Protestantism, edited by J.L. Dunstan Richard Abbott Gard, 1961 *Great Religions Of Modern Man, Protestantism, 255p*
Leslie Dunstan J, 1962 The Religion of a Modern Protestant Charles Edward Herring, 1917 Basic Religious Books and

Garrigue Masaryk, 1938-01-01 **Great Religions of the Modern World** Edward Jabra Jurji, 2015-12-08 Here is the
answer to the desire of many thoughtful laymen for an intelligent appraisal of the great contemporary faiths This is not a
reference book but a group of essays for the general reader on the idea the spiritual core of the chief religions of the modern
day Each essay is written simply and objectively by an eminent scholar with the authority that is the fruit of a lifetime study
of his subject Fidelity to the classical tenets of each religion and a desire to permit each to speak for itself are salient
features of the work of these men They collaborated on the fundamental outline of the book with the result that it is well
integrated not a random collection of articles Recent events in China Palestine India Indonesia Japan and many other parts of
the globe lend a special interest to the subject at this time but this is not a book on current events It takes a larger view and
is a study of religion in its widest connotations as a potent force in history and as a meaningful influence in the world today

Supplement , 1962 Science, Religion, and the Protestant Tradition James C. Ungureanu, 2019-10-03 The story of the
conflict thesis between science and religion the notion of perennial conflict or warfare between the two is part of our modern
self understanding As the story goes John William Draper 1811 1882 and Andrew Dickson White 1832 1918 constructed
dramatic narratives in the nineteenth century that cast religion as the relentless enemy of scientific progress And yet despite
its resilience in popular culture historians today have largely debunked the conflict thesis Unravelling its origins James
Ungureanu argues that Draper and White actually hoped their narratives would preserve religious belief For them science
was ultimately a scapegoat for a much larger and more important argument dating back to the Protestant Reformation where
one theological tradition was pitted against another a more progressive liberal and diffusive Christianity against a more
traditional conservative and orthodox Christianity By the mid nineteenth century narratives of conflict between science and
religion were largely deployed between contending theological schools of thought However these narratives were later
appropriated by secularists freethinkers and atheists as weapons against all religion By revisiting its origins development and

popularization Ungureanu ultimately reveals that the conflict thesis was just one of the many unintended consequences of the Protestant Reformation **The New Republic** Herbert David Croly, 1969-07 *Protestant Traditions and the Soul of Europe* Gijsbert van den Brink, Gerard den Hertog, 2017-12-01 What binds contemporary Europeans together in terms of cultural values that go beyond a common interest in economic growth In a time of resurging nationalist movements all over Europe the need for what former President of the European Commission Jacques Delors called a soul for Europe has become more urgent than ever In this volume Delors's 25 years old appeal to the churches is taken seriously In particular contributions to a common sense of belonging that have been made by the traditions of European Protestantism are carefully investigated In nineteen case studies topics and areas as varied as theological identity religious tolerance political philosophy ethics the arts the scientific mentality and the economy are covered It appears that despite the rise of religious pluralism throughout Europe aspects of the Protestant ethos continue to be key to societal cohesion in many places Mit Beiträgen von Ibolya Balla Henk van den Belt Jasper Bosman Gijsbert van den Brink Ad de Bruijne Gerard den Hertog Zsolt Gárdi Theo L. Hetteema Hans Martin Kirn Jen Kiss Leo Koffeman Henri A. Krop Yelena Mazour Matusevich Olga Navrotilov Henk P. de Roest Herman Speelman Willem van Vlastuin Pieter Vos und Heleen Zorgdrager Protestantische Traditionen und die Seele Europas Welche gemeinsamen Werte verbinden uns im heutigen Europa über ökonomische Interessen hinaus Vor dem Hintergrund der heute vielerorts in Europa aufflammenden nationalistischen Bestrebungen ist der Bedarf nach einer Seele für Europa wie der für here Vorsitzende der Europäischen Kommission Jaques Delors es nannte dringender denn je In diesem Band wird Delors vor einem Vierteljahrhundert geäußerten Appell an die Kirchen darum ernst genommen Besonders Beiträge zum gemeinsamen Bewusstsein der Zusammengehörigkeit in der protestantischen Tradition werden sorgfältig untersucht und geprüft In neunzehn Fallstudien werden Themen und Bereiche wie theologische Identität religiöse Toleranz politische Philosophie Ethik Kunst wissenschaftliche Haltung und Ökonomie in den Blick genommen Es zeigt sich dass trotz des Anwachsens eines religiösen Pluralismus überall in Europa Aspekte des protestantischen Ethos wesentlich zur gesellschaftlichen Kohäsion beitragen

The Meaning and End of Religion Wilfred Cantwell Smith, 1991 Wilfred Cantwell Smith maintained in this vastly important work that Westerners have misperceived religious life by making religion into one thing He shows the inadequacy of religion to capture the living endlessly variable ways and traditions in which religious faith presents itself in the world

The Protestant Magazine, 1915 **Max Weber and 'The Protestant Ethic'** Peter Ghosh, 2014-09-05 Max Weber and The Protestant Ethic Twin Histories presents an entirely new portrait of Max Weber one of the most prestigious social theorists in recent history using his most famous work The Protestant Ethic and the Spirit of Capitalism as its central point of reference It offers an intellectual biography of Weber framed along historical lines something which has never been done before It re-evaluates The Protestant Ethic a text surprisingly neglected by scholars supplying a missing intellectual and chronological centre to Weber's life and work Peter Ghosh suggests that The Protestant Ethic is the link which unites the

earlier pre 1900 and later post 1910 phases of his career He offers a series of fresh perspectives on Weber s thought in various areas charisma capitalism law politics rationality bourgeois life and not least Weber s unusual religious thinking which was remote from god yet based on close dialogue with Christian theology This approach produces a convincing view of Max Weber as a whole while previously the sheer breadth of his intellectual interests has caused him to be read in a fragmentary way according to a series of specialized viewpoints this volume seeks to put him back together again as a real individual

Modern Man in Search of a Soul Carl Gustav Jung,2001 An introduction to the theories and concepts of one of the most original and influential religious thinkers of the 20th century The book covers all of Jung s most significant themes including man s need for a God and the mechanics of dream analysis
