contextual variables **Migrants and Cultural Memory** Micheal O'Haodha, 2009-05-27 This volume explores the discourses and representations that have circumvented the image that is the Traveller the Roma Gypsy and migrant Other It is generally acknowledged that the globalisation and mass media dissemination which characterise the current era have overseen a range of complex socio cultural forces many of which have blurred the once reified borders of the post Enlightenment modern nation state Nowhere is this more evident than in the case of cultural diasporas and traditionally nomadic groups such as Travellers Roma and other migrant cultures This book points to the ongoing reconfiguration of once dominant cultural narratives and explores the manner whereby aspects of the migrant experience are themselves echoed in the increasingly hybrid and diverse discourses that characterise Western countries of the present day [A Proverb in Mind](#) Richard P. Being and Becoming African as a Permanent Work in Progress B. Nyamnjoh, U. Nwosu, 2021-06-09 This book is a timely addition to debates and explorations on the epistemological relevance of African proverbs especially with growing calls for the decolonisation of African curricula The editors and contributors have chosen to reflect on the diverse ways of being and becoming African as a permanent work in progress by drawing inspiration from Chinua Achebe's harnessing of the effectualness of oratory especially his use of proverbs in his works The book recognises and celebrates the fact that Achebe's proverbial Igbo imaginations of being and becoming African are compelling because they are instructive about the lives stories struggles and aspirations of the rainbow of people that make up Africa as a veritable global arena of productive circulations entanglements and compositeness of being The contributions foray into how claims to and practices of being and becoming African are steeped in histories of mobilities and a myriad of encounters shaped by and inspiring of the competing

and complementary logics of personhood and power that Africans have sought and seek to capture in their repertoires of proverbs The task of documenting African proverbs and rendering them accessible in the form of a common hard currency with fascinating epistemological possibilities remains a challenge yearning for financial scholarly social and political attention The book is an important contribution to John Mbiti's clarion call for an active and sustained interest in African proverbs

Figurative Language Dmitrij Dobrovolskij, Elisabeth Piirainen, 2021-11-08 The book develops a Theory of the Figurative Lexicon Units of the figurative lexicon conventional figurative units CFUs for short differ from all other elements of the language in two points Firstly they are conventionalized That is they are elements of the mental lexicon in contrast to freely created figurative expressions Secondly they consist of two conceptual levels they can be interpreted at the level of their literal reading and at the level of their figurative meaning which both can be activated simultaneously New insights into the Theory of Figurative Lexicon relate on the one hand to the metaphor theory Over time it became increasingly clear that the Conceptual Metaphor Theory in the sense of Lakoff can only partly explain the conventional figurativeness On the other hand it became clear that intertextuality plays a far greater role in the CFUs of Western cultures than previously assumed The book's main target audience will be linguists researchers in phraseology paremiology and metaphor and cultural studies The data and explanations of the idioms will provide a welcome textbook in courses on linguistics culture history phraseology research and phraseodidactics
