Phenomenology and Lacan on Schizophrenia Alphonse de Waelhens, Wilfried Ver Eecke, 2001 In Phenomenology and Lacan on Schizophrenia Alphonse De Waelhens provides a clear summary of Lacan's theory of schizophrenia as Lacan derived it from his commentary of Freud's study of the Memoirs of Schreber De Waelhens also shows how Lacan's understanding of the schizophrenic as having a defective relation to language can also explain four other characteristics of schizophrenic behavior the fragmented body image lack of realistic evaluation of the world so called bisexuality and confusion of birth and death Third De Waelhens gives a Hegelian interpretation of the pre Oedipal experience of the child He makes use of Freud's study on his grand child using a bobbin and later the words fort da away here to demonstrate that a transitional object allows the child to take distance from its attachment to the mother so that it can start to separate itself from the mother Taking distance is according to De Waelhens introducing the Hegelian negative which is the birth of the subject Fourth De Waelhens gives a dialectic reading of the history of German and French psychiatry He shows the epistemological contradictions in the work of some of the great nineteenth century psychiatrists relying too exclusively on a biological model of schizophrenia In his contribution to this volume Wilfried Ver Eecke draws several lessons from evaluating the literature on schizophrenia He argues that epistemologically neither a biological nor a psychological method of reasoning can capture all the factors that can play a role in the creation of schizophrenia He relies heavily but not exclusively on the Finnish studies of Tienari Myrman and Wahlberg and their colleagues to provide statistical evidence that non biological factors also play an important role in causing schizophrenia He relies heavily but again not exclusively on the study by Karon and VandenBos to demonstrate statistically the efficiency of psychodynamically inspired therapy of schizophrenics Ver Eecke also addresses an apparent inconsistency in De Waelhens presentation of Lacan's theory of schizophrenia Where De Waelhens seemed to argue at one time that the mother figure was the crucial figure to explain schizophrenia leading to a defective relation to the body and at another time that it was the role of the father which was crucial leading to a defective relation to language and the symbolic there Ver Eecke argues that the defective function of each influences the function of the other He then draws a conclusion for the therapy of schizophrenics to be helpful a therapist will have to address both deficiencies The problem for treating schizophrenics is that correcting an unconscious deficiency to the body a deficiency in the imaginary requires a totally different kind of intervention than an attempt to correct a symbolic deficiency a deficiency in the paternal function A correction of the imaginary requires a kind of maternal mirroring a correction of the symbolic requires making a distinction or a prohibition stick One further difficulty arises Psychotherapy uses language in its treatment However language in schizophrenics is deficient We can therefore expect that language will be inefficient This is so unless the therapist uses language first to make a repair at the imaginary level and only thereafter makes an attempt to make a correction in the symbolic In analyzing successful therapeutic techniques reported by several therapists Ver Eecke discovers

that all of them first try to repair the imaginary before they attempt to make corrections to the symbolic *Sigmund Freud and Oskar Pfister on Religion* Carlos Domínguez-Morano, 2023-07-24 Sigmund Freud and Oskar Pfister on Religion examines the dialogue between psychoanalysis and religion through the encounters of two men the unfaithful Jew who founded psychoanalysis and a pastor of profound religious faith and proven psychoanalytic conviction Carlos Domínguez Morano analyses the original encounters between Freud and Pfister and their respective positions noting the incidences impasses and progress of their discussions The complex interactions between psychoanalysis and religion over time are considered and Domínguez Morano assesses the fundamental parameters of each perspective with reference to Catholicism The book explores the relationship between psychoanalysis and religion as a rich ongoing and unending dialogue and sheds new light on the origins of psychoanalysis Sigmund Freud and Oskar Pfister on Religion will be of great interest to academics and scholars of psychoanalytic studies religion the history of psychology and the history of ideas **Phenomenology of Life.**

**Meeting the Challenges of the Present-Day World** Anna-Teresa Tymieniecka, 2006-03-30 Philosophy has been always received or bypassed for its resonance or aloofness with the spirit of the time Should not philosophy phenomenology of life be expected to do more to ascertain its validity Should it not pass the pragmatic test that is to respond directly to the life concerns of its time What is the role of the philosopher and philosophy today Due to the ever advancing scientific technological social and cultural changes that are shaping human life and the life world in transformation we are desperately seeking a measure to estimate life s unfolding a compass to stir the course between Scylla and Charibda to maintain human hood and creative insight for laying the cornerstones for the unforeseeable unfolding of life dynamisms It is this challenge which philosophy phenomenology of life meets with underlying onto-poietic unraveling of the hidden logoic concatenations of beingness in becoming The present collection of essays offers contributions to answer this challenge by focusing upon measure sharing in life intersubjectivity and communication societal equilibrium education and more It will be of great interest to those working in the fields of Phenomenology Philosophy History of Philosophy and Contemporary Philosophy

*The Truthful and the Good* J.J. Drummond, J.G. Hart, 2013-12-11 This volume was occasioned by the desire of its contributors to honor Robert Sokolowski on his sixtieth birthday The desire first took form on the streets of an American metropolis when several of us while attending a philosophy conference were bemoaning the lack of passion for doing philosophy as we all conceived it In this expression of our discontent we all had a common exemplar in mind someone for whom the passion for the truthful and the good is embodied in every sentence of his rich writings Felicitously this very thinker was someone whom we can regard as manifesting in his person and life these same properties which his writings exhibit and pursue as luminous ideals As a result John Brough John Drummond and I came up with the idea that we hold our own conference and do philosophy as we envisage it and at the same time honor its foremost exemplary practitioner whose sixtieth birthday was the following year Immediately the idea took wings among the handful of us and the dreariness of that

philosophy congress receded The first task of thinking of possible speakers was easy The issue of the venue for our symposium what I like to call the Sokofest had to be decided as well as the details of its realization Marine Hydrothermal Systems and the Origin of Life SCOR Working Group 91,1992-11-30 Research of the origins of life in connection with a marine environment started at the end of the seventies when the black smokers in the Pacific were discovered and the Red Sea deep hydrothermal brines were found to be a fruitful environment for abiotic synthesis of life precursors For a while this research was categorised under the heading chemistry but in less than a decade the topic became fully integrated into the science of oceanography The Scientific Committee on Oceanographic Research SCOR initiated Working Group 91 Chemical Evolution and Origin of Life in Marine Hydrothermal Systems This volume contains the final report of this working group

**The New Husserl** Donn Welton,2003-08-21 The essays in this volume provide an alternative approach to Husserl by examining his work and his method as a whole and by probing issues old and new that occupied him during this exceptionally productive period Paternity as Function Vassilis Saroglou,2021-09-13 Faced with the contemporary proliferation of a religion of emotional communities and the multiplication of gurus spiritual directors and masters the psychologist of religion should question the impact of the paternal function on the structuring of religious experience This question is examined here within the context of ancient monasticism and on the basis of ascetic sources mainly the Ladder of John Climacus 7th c as well as by means of the analysis of rituals such as baptism and monastic profession The author demonstrates that the spiritual father refers to paternity as function and that this function is both structural and structuring with respect to religious experience It is also examined how this crossroads concept of fatherhood is linked to other psychic realities such as the maternal dimension of religious desire and the role of the community the relations between the real the imaginary and the symbolic the paternal uncertainty the articulation of the mystical desire with the Law and the control of sexuality This study shows the importance of this function for bringing together structure and development in the religious experience and indicates the risks of this paternity for a religious pathology **Truth and Singularity** Rudi Visker,2013-12-01 THE PART OF THE SUBJECT At the origin of these essays an increasing weariness produced by all those attempts to oppose what came to be known as Foucault's post structuralism to phenomenology as if the two were incompatible and as if one could only proceed with thought after having chosen sides And an equal reluctance to join those who pretended they could carry on as they had before since quite obviously there were no sides to choose Foucault being but the latest example of a relativism that one could easily ignore since it had like all relativism already refuted itself by daring to speak And finally behind that weariness and that reluctance a suspicion that what these two reactions to Foucault had in common was a refusal to go toward the things themselves and thus a refusal to approach the texts that we refer to by that proper name as we would approach other phenomena not as the body object of a thought that we would have to locate as coming either before or after phenomenology but as a series of statements that appear to us in a certain way and whose appearing reveals to us something

about our own finite being      **Breaking through Schizophrenia** Wilfried Ver Eecke, 2019-05-10 Breaking through Schizophrenia builds on the ideas of Jacques Lacan who argued that schizophrenia is a deficient relationship to language in particular the difficulty to master the metaphoric dimension of language which children acquire by the Oedipal restructuring of the psyche This book is thus a countercultural move to present a less damaging view and a more efficient treatment method for schizophrenic persons Through a collection of published and unpublished articles Ver Eecke traces the path of Lacanian thought He discusses the importance of language for the development of human beings and examines the effectiveness of talk therapy through case studies with schizophrenic persons      **Evolving Psychosis** Jan Olav Johannessen, Brian V. Martindale, Johan Cullberg, 2007-01-24 Can early need adapted treatment prevent the long terms effects of psychosis How important is phase specific treatment Evolving Psychosis explores the success of psycho social treatments for psychosis in helping patients recover more quickly and stay well longer Mental health professionals from all over the world share their clinical experience and scientific findings to shed new light on the issues surrounding need specific treatment They cover The Nature of Psychosis Early Intervention in Psychosis Phase Specific Treatment of Psychosis and The Need for Integration Particular attention is paid to the how treatment can be improved with individually tailored treatment programmes early intervention more integration between psychological treatments and new and better diagnostic concepts This book incorporates new and controversial ideas which will stimulate discussion regarding the benefits of early need adapted treatment It will be of interest to psychologists psychiatrists and other mental health professionals interested in psycho social approaches to psychosis      *Psychoanalysis, Phenomenological Anthropology and Religion* Antoine Vergote, 1998      *Psychoanalyse - 13. Jaarboek van de Belgische School voor Psychoanalyse 1999* ,      *L'HOMME QUI MARCHE SOUS LA PLUIE; UN PSYCHANALYSTE AVEC LACAN* , 2007      **Review of Existential Psychology and Psychiatry** , 2001      **Mística y psicoanálisis** Carlos Domínguez Morano, 2020-06-08 El fenómeno místico aparece como una constante universal en todas las formaciones religiosas En nuestros días se da además la novedosa reivindicación de una mística profana que tendrá lugar fuera de los marcos de la religión Pero aparte de los campos de la teología y la espiritualidad fueron la psiquiatría la psicología y después el psicoanálisis las disciplinas que mostraron un mayor interés en la experiencia mística La irrupción de intensas vivencias afectivas a veces acompañadas de fenómenos especiales como son las visiones y revelaciones hicieron pensar que los dinamismos negados de la conciencia encontraban en este tipo de experiencia una oportunidad única de expresión y reconocimiento El carácter regresivo insano o propulsivo y benéfico que pudiera comportar la vivencia mística fue y sigue siendo objeto de una encendida controversia Pero más allá de la cuestión clásica el fenómeno místico se presenta como una particular forma de experiencia en la que las estructuras psíquicas más profundas se encuentran inequívocamente comprometidas Determinar cuáles son esas dimensiones del psiquismo implicadas y el sentido que puedan tener en la dinámica global de la personalidad constituye un objetivo central del presente estudio El análisis se

limita a la mística occidental y dentro de ella se pretende determinar cuál pueda ser el significado de ese Otro con el que el místico se vincula en amor y gozo. Un Otro que simultáneamente puede provenir de ese mismo sacro de la conciencia en lo que sería el mundo inconsciente y paralelamente podría estar remitiendo también a un mismo allá de la misma a una realidad trascendente sagrada o no con la que el místico dice estar en relación. El lugar de ese Otro en los místicos de Occidente supone así un reto apasionante al que esta obra intenta aproximarse. Esta obra va a marcar un antes y un después en los estudios relacionados con la experiencia mística. José M. Castillo en *Religión Digital*. Nos hallamos ante una excelente obra que queda sin duda alguna como referencia para las futuras décadas. Es la culminación y el fruto maduro de prolongadas incursiones del autor en las aguas profundas del psiquismo humano allí donde lo otro se encuentra con el Otro. Javier Melloni.

**L'idée de l'autre** Bertrand Bouckaert, 2003-09-30. La question de l'intersubjectivité constitue un des thèmes majeurs de la phénoménologie. C'est également un des aspects de la pensée de Husserl qui a été la cible des critiques les plus sérieuses et les plus nombreuses. Pourtant aussi surprenant que cela puisse paraître on ne s'est pratiquement jamais intéressé à l'origine de cette question chez Husserl. Le présent ouvrage entend combler cette lacune en étudiant les relations entre l'identité et l'altérité entre 1900 et 1913. Au cours de cette période la pensée de Husserl a effectué une révolution au cours de laquelle les rapports de fondation intentionnelle entre l'identité et l'altérité se sont inversés. Les motifs qui ont présidé à cette évolution tels qu'ils sont décrits ici ont puissamment contribué à orienter le développement de la phénoménologie par la suite. La question se pose dès lors de savoir si l'itinéraire qui prend son origine en 1900 a bien été parcouru jusqu'à son terme par Husserl et si il n'est pas nécessaire d'envisager la possibilité d'une phénoménologie première.

*Nos vies à créer* Jacques Arènes, 2016-02-17. Entre réalisation de soi et dispersion de soi entre volonté de puissance et atomisation de l'identité nous rêvons de bonheur et de réussite. En vain. Comment vivre dans un monde déboussolé et déboussolant où l'utilitarisme et le consumérisme. Fort de son expérience psychanalytique philosophique et de sa connaissance du fait religieux Jacques Arènes descend avec nous dans l'abîme de nos angoisses croire en soi c'est d'abord se croire capable de tisser le sens de sa propre vie croire ainsi inaugure le risque et la joie d'une illusion puissamment créatrice croire ainsi nous ouvre au monde l'autre la transcendance et en retour nous mêmes croire ainsi nous rend libres et vivants face aux rudesses de notre destin. En cinq tapes concrètes et détaillées qui sont autant de moments clés pour sortir de la gangue du non sens et du malaise chacune et chacun d'entre nous vérifiera par lui-même les voies de cette recherche. Un livre essentiel parce que de bout en bout existentiel.
