Protestant Ethic And The Spirit Of Punishment:

The Protestant Ethic and the Spirit of Punishment T. Richard Snyder, 2001 Snyder shows that the spirit of punishment in our culture is rooted in and reinforced by popular Christian misunderstandings of human nature and God's grace. These misunderstandings include two consequential errors: the absence of any notion of creation grace and an understanding of redemption grace couched exclusively in individualistic, internalized and nonhistorical terms. In both cases, the social-historical dimensions of grace necessary for holistic redemption are ignored. Publisher: Punishment and Culture Philip Smith, 2008-03-15 Philip Smith attacks the comfortable notion that punishment is about justice, reason and law. Instead, he argues that punishment is an essentially irrational act founded in ritual as a means to control evil without creating more of it in the process. *Journal of Moral Theology, Volume 5, Number 2* David M. Recinella, 2015-12-01 While secular support for capital punishment in America seems to be waning, religious conservatives particularly in the Bible belt remain staunch advocates of the death penalty, citing biblical law and practice to defend government-sanctioned killing. Dale S. Recinella compares biblical teaching about the death penalty, including such passages as eye for eye, tooth for tooth, life for life, with the nation's current system of capital punishment and offers persuasive arguments for a faith-based moratorium on and eventual abolition of executions. Framing his careful and incisive analysis as a legal brief to those who believe the Bible mandates the ultimate punishment, the author addresses two critical areas of inquiry: what do the scriptures tell us about who is deserving of death and who has the authority to kill, and what do they tell us about the required standards for execution and the plight of victims' families. Recinella's examination of the Hebrew Torah or Christian Pentateuch and the Talmud reveals that the biblical death penalty was not a simple system of swift retribution but a complex and practical set of laws that guided capital courts established under the Sanhedrin. His scrutiny of these texts, the Christian doctrine of atonement and Romans 13 in the Pauline Epistles, draws parallels between the traditional biblical arguments used in favor of capital punishment and those used as the basis for pro-slavery positions in the nineteenth century. Demonstrating that both approaches are unsubstantiated.

in biblical terms Recinella debunks the accepted religious reasoning for support of the death penalty and shows instead that the Bible's strict conditions for sanctioning execution are at odds with the arbitrary ways in which capital punishment is administered in the United States. He provides convincing evidence that a sentence of death in today's criminal justice system in fact fails to meet both the Bible's exacting procedural requirements and its strict limitations on judicial authority. By providing actual scriptural language and foundation to counter the position that biblical truth justifies a pro death penalty stance, this thoughtful, solidly researched and well-reasoned work will give pause to religious fundamentalists and challenge them to rethink their strongly held views on capital punishment.

Redeeming a Prison Society Amy Levad, 2014 The United States criminal justice system is in a state of crisis from unprecedented rates of imprisonment and recidivism to the privatization of the prison system and the disproportionate representation of particular racial, ethnic, social and economic groups, all of which is within a larger social justice context. Catholics and Protestants have largely failed to offer vital theological responses. Amy Levad offers a Catholic perspective that directly addresses the concrete issues from a strongly interdisciplinary approach and utilizes the rich liturgical and sacramental resources of penance and Eucharist to offer a theological vision of reform.

Atonement, Justice, and Peace Darrin W. Snyder Belousek, 2012. In this substantial study Darrin W Snyder Belousek offers a comprehensive and critical examination of penal substitution the most widely accepted evangelical Protestant theory of atonement and presents a biblically grounded theologically orthodox alternative. Attending to all of the relevant biblical texts and engaging with the full spectrum of scholarship Belousek systematically develops a biblical theory of atonement that centers on restorative rather than retributive justice. He also shows how Christian thinking on atonement correlates with major global concerns such as economic justice capital punishment the war on terror and ethnic and religious conflicts. Thorough and clearly structured this book demonstrates how a return to biblical cruciformity can radically transform Christian mission social justice and peacemaking.

Human Sacrifice in Jewish and Christian Tradition Karin Finsterbusch, Armin Lange, 2018-08-14. This volume asks to which extent ancient practices and traditions of human sacrifice are reflected in medieval and modern Judeo Christian times. The first part of the volume on antiquity focuses on rituals of human sacrifice and polemics against it as well as on transformations of human sacrifice in the Israelite Jewish and Christian cultures while the Ancient Near East and ancient Greece are not excluded. The second part of the volume on medieval and modern times discusses human sacrifice in Jewish and Christian traditions as well as the debates about euthanasia and death penalty in the Western world.

Atonement and Violence John Sanders, 2006. The authors of this book claim that to abandon the Christian doctrine of the Atonement is to abandon the central witness of the gospel for atonement speaks of nothing less than God's reconciliation of the world in the life death and resurrection of Jesus Christ. Drawing on the classical theories of the Atonement engaging in creative theological construction they present a set of cogent cohesive alternatives to either rejecting the doctrine out of hand or uncritically accepting it.

Criminal Punishment and Human Rights: Convenient Morality Adnan Sattar, 2019-03-05. This book examines the relationship between international human rights discourse and

the justifications for criminal punishment Using interdisciplinary discourse analysis it exposes certain paradoxes that underpin the International Bill of Human Rights academic commentaries on human rights law and the global human rights monitoring regime in relation to the aims of punishment in domestic penal systems It argues that human rights discourse owing to its theoretical kinship with Kantian philosophy embodies a paradoxical commitment to human dignity on the one hand and retributive punishment on the other Further it sustains the split between criminal justice and social justice which results in a sociologically ill informed understanding of punishment Human rights discourse plays a paradoxical role vis vis the punitive power of the state as it seeks to counter criminalisation in some areas and backs the introduction of new criminal offences and longer prison sentences in others The underlying priorities it is argued have been shaped by a number of historical circumstances Drawing on archival material the study demonstrates that the international penal discourse produced during the late nineteenth and early twentieth century laid greater emphasis on offender rehabilitation and was more attentive to the social context of crime than is the case with the modern human rights discourse

Conversion and the Rehabilitation of the Penal System Andrew Skotnicki, 2019-03-01 The Cincinnati Penal Congress of 1870 ushered in the era of progressive penology the use of statistical and social scientific methodologies commitment to psychiatric and therapeutic interventions and a new innovation the reformatory as the locus for the application of these initiatives The prisoner was now seen as a specimen to be analyzed treated and properly socialized into the triumphal current of American social and economic life The Progressive

rehabilitative initiatives succumbed in the 1970s to withering criticism from the proponents of equally futile strategies for addressing the crime problem retribution deterrence and selective incapacitation The early Christian community developed a methodology for correcting human error that featured the unprecedented belief that a period of time spent in a given penitential locale with the aid and encouragement of the community was sufficient in and of itself to heal the alienation and self loathing caused by sin and to lead an individual to full reincorporation into the community The correctional practice was based upon the conviction that cooperative sociability or conversion is possible regardless of the specific offense without any need to inflict suffering or to use the act of punishment as a warning to potential offenders or to undertake programmatic interventions into the lives of the incarcerated for the purpose of rehabilitating them Andrew Skotnicki contends that the modern practice of criminal detention is a protracted exercise in needless violence predicated upon two foundational errors The first is an inability to see the imprisoned as human beings fully capable of responding to an affirmative accompaniment rather than maltreatment and invasive forms of therapy The second is a pervasive dualism that constructs a barrier between detainees and those empowered to supervise rehabilitate and punish them In this book Skotnicki argues that the criminal justice system can only be rehabilitated by eliminating punishment and policies based upon deterrence rehabilitation and the incapacitation of the urban poor and returning to the original justification for the practice of confinement conversion

Godly Heretics Marc DiPaolo, 2013-04-08 When computers freeze they are rebooted and soon working properly again Similarly legendary thinkers throughout history have argued that Christianity should start fresh by recapturing the humanitarian spirit of Jesus original message These include such disparate individuals as Thomas Jefferson Oscar Wilde Charles Dickens Walt Whitman Friedrich Nietzsche Leo Tolstoy George Bernard Shaw and the religious leaders of the Occupy Wall Street movement Surprisingly enough even classic television shows and films meant to be entertaining *Lost* *Battlestar Galactica* *It's a Wonderful Life* *Groundhog Day* *Decalogue* and *A Charlie Brown Christmas* are attempts to apply the basic principles of Christianity to modern times This book offers new essays by scholars of literature film history theology and philosophy examining how various thinkers and storytellers over time have conceived of a reinvented Christianity In confronting this controversial idea this book examines how unorthodox interpretations of the Bible can be some of the most valid how visions of Jesus as a revolutionary may be the most historically sound and how compassionate Christians such as Origen have wrestled with the eternal questions of the existence of evil the gift of free will and the promise of universal salvation

Voices from American Prisons Kaia Stern, 2014-06-20 *Voices From American Prisons* Faith Education and Healing is a comprehensive and unique contribution to understanding the dynamics and nature of penal confinement In this book author Kaia Stern describes the history of punishment and prison education in the United States and proposes that specific religious and racial ideologies notions of sin evil and otherness continue to shape our relationship to crime and punishment through contemporary penal policy Inspired by people who have lived worked and studied in U S prisons Stern

invites us to rethink the current punishment crisis in the United States Based on in depth interviews with people who were incarcerated as well as extensive conversations with students teachers corrections staff and prison administrators the book introduces the voices of those who have participated in the few remaining post secondary education programs that exist behind bars Drawing on individual narrative and various modern day case examples Stern focuses on dehumanization resistance and community transformation She demonstrates how prison education is essential can provide healing and yet is still not enough to interrupt mass incarceration In short this book explores the possibility of transformation from a retributive punishment system to a system of justice The book s engaging human accounts and multidisciplinary perspective will appeal to criminologists sociologists historians theologians and scholars of education alike Voices from American Prisons will also capture general readers who are interested in learning about a timely and often silenced reality of contemporary modern society

Punishing Race Michael Tonry, 2012-07-05 Punishing Race addresses enduring paradoxes of racial disparities in America and the problems of race in the criminal justice system The white majority Tonry observes has a remarkable capacity to endure the suffering of disadvantaged black and increasingly Hispanic men The criminal justice system is the latest in a series of devices including slavery Jim Crow and legally countenanced discrimination that have maintained white dominance over black people Setting out a new agenda Tonry pushes for overdue and realistic changes in racial profiling and sentencing and to the War on Drugs to reduce their staggering human and social costs

Theater as Liturgy in the Post-Christian Age Matthew Yde, 2024-05-24 This is the first book length study of one of the most talented and exciting American playwrights working today Stephen Adly Guirgis has said that God is the starting point and the finish line of his work and this book identifies him as a playwright with a distinctly Christian sensibility who uses the technique of inculturation to translate the gospel for a secular audience Critics have noted that his plays are peopled with poor suffering minority figures but few have also noted that these figures bear a remarkable similarity to the dispossessed with whom Jesus identifies in Matthew 25 Beginning with his early play Den of Thieves and proceeding through each of his dramas this work examines Guirgis s plays within a biblical context While noting that Guirgis is a writer of the post Christian age who staunchly resists identification as a Christian playwright the book situates him within the tradition of the drama of ideas as a powerful writer employing a dialectical method to inculcate the New Testament ethos and transform the theater space into a place of sacrament

Cruel and Unusual Anne-Marie Cusac, 2009-03-17 The statistics are startling Since 1973 America s imprisonment rate has multiplied over five times to become the highest in the world More than two million inmates reside in state and federal prisons What does this say about our attitudes toward criminals and punishment What does it say about us This book explores the cultural evolution of punishment practices in the United States Anne Marie Cusac first looks at punishment in the nation s early days when Americans repudiated Old World cruelty toward criminals and emphasized rehabilitation over retribution This attitude persisted for some 200 years but in recent decades we have abandoned it Cusac

shows She discusses the dramatic rise in the use of torture and restraint corporal and capital punishment and punitive physical pain And she links this new climate of punishment to shifts in other aspects of American culture including changes in dominant religious beliefs child rearing practices politics television shows movies and more America now punishes harder and longer and with methods we would have rejected as cruel and unusual not long ago These changes are profound their impact affects all our lives and we have yet to understand the full consequences *Punishment and Shame* Wendy C. Hamblet, 2010-12-16 Punishment is the imposition by a legitimate authority of a painful consequence upon one who has offended the social order by indulging in acts contrary to the social good Punishment is understood to serve a primary objective in any society it rehabilitates or reforms re forms or shapes anew the psyches of social offenders to bring them in line with prevailing codes of behavior Punishment thus is a highly conservative force affirming simultaneously the codes of conduct deemed desirable within the society and the status quo of power relations that hold sway in the society Punishment is a form of social teaching One of the favorite forms of didactic pain to which legitimate authorities turn in teaching conformity to social regulations is the psychological pain of shame Shame is a special favorite in the penology of societies of the Western world whose governing logic is already grounded in the shame based religions of Judaism and Christianity Parents school teachers religious leaders and state authorities readily employ shame as an effective method for teaching social lessons Shame is a powerful force that reaches deep into the psyche of the offender and gnaws away at her sense of self worth and identity with longstanding and devastating existential effects Shame has profound and enduring effects because it has the capacity to transform an empirical fact of having done something unacceptable into an ontological reality of being unacceptable as a human being Shame dehumanizes Shame is a powerfully effective tool for altering behavior but because shame dehumanizes it often fails to have the effect that the punisher is seeking to bring about Shame sickens souls rather than cures them It sickens them to such a degree that shame more often acts as a promoter of criminality than as a teacher of the social good **Understanding Crime** Susan Guarino-Ghezzi, A. Javier Trevino, 2014-09-25 Explores the interdisciplinary nature and potential of the field of criminology covering the fields of sociology economics psychology biology philosophy and religious studies The conclusion demonstrates various theoretical approaches for policy development and discusses opportunities for incorporating academic contributions into the political process
