## **Provence Memories:**

**Provence Memories** Dennis Stock,1991-06-01      *MEMOIRS* Léon Daudet,1925      Franschhoek Memories Gwen Jennings,2004 Memoirs of the author s life in Franschhoek South Africa      Medieval Memories Elisabeth Van-Houts,2013-09-13 Who exactly was responsible for the preservation of knowledge about the past How did people preserve their recollections and pass them on to the next generation Did they write them down or did they hand them on orally The book is concerned with the memories of medieval people In the Middle Ages as now men and women collected stories about the past and handed them down to posterity Many memories centre in the aristocratic family or lineage while others are focussed on institutions such as monasteries or nunneries The family and monastic contexts clearly illustrate that remembrance of the past was a task for men and women and that each sex had a specific gendered role Memory also involves selection of what should and should not be remembered and its corollary amnesia therefore is discussed Anchored in the present memory casts a shadow on the future and thus prophecies form an important component of the cult of remembrance For the first time in *Medieval Memories* tombstones medieval encyclopaedias and legal testimonies figure alongside moral guidebooks miracle stories and chronicles as material for the gendered perceptions of the medieval past      **Memories of a Shipwrecked World** M. Kleĳnmikhel' (grafini[a]),1923      **French Autobiographical Writing 1900-1950** Susan M. Dolamore,1997      **Peiresc's Europe** Peter N. Miller,Dean and Chair of Academic Programs Peter N Miller,2000-01-01 Nicolas Claude Fabri de Peiresc 1580 1637 was during his lifetime one of Europe s most famous men A friend of Pope Urban VIII and Galileo of Peter Paul Rubens and Hugo Grotius of Tommaso Campanella and Marin Mersenne Peiresc played an important role in the intellectual culture of his time This book is the first study in English of this extraordinary man as well as a vivid portrait of his whole circle Looking through the lens of Peiresc s life Peter N Miller brings into focus the early seventeenth century world of learning its people places and ideas Drawing on the extensive Peiresc archive more than 50 000 pieces of paper Miller brilliantly evokes the lives of antiquaries philosophers theologians and politicians of Peiresc s day only some of whom remain known today He explores the age in which Peiresc s toleration and sociability his political action and cosmopolitanism and his serious scholarship without dogmatism were identified as a set of virtues and practices by which to live Peiresc s notion of scholarship as a moral exercise the sweep of his interests and the cross Continental reach of his intellectual life show with new clarity what it meant to be a man of learning during the decades around 1600      Balthazar Kristen Collins,Bryan C. Keene,2023-02-28 This abundantly illustrated book examines the figure of Balthazar one of the biblical magi and explains how and why he came to be depicted as a Black African king According to the Gospel of Matthew magi from the East following a star traveled to Jerusalem bearing precious gifts for the infant Jesus The magi were revered as wise men and later as kings Over time one of the three came to be known as Balthazar and to be depicted as a Black man Balthazar was familiar to medieval Europeans appearing in paintings manuscript illuminations mosaics carved ivories and

jewelry But the origin story of this fascinating character uncovers intricate ties between Europe and Africa including trade and diplomacy as well as colonization and enslavement In this book experts in the fields of Ethiopian West African Nubian and Western European art explore the representation of Balthazar as a Black African king They examine exceptional art that portrays the European fantasy of the Black magus while offering clues about the very real Africans who may have inspired these images Along the way the authors chronicle the Black presence in premodern Europe where free and enslaved Black people moved through public spaces and courtly circles The volume s lavish illustrations include selected works by contemporary artists who creatively challenge traditional depictions of Black history Passages Westward Maria Lähtenmäki, Hanna Snellman, 2006-12-27 The West has always been a resource for the Finns Scholars artists and other professionals have sought contacts from Europe throughout the centuries The Finnish experience in Western Europe and the New World is a story of migrant laborers expatriates and specialists working abroad But you don t have to be born in Finland to be a Finn The experiences of second generation Finnish immigrants and their descendants open up new possibilities for understanding the relationship between Finland and the West The Finnish passage westward has not always crossed national borders Karelian evacuees headed west as did young people from the Finnish countryside when opportunities to make a living in agriculture and forestry diminished in the post war era The legacy of these migrants is still visible in the suburbs of Finnish cities today This book is a joint effort of the Department of Ethnology and the Department of History at the University of Helsinki It was written by Ph D students supervised by Academy Research Fellows Maria Lähtenmäki and Hanna Snellman in collaboration with colleagues abroad interested in current research in ethnology and history **On the Road - Driving Adventures, Pleasures and Discoveries** Peter Schindler, 2005-11 Celebrating the pleasures of driving this book takes the reader on a journey discovering how beautiful and refreshing driving and life can be With pictures of magnificent roads breath taking landscapes and people at one with their cars it is about driving experiences around the world **Memories of a shipwrecked world, being the memoirs of Countess Kleinmichel** Marie von Keller Kleinmichel, 1923 Aspiration, Representation and Memory Jessica Munns, Penny Richards, Jonathan W. Spangler, 2016-03-09 Exploiting the turbulence and strife of sixteenth century France the House of Guise arose from a provincial power base to establish themselves as dominant political players in France and indeed Europe marrying within royal and princely circles and occupying the most important ecclesiastical and military positions Propelled by ambitions derived from their position as cadets of a minor sovereign house they represent a cadre of early modern elites who are difficult to categorise neatly neither fully sovereign princes nor fully subject nobility They might have spent most of their time in one state France but their interests were always trans national contested spaces far from the major centres of monarchical power from the Ardennes to the Italian peninsula were frequent theatres of activity for semi sovereign border families such as the Lorraine Guise This nexus of activity and the interplay between princely status and representation is the subject of this book The essays in this collection approach Guise aims

ambitions and self fashioning using this trans national dimension as context their desire for increased royal rather than merely princely power and prestige and the use of representation visual and literary in order to achieve it Guise claims to thrones and territories from Jerusalem to Naples are explored alongside the Guise dream of Italy with in depth studies of Henry of Lorraine fifth Duke of Guise and his attempts in the mid seventeenth century to gain a throne in Naples The combination of the violence and drama of their lives at the centres of European power and their adroit use of publicity ensured that versions of their strongly delineated images were appropriated by chroniclers playwrights and artists in which they sometimes featured as they would have wished as heroes and heroines frequently as villains and ultimately as characters in the narratives of national heritage

*Materializing Memory in Art and Popular Culture* Laszlo Muntean, Liedeke Plate, Anneke Smelik, 2016-12-08 Memory matters It matters because memory brings the past into the present and opens it up to the future But it also matters literally because memory is mediated materially Materiality is the stuff of memory Meaningful objects that we love or hate function not only as aide mmoire but are integral to memory Drawing on previous scholarship on the interrelation of memory and materiality this book applies recent theories of new materialism to explore the material dimension of memory in art and popular culture The book s underlying premise is twofold on the one hand memory is performed mediated and stored through the material world that surrounds us on the other hand inanimate objects and things also have agency on their own which affects practices of memory as well as forgetting Chapters 1 4 and 5 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3 0 license

thinking from ideas concerning the family unit to those shaping political institutions Focusing on France but incorporating studies from further afield this collection of essays marks an important new contribution to the study of medieval memory and commemoration Arranged thematically each part highlights how memory cannot be studied in isolation but instead intersects with many other areas of medieval scholarship including art history historiography intellectual history and the study of religious culture Key themes in the study of memory are explored such as collective memory the links between memory and identity the fallibility of memory and the linking of memory to the future as an anticipation of what is to come

contestation of memory discourses With attention to the characteristics of both vertical and horizontal memory fragmentation the book addresses the plurality of diverging and often conflicting memory discourses that are produced within the public sphere of a given community It analyzes the juxtaposition tensions and interactions between narratives produced beyond or below the central state often transcending national boundaries The book is structured according to the type of actors involved in a memory fragmentation process It explores how states have been trying to produce and impose memory discourses on civil societies sometimes even against the experiences of their own citizens and how such efforts as well as backlash from actors below and beyond the state have led to horizontal and vertical memory fragmentation Furthermore it considers the attempts by states representatives to reassert control of national memory discourses and the subsequent resistances they face As such this volume will appeal to sociology and political science scholars interested in memory studies in post conflict societies
