Psyche Subversion:

Psyche Subversion Andromeda Press,1992-11 **Anthological Morphologies** John O'Loughlin,2022-03-01 With this anthology of his sequentially structured maxims free thinker John O Loughlin has finally arrived at the ne plus ultra of his philosophical oeuvre which combines all the most logically consistent material from the last twelve original titles 2014 2019 in one definitive volume that on account of the comprehensively exacting nature of his quadripartite structures and the way their theorizing evolves must rank as the bible of his philosophy if not of all philosophy of a metaphysical persuasion that yet allows for other categories both atomic and pseudo atomic to be accounted for in such fashion that everything is as it were nailed into place the better to support the overall morphology of unrelenting logic [The Virtuous Circles Quartet](#) John O'Loughlin,2013-02-08 This quartet of aphoristic philosophy continues the author's quest for Social Transcendentalist perfection through texts as diverse as the aforementioned *The Virtuous Circles* which opens the volume *The Struggle for Ultimate Freedom* *Apotheosis of the Gnosis and Eschatology* or *Scatology* the latter of which would suggest a choice between Heaven and in effect Hell though Mr O Loughlin has definite ideological alternatives in mind [The Virtuous Circles](#) John O'Loughlin,2022-06-11 *THE VIRTUOUS CIRCLES* is all about involuntal sensibility as a male led factor appertaining to both physics and especially metaphysics where virtue as shorthand for gender fidelity or sync is most perfect *The Russian Understanding of War* Oscar Jonsson,2019-11-01 This book analyzes the evolution of Russian military thought and how Russia's current thinking about war is reflected in recent crises While other books describe current Russian practice Oscar Jonsson provides the long view to show how Russian military strategic thinking has developed from the Bolshevik Revolution to the present He closely examines Russian primary sources including security doctrines and the writings and statements of Russian military theorists and political elites What Jonsson reveals is that Russia's conception of the very nature of war is now changing as Russian elites see information warfare and political subversion as the most important ways to conduct contemporary war Since information warfare and political subversion are below the traditional threshold of armed violence this has blurred the boundaries between war and peace Jonsson also finds that Russian leaders have particularly since 2011 12 considered themselves to be at war with the United States and its allies albeit with non violent means This book provides much needed context and analysis to be able to understand recent Russian interventions in Crimea and eastern Ukraine how to deter Russia on the eastern borders of NATO and how the West must also learn to avoid inadvertent escalation

Topography of the Psyche Edmar Camara,2025-07-09 *The Architecture of the Psyche* A Treatise on the Engineering of Narrative Before us is not merely a book about writing but a profound and systematic investigation into the architecture of consciousness in narrative form edii Camara's work is in essence a treatise that positions the character's psyche with its tensions valences mutations and fields of action as the irreducible engine of all meaningful fiction In 101 concise and dense chapters the author carries out a veritable dissection of the literary craft offering not just a manual but a philosophical

manifesto on how plot character and reader coexist in a dialectical dance of meaning For the student and the academic this work proves to be an extraordinary theoretical and interdisciplinary framework Camara establishes a profound and original dialog between Russian Formalism Shklovsky Propp Existentialism Kierkegaard Sartre Phenomenology Bachelard Reception Theory Iser Sociology Bourdieu and Psychoanalysis Jung applying these concepts in an innovative way to the practice of creation Each chapter functions as a stand alone paper ideal for discussions in Literary Theory Narratology or Comparative Literature seminars The text doesn't just analyze literature it proposes a method for constructing it making it an invaluable resource for theses and dissertations that seek a bridge between criticism and poetics For the Fictional Writer this book is the most sophisticated conceptual toolbox you could wish for Tired of flat characters and predictable plots Camara offers a system for injecting depth resonance and a sense of inevitability into your narrative Forget the clichés of writing workshops here you'll learn how to master the economy of tension calibrate the valence of a scene and orchestrate the dielike shift that turns a good story into an unforgettable one With practical references to his own works the author not only theorizes but demonstrates how his concepts work in practice transforming abstractions into applicable techniques for building conflicts deepening the psychology of characters and crucially captivating the reader's intelligence and emotion For the Academic Manager and the Professor the book represents an opportunity for pedagogical innovation In a scenario where creative writing and humanities courses are looking for a competitive edge edii Camara's treatise offers a ready made curriculum for cutting edge training It transcends the dichotomy between traditional literary analysis and formulaic writing manuals proposing a third way the development of a narrative intelligence that is both analytical and creative Adopting this work as a central bibliography means positioning a department or university at the forefront of thinking about the art of storytelling training not only critical readers but also creators who are aware of the complexity of their craft In short edii Camara's work is an invitation to descend into the engine room of fiction It is a challenging and illuminating text that treats literature with the seriousness of a science and the passion of an art It is aimed at those who are not content with just consuming stories but who feel the urge to understand and perhaps master the invisible forces that give life power and transcendence to the act of narrating

Instru-mental John O'Loughlin, 2022-04-08 Following on from John O Loughlin's previous title *So There* this work also takes the form of a mixture of aphorisms and maxims or brief discursive observations on a variety of subjects of interest or concern to the author coupled to numbered sequences of systematically structured conclusions about salient aspects of the overall philosophy which in this book succeed those parts one and three specifically given to the aphoristic material as though to sum up or clarify on a more philosophically intensive basis what had been more discursively observed Of course there is more to it than that and the author would be lying if he didn't also add that this title both refines upon and extends beyond some of the observations and conclusions of the previous one thereby in a sense bringing this phase of his philosophy to what he holds to be an ideological peak beyond which he has no intention of going since little or no progress

could so far as he is concerned be made short of one s adopting the philosophical equivalent of wings and flying off into space Therefore Mr O Loughlin believes he has reached if not the end then almost certainly the highest summit so far of his intellectual journey summing up in a nutshell what it has taken him the best part of four decades to arrive at experience coupled to observation leading to truly conclusive results the credibility of which it would be difficult if not impossible to logically deny A Centretruths Editorial **KEYS TO THE KINGDOM OF TRUTH** John O'Loughlin,2022-04-13 A deeply philosophical project which explores the varying relationships between atoms and pseudo atoms from opposite class and gender standpoints and with a view to exposing the extents to which any given atomic and or pseudo atomic position can be subverted from contrary class and gender positions depending on which class or gender is calling the shots in any given age This is simply the apotheosis of this author s quest for philosophical perfection beyond which it would be virtually impossible to go which is why this is not only John O Loughlin s best book but his last one too A Centretruths Editorial Returning To The Essential: Selected Wri Jean Bies,2010-08-01 This is the first presentation to the English speaking world of the writings of Jean Bi s one of the great poets of our time whose work also constitutes a compelling critique of the de sacralization of the modern world Recipient of the prestigious High Prize of the Society of French Poets and Chevalier of the French Legion of Honor Bi s introduces the contemporary reader to the treasury of metaphysical esoteric and spiritual teaching from diverse sacred sources and his writings never fail to blend meaning and beauty His words are rooted in the inexhaustible ground of the Perennial Philosophy the language of the Essential to which this book invites us to return Meeting Jean Bies on this ground will inspire readers who are moved by the sacred **ALPHA AND OMEGA** John O'Loughlin,2022-02-25 ALPHA AND OMEGA Diabolic Beginning and Divine End is divided into four parts each of which investigates a variety of subjects having either alpha or omega connotations from a Social Transcendentalist standpoint with a view to advancing this ideological philosophy through several spiralling cycles towards enhanced metaphysical knowledge which is truth *Theory of Racelessness* Sheena Michele Mason,2022-05-27 This book presents a skeptical eliminativist philosophy of race and the theory of racelessness a methodological and pedagogical framework for analyzing race and racism It explores the history of skeptical eliminativism and constructionist eliminativism within the history of African American philosophy and literary studies and its consistent connection with movements for civil rights Sheena M Mason considers how current anti racist efforts reflect naturalist conservationist and constructionist reconstructionist philosophies of race that prevent more people from fully confronting the problem of racism not race thereby enabling racism to persist She then offers a three part solution for how scholars and people aspiring toward anti racism can avoid unintentionally upholding racism using literary studies as a case study to show how race often translates into racism itself The theory of racelessness helps more people undo racism by undoing the belief in race **Code Name Blackbird** Pasquale De Marco, Embark on a captivating exploration of the clandestine world of espionage where shadows dance and secrets whisper Delve into the intricate tapestry of covert
