Provisional City:

The Provisional City Dana Cuff, 2000 A look at urban transformation through the architecture and land development of large scale residential projects *Looking for Los Angeles* Charles G. Salas, Michael S. Roth, 2001 In *Looking for Los Angeles* 12 contributors present their responses to the world's newest major city A variety of perspectives and approaches are covered The text balances the importance of place with the importance of culture *The Creative Destruction of Manhattan, 1900-1940* Max Page, 1999 The oxymoron creative destruction suggests the tensions that are at the heart of urban life between stability and change between particular places and undifferentiated spaces between market forces and planning controls and between the natural and unnatural in city growth Page investigates these cultural counter weights through case studies of Manhattan's development with depictions ranging from private real estate development along Fifth Avenue to Jacob Riis's slum clearance efforts on the Lower East Side from the elimination of street trees to the efforts to save City Hall from demolition Contrary to the popular sense of New York as an ahistorical city the past as recalled by powerful citizens was in fact at the heart of defining how the city would be built BOOK JACKET **The ^A Resilient City** Lawrence J. Vale, Thomas J. Campanella, 2005-01-20 Throughout history cities have been sacked burned torched bombed flooded besieged and leveled And yet they almost always rise from the ashes to rebuild Revealing how traumatized city dwellers consistently develop narratives of resilience and how the pragmatic process of urban recovery is always fueled by highly symbolic actions The Resilient City offers a deeply informative and unsentimental tribute to the dogged persistence of the city and indeed of the human spirit **Making Livonia** Anu Mänd, Marek Tamm, 2020-06-09 The region called Livonia corresponding to modern Estonia and Latvia emerged out of the rapid transformation caused by the conquest Christianisation and colonisation on the north east shore of the Baltic Sea in the late twelfth and the early thirteenth centuries These radical changes have received increasing scholarly notice over the last few decades However less attention has been devoted to the interplay between the new and the old structures and actors in a longer perspective This volume aims to study these interplays and explores the history of Livonia by concentrating on various actors and networks from the late twelfth to the seventeenth century But on a deeper level the goal is more ambitious to investigate the foundation of an increasingly complex and heterogeneous society on the medieval and early modern Baltic frontier the making of Livonia *Letter from the Acting Secretary of the Treasury, Transmitting a Copy of a Communication from the Attorney-General Asking Authority to Pay the Claim of E. P. Kelly and J. J. Graham for Services Rendered as Policemen at the Opening of Oklahoma Territory, from the Unexpended Balance of the Appropriation Made by the Deficiency Act of July 28, 1892*, 1894 *Moody's Analyses of Investments and Security Rating Service*, 1920 *Moody's Manual of Investments* John Sherman Porter, 1920 *Health Rights Are Civil Rights* Jenna M. Loyd, 2014-04-01 *Health Rights Are Civil Rights* tells the story of the important place of health in struggles for social change in Los Angeles in the 1960s and 1970s Jenna M Loyd describes how Black freedom

antiwar welfare rights and women's movement activists formed alliances to battle oppressive health systems and structural violence working to establish the principle that health is a right For a time with President Nixon big business and organized labor in agreement on national health insurance even universal health care seemed a real possibility Health Rights Are Civil Rights documents what many Los Angeles activists recognized that militarization was in part responsible for the inequalities in American cities This challenging new reading of suburban white flight explores how racial conflicts transpired across a Southland landscape shaped by defense spending While the war in Vietnam constrained social spending the New Right gained strength by seizing on the racialized and gendered politics of urban crisis to resist urban reinvestment and social programs Recapturing a little known current of the era's activism Loyd uses an intersectional approach to show why this diverse group of activists believed that democratic health care and ending war making were essential to create cities of freedom peace and social justice a vision that goes unanswered still today

Moody's Analyses of Railroad Investments John Sherman Porter, 1923

Sarajevo Robert J. Donia, 2006 Sheds new light on Sarajevo as a cosmopolitan gem deserving of a central role in the world's cultural social and political history
