Internal History of German Protestantism since the middle of last Century. Translated from the German by ...

T. Mever Carl Friedrich August KAHNIS, 1856 Internal history of German protestantism since the middle of last century, tr. by T. Meyer Karl Friedrich A. Kahnis, 1856 Internal History of German Protestantism Karl Friedrich August Christ the Logos of Creation: An Essay in Analogical Metaphysics John R. Betz, 2023-09-28 The Prologue of the Gospel of John identifies Jesus Christ as the eternal Word or Logos of the Father who became flesh for the salvation of the world Yet the world that Christ saves is his world from the beginning for he is also the Logos of creation the one through whom all things were made John 1 3 This divinely revealed claim has profound implications not only for theology but also for metaphysics whose relation to Christian doctrine was undermined over the course of the twentieth century such that the Christian faith has become an increasingly private affair rather than a credible account of reality and an invitation to participate more fully in it With Christ the Logos of Creation John Betz seeks to recover a Christ centered analogical metaphysics and to establish the indispensability of such metaphysics for Christian theology and the Christian vision of reality In Part I he dispels the fog of confusion about analogical metaphysics and addresses the ecumenical issues posed by Karl Barth's famous rejection of the analogia entis Part II demonstrates how analogical metaphysics helps to explain Christian doctrine and sheds new light on the interrelationship between individual doctrines including Trinitarian theology Christology and soteriology and theological anthropology In Part III Betz explores how this analogical perspective can aid in resolving a number of theological disputes including the metaphysical relationship between nature and grace and the issue of divine humility Finally Part IV outlines further directions toward a fully Christological metaphysics that is proportionate both to the challenges of modern theology and the reality of our life in Christ the Logos The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, Mark Hutchinson, 2018 Volume V extends the study of the Oxford History of Dissenting Protestant Traditions series into the twentieth century following the spatial cultural and intellectual changes in dissenting identity and practice as these once European traditions globalized and settled down in other places

Mediating Religious Cultures in Early Modern Europe Torrance Kirby, Matthew Milner, 2014-07-03 In recent years writing on early modern culture has turned from examining the upheavals of the Reformation as the ruptured birth of early modernity out of the late medieval towards a striking emphasis on processes of continuity transition and adaptation No longer is the religious seen as institutional or doctrinaire but rather as a cultural and social phenomenon that exceeds the rigid parameters of modern definition Recent analyses of early modern cultures offer nuanced accounts that move beyond the limits of traditional historiography and even the bounds of religious studies At their centre is recognition that the scope of the religious can never be extricated from early modern culture Despite its many conflicts and tensions the lingua franca for cultural self understanding of the early modern period remains ineluctably religious The early modern world wrestled with

the radical challenges concerning the nature of belief within the confines of church or worship but also beyond them This process of negotiation was complex and fuelled European social dynamics Without religion we cannot begin to comprehend the myriad facets of early modern life from markets to new forms of art to public and private associations In discussions of images the Eucharist suicide music street lighting or whether or not the sensible natural world represented an otherworldly divine religion was the fundamental preoccupation of the age Yet even in contexts where unbelief might be considered we find the religious providing the fundamental terminology for explicating the secular theories and views which sought to undermine it as a valid aspect of human life This collection of essays takes up these themes in diverse ways We move from the 15th century to the 18th from the core problem of sacramental mediation of the divine within the strict parameters of eucharistic and devotional life through discussion of images and iconoclasm music and word to more blurred contexts of death street life and atheism Throughout the early modern period the very processes of adaption even change itself were framed by religious concepts and conceits St. Paul & Protestantism with an essay on Puritanism & the Church of England; and, Last essays on church & religion Matthew Arnold, 1883 Feminism and Christian Tradition Mary-Paula Walsh, 1999-05-30 This annotated bibliography a volume in the Greenwood series Bibliographies and Indexes in Religious Studies provides access to the numerous writings from the 1960s through the 1990s on feminism and Christian tradition Major feminist theologians and sociologists are represented As a guide to further research this cross disciplinary approach presents themes and issues in both a historical and a topical framework An extensive overview of feminism in relation to the women s movement women s studies sociology and American religion introduces the literature and provides a historical context for the nearly one thousand entries that follow Cross referenced throughout the literature is presented in six thematic categories that include introductory and background materials feminism and the development of feminist theology topical literatures in feminist theology feminism and womanist theology religious leadership of women and responses and recent developments Separate author subject and title indexes complete the volume **Protestant Worship** James F. White, 1989-01-01 Provides an overview of Protestant worship and examines the origins development and present characteristics of nine different Protestant traditions Printed Images in Early Modern Britain Michael Hunter, 2016-12-05 Printed images were ubiquitous in early modern Britain and they often convey powerful messages which are all the more important for having circulated widely at the time Yet by comparison with printed texts these images have been neglected particularly by historians to whom they ought to be of the greatest interest This volume helps remedy this state of affairs Complementing the online digital library of British Printed Images to 1700 www bpi1700 org uk it offers a series of essays which exemplify the many ways in which such visual material can throw light on the history of the period Ranging from religion to politics polemic to satire natural science to consumer culture the collection explores how printed images need to be read in terms of the visual syntax understood by contemporaries their full meaning often only becoming clear when they

are located in the context in which they were produced and deployed The result is not only to illustrate the sheer richness of material of this kind but also to underline the importance of the messages which it conveys which often come across more strongly in visual form than through textual commentaries With contributions from many leading exponents of the cultural history of early modern Britain including experts on religion politics science and art the book s appeal will be equally wide demonstrating how every facet of British culture in the period can be illuminated through the study of printed images

Religious Currents and Cross-Currents: Essays on Early Modern Protestantism and the Protestant **Enlightenment** Johannes van den Berg, 2021-11-01 The religious history of seventeenth and eighteenth century Protestantism was marked by a twofold movement On the one hand there were attempts to consolidate and if necessary to reaffirm the heritage of the Reformation on the other hand we meet a growing critical evaluation of the legacy of mainstream orthodox thought which could lead to a process of gradual renewal and reorientation but also to forms of more radical and controversial criticism Conservative as well as critical tendencies can be discerned in the religious landscape on both sides of the North Sea In spite of differences in the historical framework and spiritual culture the developments in Great Britain and on the Continent often present remarkable parallels and the water of the North Sea was not too deep for creative interaction This volume contains a number of essays which deal with various aspects of English and Dutch church history and theology in the seventeenth and eighteenth centuries Special attention is given to the problems surrounding the Calvinist doctrine of predestination to English Puritanism and its impact on the Netherlands to Jewish Christian relations and polemics in the seventeenth century to seventeenth century millenarianism in particular in the circle of the Cambridge Platonists to the attitute of Dutch Reformed theologians to the Church of England to eighteenth century English and Dutch orientalist studies and to the development of enlightened ideas in the circles of English and Dutch Protestantism European Romanticism Stephen Prickett, 2014-04-14 Romanticism was always culturally diverse Though English language anthologies have previously tended to see Romanticism as predominantly British the term itself actually originated in Germany where it became the banner of a Europe wide movement involving the profound intellectual and aesthetic changes which we now associate with modernity This anthology is the first to place British Romanticism within a comprehensive and multi lingual European context showing how ideas and writers interconnected across national and linguistic boundaries By reprinting everything in the original languages together with an English translation of all non English material in parallel on the opposite page it offers a new intellectual map of Romanticism Material is thematically arranged as follows Art Aesthetics The Self History Language Hermeneutics Theology Nature The Exotic Science While focusing on European texts the inclusion of essays on their North American and Japanese reception means that Romanticism can be seen as a global phenomenon influencing a surprising number of the ways in which the modern world sees itself Our Ninety-Five Theses Alberto García, Justo González, 2016-12-01 Just as in the days of Luther we are living in a world undergoing enormous changes in the

social political economic religious cultural and technological arenas As in the times of the monk from Wittenberg these changes also challenge and force the Church to rethink and transform itself For this reason the Association for Hispanic Theological Education AETH for its name in Spanish considers the publication of this book very relevant Because it is about commemorating what happened five centuries ago as much as about reliving it in light of our realities In a very particular way this book is an invitation to the Church in general and to the Hispanic Church in particular not to forget thesis 55 raised by the authors We are not helpless victims but God s people called to be instrument of his grace justice and reconciliation

Aristotelian Protestantism in Legal Philosophy Liesbeth Huppes-Cluysenaer, 2022-01-01 This book contains the first time English translation of the main work of Paul Scholten the General Method of Private Law The introductory article analyzes Scholten's view in contrast with a particular combination of Comte's centralizing optimization program and Neo Kantian Idealism which is still dominant in political philosophy Comte's sociology and Scholten's Jurisprudentialism are not presented here in the well known opposition of Sein and Sollen but by showing how their different views on scientific method are grounded in opposite views on the philosophical political and ethical meaning of human action Neo Kantianism adheres to Comte s view while Scholten adheres to the Aristotelian view as it had developed in Christianity and had provided the protestant foundation of the Dutch Republic in the seventeenth century Comte attacks Aristotelian Protestantism which he characterizes as the metaphysical stage of the Western development of state negative protestant constitutional and juridical Scholten's views oppose the inherent trend towards centralization in Comte's program to cover all aspects of optimization for the best of all ever better That branch of political philosophy not only has shaky foundations in scientific method but also has reached its boundaries of operational applicability Scholten's views oppose the emphasis in Comte's program on a unified general will and stress the need for accepting the existence of deeply conflicting philosophies of life in society This has consequences for the organization of democracy regarding independence of specialized agencies the role of civil society and the voting system It not just holds for the state level but also for Unions and supranational organizations The legal system plays a key role in this development Scholten's views and activities have had great posthumous impact for the reconstruction of society and politics in the first years after World War II They contributed to the collaboration between the different denominations in the Protestant church opened up the social democratic party to different denominations and helped develop the cooperation of different Christian parties leaving the cleavages of the pre war political spectre behind Authors and open reviewers who have contributed to the DPSP project have a broad international background apart from the Netherlands Finland Germany Austria France Italy United Kingdom Brazil United States and Indonesia Indonesia plays a substantial role in the book as Scholten played a main role in setting up the legal education system in what was then the Netherlands Indies Chapters 1 Paul Scholten Aristotelian Protestantism in Dutch Legal Philosophy Liesbeth Huppes Cluysenaer p 1 2 Paul Scholten's Life Rogier Chorus Liesbeth Huppes Cluysenaer Jacqueline Schoonheim p 28 3 General Method of Private Law

X. Seaman, 2013-03-06 The Holy Spirit s ministry of illumination is a commonly misunderstood doctrine both pragmatically and theologically As a result this divine activity is often neglected but it should be recognized that it is indispensable for the hermeneutical endeavor This distinctive work seeks to take an apparently abstract concept and make it concrete by establishing proper categories and definitions for the doctrine of illumination while reemphasizing the cooperation of Word and Spirit In doing so this book treats issues such as the relationship between illumination and other hermeneutical doctrines the accessibility of the Spirit's illumination when interpreting the Scriptures and the question of unregenerate biblical interpretation Accordingly Illumination and Interpretation presents a biblical theological evaluation of the Spirit's work of illumination for the transformative purpose of understanding how to appropriate this vital hermeneutical doctrine into one s faith and practice From Max Weber: Essays in Sociology H.H. Gerth, C. Wright Mills, 2014-05-01 First published in 1998 Routledge is an imprint of Taylor Francis an informa company The Russian-Orthodox Tradition and Modernity Andreas Buss, 2018-11-01 The book attempts to identify the uniqueness of the Russian Orthodox religious tradition and to contrast it with two of the characteristics of modern Western society its particular economic ethics and individualism Max Weber and Louis Dumont provide the theoretical framework The first part of the analysis is concerned with the economic ethics among Orthodox Russians Old Believers and the adherents of various sects in the historical context of Russian society The second part centres on the place and the kind of individualism in the Orthodox tradition since its beginnings in early monasticism and up to the twentieth century The comparative perspective does not only shed new light on Russia but also on the development of Western individualism and on the Janus like features of a traditional culture exposed to modernization **Retrieving Catholicity in American Protestantism** John Williamson Nevin, 2024-04-25 This volume is a collection of essays on church history by John

Williamson Nevin 1803 86 the theological creator of Mercersburg Theology Nevin and his colleague Philip Schaff were attempting to reorient American ecclesial thought to be more historical Most American theologians of the period posited a period of spiritual decline soon after the New Testament lasting until the Protestant Reformation They believed the ongoing task of the children of the Reformation was to remake the church in the mold of the apostolic faith In these essays Nevin was seeking to establish a more unified historical narrative that saw the Reformation as an essential outgrowth of the medieval Catholic church Nevin's search for an answer to the church question what is the church demanded a focus on history as an unfolding teleological journey Nevin's search for history is part of his larger search for catholicity in the American Protestant church These writings are an important part of the larger theological project that is known as Mercersburg Theology which is being explored in the volumes of this series **Encyclopedia of the Novel** Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is importnant Similarly an entry on an individual novel discusses the importance of that novel not only form analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world Essays on Religion and Human Rights David Little, 2015-03-26 This collection of essays by David Little addresses human rights in relation to the historical settings in which its language was drafted and adopted Featuring five original essays Little articulates his view that fascist practices before and during World War II vivified the wrongfulness of deliberately inflicting severe pain injury and destruction for self serving purposes and that the human rights corpus developed in response was designed to outlaw all practices of arbitrary force He contends that while there must be an accountable human rights standard it should guarantee latitude for the expression and practice of beliefs consistent with outlawing arbitrary force Little details the theoretical grounds of the relationship between religion and human rights and concludes with essays on US policy and the restraint of force in regard to terrorism With a foreword by John Kelsay this book is a capstone of the work of this influential writer on religion philosophy and law
