this informative book on recycling for children you will find everything you need to know about our environment The good the bad and the incredibly innovative From pollution and litter to renewable energy and plastic recycling This educational book will teach young budding ecologists about how our actions affect planet Earth and the big impact we can make by the little things we do Did you know that every single plastic toothbrush ever made still exists Or that there is a floating mass of rubbish larger than the USA drifting around the Pacific Ocean It is not all bad news though While this is a knowledge book that explains where we are going wrong *What a Waste* also shows what we are getting right Discover plans to save our seas How countries are implementing green projects worldwide and how to turn waste into something useful The tiniest everyday changes can make all the difference to ensure our beautiful planet stays lush and teeming with life It is a lively kid s educational book with fabulous illustrations and fun facts about the world broken into easy to digest bite sized bits Each page can be looked at in short bursts or longer reads for more detail making it a great children s book for a range of age groups Get Involved Make A Difference Almost everything we do creates waste from litter and leftovers to factory gases and old gadgets Find out where it goes how it affects our planet and what we can do to reduce the problem From how to make your home more energy and water efficient to which items can be recycled and tips for grocery shopping this book is packed full of ideas on how you can get involved to make our planet a better place to live This environment book for children has a wealth of ideas for becoming a planet defending hero Discover shocking facts about the waste we produce and where it goes Learn where about our Earth s limited resources and how to take some pressure off Your trash is another man s treasure Small changes to take your home from wasteful to super resource efficient Dive into saving our oceans and super recycling And much much more *What a Waste* is one of several nature books for kids written by Jess French a passionate conservationist and veterinarian committed to protecting the beautiful world we live in **Articles and Activities about**

Protecting the Environment #1 Heather Knowles, 2010-09-01 Turn your classroom into an environmentally friendly learning zone with these three articles Your students will be made aware of global warming recycling and pollution The articles are complemented with student focused activities that teach eco friendly practices Going green has never been this easy or this fun **What a Waste** Jess French, 2019 [Save Our Planet](#) Diane Maceachern, 1991-12-16 Even though you

are just one person who may have never done anything extraordinary before you can change the world Did you know Every day the Earth receives enough solar energy to heat every home in the world for one year free It takes twenty trees to keep one baby in disposable diapers for two years Of the billion pounds of pesticides used each year in the U S less than one percent reaches a pest The average American throws out their own weight in packaging every month If your office recycled

one ton of the paper it uses you'd be saving seventeen trees and keeping sixty pounds of air pollution out of the sky There are hundreds of tips in this book but don't let the numbers throw you Even if you follow just one or two of the suggestions provided tangible progress will be made towards restoring vitality to the Earth **Planet Earth** Kathleen M.

Reilly,2008-04-01 **Planet Earth 25 Environmental Projects You Can Build Yourself** provides an engaging guide to the natural world and encourages children ages 9 and up to get their hands dirty and actively connect with the environment It then introduces key environmental issues wind and solar power pollution endangered species global warming and recycling and posits potential solutions Trivia fun facts and 25 captivating hands on projects investigate ecology basics such as the food chain oxygen and animal habitats as well as ways to lessen the strain on Earth's resources by reducing human consumption and waste With **Planet Earth** kids will learn how to respect and protect our unique planet *Our Earth, Ourselves* Ruth Caplan,1990 Published as part of the 20th anniversary of Earth Day here is a comprehensive action oriented look at our changing environment and what we can do to protect and enhance our natural resources Photographs and line drawings

Saving the Earth Anna Claybourne,2009 100 things you should know about **Saving the Earth** explores the ongoing threats to our planet and what we can do to prevent its destruction Exactly 100 facts accompanied by photographs and detailed artwork reveal fascinating information about global warming renewable energy and wildlife in danger Discover how recycling and green machines reduce pollution and what the scientific solutions of the future may be Throughout there are quizzes and activities plus fun facts and colour cartoons **50 Simple Things You Can Do to Save the Earth** Earth

Works Group (U.S.),1989 A simple entertaining nonpolitical book that offers more than 50 suggestions for concerned people who want to take an active role in saving the planet **HowExpert Guide to Recycling** HowExpert,Jen

Thilman,2023-01-03 If you want to learn how to recycle eliminate disposables reduce waste pollution conserve resources save energy and protect the environment then check out **HowExpert Guide to Recycling** Have you ever been gaslighted You know grossly misled to believe something for the benefit of someone else Unfortunately we've all been victims of this for decades by big corporations especially the oil industry They have spent billions to convince us that climate change is our fault That if we dispose of our trash the right way and lower our carbon footprint we wouldn't have the environmental problems we are now facing Nothing could be further from the truth This guide will show how we've been misled to believe this narrative in order to protect corporate profits and how changing our disposable habits and fighting misinformation is the best thing we can do to beat climate change Corporations have lied to keep us buying their products and distracted from the fact that waste and emissions are caused by how they do business Single use plastics are a big money maker for the fossil fuel industry They created the triangle symbol to make us think plastics will recycle even though that can't easily be done Manufacturers choose not to invest in recycled packaging and materials Virgin materials mined from Earth are cheaper and often subsidized Technology exists to eliminate most of the greenhouse gas emissions they cause It's time to fight for the

truth and take matters into our own hands What we buy and how it s made affects how well reduce reuse and recycle works Using the power of our voices and wallets we can make corporations change how they do business They answer to us the people who buy their products and invest in their stock We can insist they take responsibility for the damage they cause We have the power to fight climate change at home and in our cities I don t know about you but I m not ready to leave the health and well being of my family in the hands of people who I hope will figure this mess out We all need to change for the better of our planet and our lives There are alternatives to buying disposable goods and packaging Buy durable goods and reusable packaging to save money and the planet Reduce and reuse packaging First eliminate plastic shopping bags We can do things differently to change our eating and buying habits A lot of trash comes with convenience dining like packaged and fast foods Buying used products reduces wasted energy materials and water It s time we use our buying power and our votes to change for the better Waste of anything food energy goods needs to be eliminated Elect representatives who put people before corporations Your voice can create change Check out HowExpert Guide to Recycling to learn how to recycle eliminate disposables reduce waste pollution conserve resources save energy and protect the environment About the Author Jen Thilman has been a recycling and zero waste volunteer for decades which is how she learned that recycling doesn t always work She has spent years working in green energy technology and studies sustainable living while she strives for it in her own life Jen completed training from the Climate Reality Project in June of 2022 Marrying her love for writing and the environment Jen writes blogs about how to buy sustainable products recycle everyday items and save the planet Jen lives with her wirehaired terrier Teddy Bear in the San Francisco Bay Area She writes non fiction and fiction in many genres and formats HowExpert publishes how to guides on all topics from A to Z by everyday experts **Discover the Wonder:**
