The Destinies of Individuals and of Nations Rudolf Steiner, 1900-05 Steiner started each of these lectures given during the war years with a verse for those who had died He begins this volume with a consideration of the destinies of nations from a spiritual point of view He goes on to consider the Christ Impulse and the Michaelic Spirits that serve him Also included are lectures on the three stages of imaginative knowledge the rhythm of sleeping and waking the relation between our physical and etheric bodies and the prophetic nature of dreams The last lecture takes up the question of the cosmic meaning of our sense impressions and of our thinking feeling and willing Awakeing to Community Rudolf Steiner, 1975-04 Rudolf Steiner presented these lectures right after the fire that destroyed the first Goetheanum Given during the year before the Anthroposophical Society was reestablished they form an important part of the history of the anthroposophic movement Steiner calls for a searching of conscience He explains that in anthroposophic communities we can experience our first awakening to the spirit in our encounters with others and he describes how the reversed cultus forms the foundation for a new community life Translated from shorthand reports unrevised by the lecturer from the German edition titled *Anthroposophische Gemeinschaftsbildung GA 257* *Toward Imagination* Rudolf Steiner, 1990 Given in 1916 when Europe was in the throes of World War I these seven lectures present Rudolf Steiner's trenchant analysis of the malaise of our time With wit and compassion he vividly confronts us with the dead end to which materialism has brought modern civilization Starting with a new look at the festival of Pentecost Steiner shows how the chaos of his time and ours can be transcended by a shift or transformation of consciousness Ranging over a wide variety of topics he moves from a description of balance in life to a discussion of the twelve senses and their relationship to the cosmos psychology and art In the process he reveals the central importance of the development of Imagination Contents 1 The Immortality of the I 2 Blood and Nerves 3 The Twelve Human Senses 4 The Human Organism through the Incarnations 5 Balance in Life 6 The Feeling for Truth 7 Toward Imagination **The Spiritual Guidance of the Individual and Humanity** Rudolf Steiner, 1992-04 The spirit is very near Only turn ask and listen When her first book of guidance *Turning* was published anonymously in 1994 many readers responded gratefully to its message It quickly became one of those secret books of consolation that is passed from heart to heart In *Becoming* a treasury of meditations received in the soul Claire Blatchford leads us more deeply into a way of spiritual trust and confidence and will be a further source of growth and renewal for many in times of need *Becoming* is a wonderful gift for yourself or for a friend in need of inspiration and courage in life Youth and the Etheric Heart Rudolf Steiner, 2007-12 Who were the three wise men and what was the Star of the Magi that led them to Bethlehem Using the dialogue form Christian Hermetic Astrology explores these questions and the basis for the inauguration of Star Wisdom Set in the Temple of the Sun where Hermes the Egyptian sage gathers with his three pupils Tat Asclepius and King Ammon these

discourses focus upon the path of Christ culminating in the Mystery of Golgotha With Rudolf Steiner and Anne Catherine Emmerich pointing the way Robert Powell has produced a book through independent research and careful study intended as a contribution to a modern path of the magi leading to a Christian wisdom of the stars **Theosophy** Rudolf Steiner,1996-09 **Rudolf Steiner** Roy Wilkinson, **A Way of Self-Knowledge** Rudolf Steiner,1999-05 Ever since her early days at the Findhorn Community in Scotland Dorothy Maclean has been helping people attune to nature and connect with their inner divinity Now in Choices of Love she discusses the nature of divine love and how each of us can avail ourselves of its power to enrich any aspect of our lives The immensity of divine love how to contact it the nature of the Divine blocks to understanding the nature of good and evil and the angelic world of nature and of human groupings such as cities states and nations are among the topics Dorothy Maclean addresses Choices of Love will leave you with a clearer understanding of yourself and of the universal love in which we all participate *The Aims of Anthroposophy* Rudolf Steiner,2020-06-04 In his final lectures to the general public Rudolf Steiner speaks with great clarity and purpose about the inner and outer necessity of the anthroposophical impulse in modern times Following the fire that destroyed the first Goetheanum building in Dornach Switzerland Steiner had focused his efforts on rebuilding and reorganizing the Anthroposophical Society But he also continued to travel and speak to the public in Prague Vienna and Basel to explain the purpose of the Goetheanum and to elucidate the broader aims of his spiritual work These lectures including a semi public series in Dornach are gathered here and published in English for the first time together with an introduction notes and index The volume features the following lectures The Purpose of the Goetheanum and the Aims of Anthroposophy Enhancing Human Powers of Perception to Develop Imagination Inspiration and Intuition Human Soul Life and the Development of Imagination Inspiration and Intuition Experience and Perception of the Activities of Thinking and Speech The Physical World and Moral Spiritual Impulses Four Stages of Inner Experience Perceiving the Etheric World Soul s Eternity in the Light of Anthroposophy Human Development and Education in the Light of Anthroposophy Supersensible Perception Anthroposophy as a Contemporary Need Anthroposophy and the Ethical and Religious Life How Do We Gain Knowledge of the Supersensible World [Anthroposophy in Everyday Life](#) Rudolf Steiner,1995 Four of Rudolf Steiner s best loved lectures are collected in this book They are some of the most accessible presentations of the anthroposophic approach to life available in English Included are Practical Training in Thought Overcoming Nervousness Facing Karma The Four Temperaments The first lecture concerns the fundamental human activity of thinking Everything we do we do through thinking The first task then is to realize the reality of thinking To help us do this Steiner gives exercises that will allow us to experience the cognitive even clairvoyant power of thinking In Overcoming Nervousness Steiner shows us how exercises in thinking also give us the calm centered sense needed to lead purposeful healthy lives Facing Karma takes us to the heart of life where we experience suffering and happiness The law of karma that determines life s experiences and encounters also helps us develop the self

knowledge required for self transformation Finally The Four Temperaments show us how the union of hereditary factors and our own inner spiritual nature shape our psychology The guide here is the ancient classifications of sanguine choleric phlegmatic and melancholic Renewed understanding of these allows us to develop a truly modern spiritual psychology which is the basis of all real inner development With its many practical exercises mantras and meditations this book is a fundamental introduction for anyone beginning or needing encouragement along the path of inner development

Earthly Knowledge and Heavenly Wisdom Rudolf Steiner, 1990-06 9 lectures Dornach February 1923 CW 221 There is a great difference between the meaning of know yourself in the ancient mystery centers and its meaning today In ancient times one tried to achieve after death what one can now attain during earthly life In order to reach higher stages of development after we die we must become fully human during life on Earth Such matters have changed over millennia of human and earthly evolution At the center of the evolution human consciousness is the Christ event Today we must experience the Christ within ourselves as light life and love By adopting the appropriate path of knowledge we can become citizens of the universe rather than hermits on the Earth These lectures are crucial reading for a deeper understanding of the anthroposophic view of our place as human beings in the cosmos This volume is a translation of Erdenwissen und Himmelerkenntnis GA 221

A Life for the Spirit Henry Barnes, 1997 Whether or not Steiner's insights are valid is for each of us to determine His work is not easy and he challenges our usual thinking every step of the way The insights are radical in the original meaning of that word they go to the roots We are forced more and more to realize that only through such thinking can actions arise that are truly healing and constructive Henry Barnes from the introduction Few people today recognize Rudolf Steiner's name yet those who are aware of him know that his presence pervades every forward looking aspect of contemporary life Nearly all fields of life have been fructified by his insights not abstractly or theoretically but in a concrete way that changes lives No wonder then that Steiner has been called the best kept secret of the twentieth century Born in 1861 in Kraljvec Austria Steiner showed evidence early on of the most varied gifts a precise and probing scientific mind combined with a natural clairvoyant ability to see into the spiritual world a determined need to think things through for himself and a profound reverence for the divine He first made his mark as a philosopher and the editor of Goethe's scientific writings He also recognized the revolutionary spirit in Nietzsche But Steiner's destiny led him in a different direction Profound cognitive experiences determined that his task would lie in service to the spirit While recognizing the integrity of modern science's phenomenological empiricism he also knew that the time had come to extend the field of science to include investigation of the supersensible Working at first within the Theosophical Society but always speaking and writing out of his own experience Steiner developed the foundations for a thoroughly modern spiritual scientific discipline that would transform spiritual and cultural life Until his death in 1925 in countless lectures and books Steiner created the body of knowledge and practice known as anthroposophy which not only challenged and extended the underlying methods of modern knowledge but

stimulated many practical cultural initiatives such as Waldorf education biodynamic agriculture the art of eurythmy the movement for a threefold social order and anthroposophical medicine Henry Barnes the author of *Into the Heart's Land* A Century of Rudolf Steiner's Work in North America recounts the dynamic life of this remarkable man He does so by placing Steiner in the crosscurrents of history and showing him not as a spectator or ivory tower philosopher but as a leading actor in the drama one whose entire being was given in service to humanity and to the spirit Contents Foreword by Robert McDermott Introduction In Search of a New Thinking The Twentieth Century Battleground for Human Individuality Child of Middle Europe Biographical Foundations The Weimar Years Nietzsche Steiner and the Redemption of Thinking The Years of Inner Testing Berlin The Work Unfolds The Building Rises Insight Becomes Life The Threefold Movement for Social Reform The First Waldorf School and the Independence of Education The Healing Arts Religious Renewal Out of Fire Renewal from Within The Christmas Foundation Months of Grace Afterword The Battle Continues What Can I Do

S REVIEW OF THIS BOOK The Tension Between East and West Rudolf Steiner, 1983-07 10 lectures Vienna June 1 11 1922 CW 83 This challenging set of lectures attempts to lift the veil from modern social and spiritual problems as experienced in the contrasts between East and West By ascribing to human thinking only a shadowy subjective validity modern science tries to invalidate the very faculty that gives us our human dignity At the same time however this unreality of thought images makes possible an inner freedom that scientific doctrine tends to deny in principle The need arises from these contradictions to extend the limits of ordinary scientific thinking to new investigative faculties In part one Anthroposophy and the Sciences Rudolf Steiner explains that this can be achieved in a healthy way through two kinds of meditative exercises very different in character from yoga and asceticism and other older paths to higher knowledge These disciplines lead to the discovery of a paradoxical truth If you would know yourself look into the world If you would know the world look into your self The spiritual scientific philosophy thus presented provides a framework within which the second half of the book Anthroposophy and Sociology considers how a healthy social life can be understood and shaped Today the old social instincts of humanity have grown uncertain and the rational intellect is proving unsuited to comprehend and foster a

humane social life While admitting that we are only beginning to discover the right relationship between individual and community Steiner describes how a conscious spiritual life is able to give the same social certainties as did the earlier instinctive life He then explains how we might find a way from our highly developed sense of personal self into the worldwide social organism This volume is a translation of Westliche und stliche Weltgegens tzlichkeit Wege zu ihre Verst ndigung durch Anthroposophie

The Philosophy of Spiritual Activity Rudolf Steiner,1980 *Rudolf Steiner* Roy Wilkinson,2001 In many ways Rudolf Steiner is the forgotten genius of recent times A powerful thinker who developed an intricate spiritual philosophy based on his ability to research and perceive spiritual dimensions Steiner is perhaps best known today for his legacy to education medicine and agriculture But behind these practical manifestations of his ideas lies a profound teaching which he termed a science of spirit or anthroposophy In these wonderfully succinct summaries of Steiner s thought Roy Wilkinson introduces us to aspects of this spiritual philosophy The twelve chapters discuss Rudolf Steiner herald of a new age reincarnation and karma The spiritual nature of the human being The development of human consciousness World and human evolution Relationships between the living and the dead Forces of evil A modern path of initiation Life between death and rebirth The spiritual hierarchies Philosophical approach to the spirit The Christ s mission Illustrated Wonders Of The World Rudolf Steiner,2020-11-16 From the contents of original Greek drama and the soul drama of the present day that leads to self knowledge Rudolf Steiner develops his thought processes pulsating with lively contemplation about wonders of the world trials of the soul and revelations of the spirit Marie Steiner In this remarkable interpretation of Greek mythology Rudolf Steiner goes beyond Carl Jung and Joseph Campbell in reading mythological figures such as Demeter Persephone Eros and Dionysos as primordial archetypes of macrocosmic thinking feeling and will Moreover he explains in detail how this archetypal consciousness was gradually lost giving way to new found subjective experience of these faculties which in turn opens up possibilities for human freedom His overarching theme of the evolution of consciousness is grand in its sweep but Steiner also shows himself to be the master of telling details Lectures include The origin of dramatic art in European cultural life and the Mystery of Eleusis The living reality of the spiritual world in Greek mythology and the threefold Hecate Nature and spirit The entry of the Christ Impulse into human evolution and the activity of the planetary gods The merging of the ancient Hebrew and the Greek currents in the Christ stream The ego nature and the human form The Dionysian Mysteries Eagle Bull and Lion currents Sphinx and Dove The two poles of all soul ordeals and On Goethe s birthday The freshly revised text features an introduction notes and appendices by Professor Frederick Amrine colour images and an index

Rudolf Steiner, Life and Work Peter Selg,2018 Try to become one with the world that will be the best and most important program It is something that cannot be contained in statutes but needs to burn in our hearts as a flame Rudolf Steiner In 1923 Central Europe was still in disarray and social chaos created by the polarizing events of World War I In volume 6 of his seven volume biography of Rudolf Steiner Peter Selg focuses on one of the most tragic years for the anthroposophical movement including

especially the rise of nationalism and the seeds of hatred spawned by Adolf Hitler and his followers The very beginning of that pivotal year began with the destruction of the nearly finished Goetheanum building in Dornach Switzerland delivering a heavy blow to the Anthroposophical Society and to Rudolf Steiner both spiritually and on a personal level It was evident that the fire had been caused by arson and Steiner immediately expressed determination to rebuild and move forward despite the friction in the Anthroposophical Society and the movement as a whole Steiner noted It will not be viable if things continue as before suggesting that the Society needed to be suffused with the will to wake up because then it can inspire an awakening of the present civilization as a whole He devoted the remainder of 1923 indeed his life to that cause You can rest assured that whatever may happen I for one will never be induced to stray from my path As long as I live I shall continue to represent my cause as I have done so far I hope that we will not be held back by any disruptions but that we will be able to work together here as we have done before this will at least be my endeavor Whatever happens it is my belief that we need to rebuild in some form and everything that needs to be done to achieve this will be done It is important to continue what we have begun It is simply an inner obligation Rudolf Steiner to the workers at the Goetheanum January 1 1923 Rudolf Steiner Life and Work Seven Volumes Vol 1 1861 1890 Childhood Youth and Study Years ISBN 9781621480822 Pbk ISBN 9781621480839 Hbk Vol 2 1890 1900 Weimar and Berlin ISBN 9781621480853 Pbk ISBN 9781621480860 Hbk Vol 3 1900 1914 Spiritual Science and Spiritual Community ISBN 9781621480884 Pbk ISBN 9781621480891 Hbk Vol 4 1914 1918 The Years of World War I ISBN 9781621481577 Pbk ISBN 9781621481584 Hbk Vol 5 1919 1922 Social Threefolding and the Waldorf School ISBN 9781621481935 Pbk ISBN 9781621481942 Hbk Vol 6 1923 The Burning of the Goetheanum ISBN 9781621482192 Pbk ISBN 9781621482208 Hbk Vol 7 1924 1925 The Anthroposophical Society and the School for Spiritual Science ISBN 9781621482321 Pbk ISBN 9781621482338 Hbk
