Armageddon, or, the War of opinion. A political tract for the times ARMAGEDDON.,1843 **Going Back to Gettysburg** M.B. Lal,2014-03-13 The book Going back to Gettysburg will be bought like hot cakes in intellectual circles in both America and India because it is a light presentation of the uniqueness of the American Civil War 1861 1965 in which 6 00 000 American soldiers mostly White laid down their lives to secure the release of four million Black slaves in America It has no parallel in the history and mythology of the world It is the only war where combatants fought over the Rights of other oppressed beings and is one of the starting point of the Human Rights movements in the world This book shows quoting authorities like a secret note from the U S Embassy to the American State department leaked by Wikileaks and numerous reports in American and British Press of how the middle class has enriched itself The author has given numerous shady deals of his own Besides the book contains his own studies of middle class corruption which no newspaper would publish because they are themselves huge beneficiaries of the general loot The book the contrasts between the Indian habit of quietly submitting to injustice and the Western habit of staging street demonstrations on public issues *Risk and the Control of Technology* Alan Irwin,1985 Theory of Society, Volume 2 Niklas Luhmann,2013-08-21 This second volume of Niklas Luhmann s two part final work was first published in German in 1997 The culmination of his thirty year theoretical project to reconceptualize sociology it offers a comprehensive description of modern society Beginning with an account of the fluidity of meaning and the accordingly high improbability of successful communication Luhmann analyzes a range of communicative media including language writing the printing press and electronic media as well as success media such as money power truth and love all of which structure this fluidity and make communication possible The book asks what gives rise to functionally differentiated social systems how they evolve and how social movements organizations and patterns of interaction emerge The advent of the computer and its networks which triggered potentially far reaching processes of restructuring receives particular attention A concluding chapter on the semantics of modern society s self description bids farewell to the outdated theoretical approaches of old Europe that is to ontological holistic ethical and critical interpretations of society and argues that concepts such as the nation the subject and postmodernity are vastly overrated In their stead society long considered a suspicious term by sociologists one open to all kinds of reification is defined in purely operational terms It is the always uncertain answer to the question of what comes next in all areas of communication *LIFE* ,1970-05-29 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view

Taylor, Nigel Young, 1987 **The Homilies of Saint Jerome, Volume 2, (Homilies 60-96)** Saint Jerome, 2005 Volume two of a 2 volume set *Spaces of Anticolonialism* Stephen Legg, 2025-03-01 *Spaces of Anticolonialism* is the first book length account of anticolonialism in Delhi as the capital of Britain's empire in India It pioneers a spatial governmentality analysis of the networks mobilizations and hidden spaces of anticolonial parrhesia or courageous speech and actions in the two decades before independence in 1947 Reading across imperial and nationalist archives newspapers memoirs oral histories and interviews Stephen Legg exposes subaltern geographies and struggles across both the new and old cities which have traditionally been neglected in favor of the elite spaces of New Delhi Presenting the dual cities as one interconnected political landscape Legg studies Indian National Congress efforts to mobilize and marshal support between the mass movements of Civil Disobedience 1930-34 and Quit India 1942-43 The book's six chapters compare the two movements in terms of their public spaces of nonviolent anticolonialism their problematization by violence and their legacies This bottom up analysis focused on the streets bazaars neighborhoods homes and undergrounds of the two cities foregrounds the significance of physical and political space it highlights the pioneering role of women in crafting these spaces and it exposes the microtechniques that Congress used to encourage Gandhi's nonviolence and to tolerate its testing in the face of the rising popularity of the radical left Legg's rereading of Michel Foucault's final lectures on parrhesia produces a bold new approach to questions of postcolonialism resistance and South Asian governmentalities This allows anticolonialism to be read not as an outside but as a coherent and bottom up project of self transformation and space making that was elite coordinated but whose sovereignty lay with a disobedient and not always nonviolent public This book provides an innovative and restive historical geography of spaces of anticolonialism in the capital of contemporary India's 1.4 billion people *Realism and Revolution* Sandy Petrey, 2018-10-18 Sandy Petrey here looks at the emergence of nineteenth century French realism in the light of the concept of speech acts as defined by J L Austin and as exemplified by the history of the French Revolution Through analysis of the techniques of representation in works by Balzac Stendhal and Zola Petrey suggests that the expression of a truth depends on the same collective forces necessary to change a regime According to Petrey political legitimacy in the Revolution the Empire and the Restoration was established by means of a series of demonstrations that what words say cannot be interpreted without reference to the community to which they speak Petrey first discusses the creation of France's National Assembly in 1789 as a foundational example of how speech acts can bring about historical transformation He then challenges the most powerful twentieth century assault on realist aesthetics Roland Barthes's S/Z and also considers the views of such contemporary critics as Jacques Derrida Barbara Johnson and Stanley Fish During the Revolution Petrey says statements of truth were not descriptions of what was but rather exhortations to produce what was not Nineteenth century French fiction represents in literary form a similar collectively authorized linguistic performance the

real in realism comes from representing facts not as they are in themselves but as they are produced and rejected in society In the course of illuminating readings of three central realist works Balzac s Pere Goriot Stendhal s The Red and the Black and Zola s Germinal Petrey takes the position that the dilemmas of representation far from being one of realism s blind spots figure among its major narrative subjects **Ford's Christian Repository** ,1893 **Protest Or Perish** Jack Chase,2001-08 **Protest, Movements, and Dissent in the Social Sciences** Giovanni Travaglini,2017-10-02 Drawing on a wide range of social science disciplines and approaches each chapter in this book offers a comprehensive analysis of social protest political dissent and collective action The distinguished scholars contributing to the book discuss some of the key theoretical and methodological issues in social protest research and analyse recent instances of collective dissent around the globe ranging from the 15M movement in Spain to the 2011 Salford riots in the UK to Pro Palestinian activism in Jerusalem The result of these contributions is a sophisticated and multifaceted collection that enriches our understanding of why when and how groups of people decide to act collectively in order to pursue political change The book is a timely testament to the vitality of the field This book was originally published as a special issue of Contemporary Social Science *The Salisbury Review* ,1983 A quarterly magazine of conservative thought *The Congressional globe* ,1868 Expository Notes, with Practical Observations, on the New Testament ... By the Rev. William Burkitt ... To this Edition Will be Added, the Life of the Author, Etc. [With Plates, Including a Portrait.] ,1810 **My Heart** Alexander Sherman,2011-02-16 The novel My Heart consists of letters written over many years by two people who are falling in love with each other Between them one after the other obstacles spring up Their age difference then the war that separates them and finally the heroines family arrangement that grows into a dramatic love triangle The uniqueness of the book My Heart comes from familiar and common place situations that are ennobled by such powerful and pure emotions that to modern readers they sound as if they are made up like in a fairy tale The traditional theme of love conquers death Gorky or love sustains and moves the world Turgenev is filled out with the specific every day details from their historical and societal context These personal letters are set against the backdrop of immense historical events Its as though the reader is armed with binoculars he can see fine details in the big picture and in the details he can see the reflections of the grand design The plain and direct language the attention to details and most of all the clarity and genuineness of emotion is what makes My Heart such an impressive and valuable document of its era Sergei Dovlatov famed Russian journalist and writer **The Congressional Globe** United States. Congress,1867 **Expository Notes, with Practical Observations, on the New Testament of Our Lord and Saviour Jesus Christ** William Burkitt,1852 Cassell's new German dictionary Elizabeth P. Weir,1889
