact on the ground This book is the first to offer a detailed analysis of the design and implementation of prostitution policy at the local level and carefully situates local policy practices in national policy making and transnational trends in labour migration and exploitation Based on detailed comparative research in Austria and the Netherlands and bringing in experiences in countries such as New Zealand and Sweden it analyses the policy instruments employed by local administrators to control prostitution and sex workers Bridging the gap between theory and policy emphasizing the multilevel nature of prostitution policy while also highlighting more effective policies on prostitution migration and labour exploitation this unique book fills a gap in the literature on this contentious and important social issue **Crime and Morality** J.C. Boutellier, 2013-12-12 Over the last twenty five years the significance of criminal justice has dramatically changed In a post modern culture criminal law serves

more and more as a focal point in public morality The discovery of the victim of crime can be seen as the marking point by which criminal justice got its central position in the maintenance of social order It is the result of a general victimization of today's morality This ingenious book according to Michael Tonry combines insights from criminology sociology and moral philosophy It is especially inspired by the work of Richard Rorty who stresses the sensibility for suffering as the major source of morality in post modern times It describes the arousal of attention for victims and the development of crime prevention More specifically it analyzes child sexual abuse and prostitution This illuminating book will be an eye opener for theorists in criminology and moral philosophy but will also be an inspiring work for policy makers in the area of criminal justice

Morality and the Market in Victorian Britain Geoffrey Russell Searle, 1998 In this lively and interesting study G R Searle tackles the conundrum at the heart of Victorian life how could capitalist values be harmonized with Christian beliefs and with concepts of public morality and social duty Middle class Victorians who broadly welcomed industrial growth and embraced the doctrines of political economy were sensitive to the charge that theirs was a selfish and materialistic creed Consequently if public morality was to be reconciled with the market wage labour had to be distinguished from slavery investment from speculation and entrepreneurial acumen from dishonesty and fraud These ideas about citizenship and public virtue offered a greater challenge to rampant capitalism than any pressing need to alleviate poverty Through its exploration of Victorian values this book provides lessons for all those engaged in the present day debate about the moral and social consequences of unleashing free market forces

Sex, Love and Morality William Josephus Robinson, 1928 *Illuminating the Dark Side: Evil, Women and the Feminine*, 2020-09-25 Evil Women The Feminine The relationships that bring together these three ideas form the basis for the papers gathered together in this volume By asking how why when and to what purpose these three terms are often linked serves as the starting point of interrogation for each of the authors here considered

Mending The Moral Maze: Finding A Fair Path To Curtail Prostitution Leelesh Sundaram B, 2024-09-22 Prostitution has been a deeply complex social issue entangled with moral legal and cultural debates for centuries This exploration seeks to examine the multifaceted nature of prostitution drawing on global case studies and various legal approaches from decriminalization to regulation By analysing both the successes and failures of these strategies the text highlights the deeper societal and institutional factors contributing to the persistence of prostitution It also underscores the importance of addressing moral perspectives and their influence on policy making calling for a balanced research driven approach to ensure the rights and dignity of those involved are protected

Liberalism and Prostitution Peter de Marneffe, 2010 Civil libertarians characterize prostitution as a victimless crime and argue that it ought to be legalized Feminist critics counter that prostitution is not victimless since it harms the people who do it Civil libertarians respond that most women freely choose to do this work and that it is paternalistic for the government to limit a person's liberty for her own good In this book Peter de Marneffe argues that although most prostitution is voluntary paternalistic prostitution laws in

some form are nonetheless morally justifiable If prostitution is commonly harmful in the way that feminist critics maintain then this argument for prostitution laws is not objectionably moralistic and some prostitution laws violate no one's rights Paternalistic prostitution laws in some form are therefore consistent with the fundamental principles of contemporary liberalism

Street Sex Workers' Discourse Jill McCracken,2013-04-17 Incorporating the voices and insights of

street sex workers through personal interviews this monograph argues that the material conditions of many street workers the physical environments they live in and their effects on the workers bodies identities and spirits are represented reproduced and entrenched in the language surrounding their work As an ethnographic case study of a local system that can be extrapolated to other subcultures and the construction of identities this book disrupts some of the more prevalent academic and lay understandings about street prostitution by providing a thorough analysis of the material conditions surrounding street work and their connection to discourse McCracken offers an explanation of how constructions can be made differently in order to achieve representations that are generated by the marginalized populations themselves while placing responsibility for this marginalization on the society in which these people live *Sex Workers and Their Clients* Jerald L. Mosley, 2020-12-15 This book draws on the voices of sex workers and their clients to critically assess the criminalization of prostitution in favour of decriminalization It does so by contrasting their voices with the claims made by prohibitionists those advocating the prohibition of prostitution or at least the prohibition of the purchase of sexual services and notes scholarly research that gives context to those accounts and claims Each chapter is dedicated to a particular issue which is given currency in academic and public debates on sex work The first part of each chapter reviews the state of research and publicly aired contentions and the second part compares sex workers voices with claims from prohibitionists It highlights the gap between what many sex workers have to say about themselves and what theorizing prohibitionists say about all prostitution It argues that there is often a striking contrast in attitude perspective interpretation and valuation This books speaks primarily to prohibitionist thinking and sex work stereotyping and secondarily to the debate on decriminalization of sex work **Thinking About Morality** Bernie Koenig, 2021-02-23 Thinking about Morality addresses the processes behind how we resolve moral issues and the factors that can impact that such as differing values and cultures Moral disagreements are primarily due to differing values or the clash of new knowledge with old values When trying to resolve a moral dispute we must carefully define the issue We must bring to bear relevant knowledge which can be used to resolve the issue but sometimes the value structures are so different that an issue cannot be resolved This book provides an examination of how values operate and how one s obligations will differ in different cultures This book addresses topics such as multiculturalism along with immigration and migration sex and gender abortion and euthanasia environmental issues guns and drugs
