Cope,2007-05-29 For modern spiritual seekers and yoga students alike here is an irreverent yet profound guide to the most sophisticated teachings of the yoga wisdom tradition now brought to contemporary life by a celebrated author psychotherapist and leading American yoga instructor While many Westerners still think of yoga as an invigorating series of postures and breathing exercises these physical practices are only part of a vast and ancient spiritual science For more than three millennia yoga sages systematically explored the essential questions of our human existence What are the root causes of suffering and how can we achieve freedom and happiness What would it be like to function at the maximum potential of our minds bodies and spirits What is an optimal human life Nowhere have their discoveries been more brilliantly distilled than in a short but famously difficult treatise called the Yogasutra This revered text lays out the entire path of inner development in remarkable detail ranging from practices that build character and mental power to the highest reaches of spiritual realization Now Stephen Cope unlocks the teachings of the Yogasutra by showing them at work in the lives of a group of friends and fellow yoga students who are confronting the full modern catastrophe of careers relationships and dysfunctional family dynamics Interweaving their daily dilemmas with insights from modern psychology neuroscience religion and philosophy he shows the astonishing relevance and practicality of this timeless psychology of awakening Leavened with wit and passion *The Wisdom of Yoga* is a superb companion and guide for anyone seeking enhanced creativity better relationships and a more ethical and graceful way of living in the world *Making It So* Patrick Stewart,2023-10-03 THE NEW YORK TIMES AND USA TODAY BESTSELLER The renowned and bestselling memoir written with insight truth and passion Sir Ian McKellen from iconic beloved actor and living legend Sir Patrick Stewart From his acclaimed stage triumphs to his legendary onscreen work Sir Patrick Stewart has captivated audiences around the world and across multiple generations in a career spanning six decades with his indelible command of stage and screen No other British working actor enjoys such career variety universal respect and unending popularity as witnessed through his seminal roles whether as Captain Jean Luc Picard of Star Trek fame Professor Charles Xavier of Marvel s X Men hit movie franchise his more than forty years as part of the Royal Shakespeare Company his unforgettable one man show adapted from Charles Dickens s A Christmas Carol or his comedic work in American Dad Ted Extras and Blunt Talk among many others Now he presents his stunning memoir a revealing portrait of a driven artist whose astonishing life from his humble beginnings in Yorkshire England to the heights of Hollywood and worldwide acclaim proves a story as exuberant definitive and enduring as the author himself **American Veda** Philip Goldberg,2013-05-14 A fascinating look at India s remarkable impact on Western culture this eye opening popular history shows how the ancient philosophy of Vedanta and the mind body methods of Yoga have profoundly affected the worldview of millions of Americans and radically altered the religious landscape What exploded in the 1960s following the Beatles trip to India for an extended stay with their new guru Maharishi Mahesh Yogi actually began more than two hundred years earlier when the United States started importing knowledge as well as tangy spices and

colorful fabrics from Asia The first translations of Hindu texts found their way into the libraries of John Adams and Ralph Waldo Emerson From there the ideas spread to Henry David Thoreau Walt Whitman and succeeding generations of receptive Americans who absorbed India s science of consciousness and wove it into the fabric of their lives Charismatic teachers like Swami Vivekananda and Paramahansa Yogananda came west in waves prompting leading intellectuals artists and scientists such as Aldous Huxley Joseph Campbell Allen Ginsberg J D Salinger John Coltrane Dean Ornish and Richard Alpert aka Ram Dass to adapt and disseminate what they learned from them The impact has been enormous enlarging our current understanding of the mind and body and dramatically changing how we view ourselves and our place in the cosmos Goldberg paints a compelling picture of this remarkable East to West transmission showing how it accelerated through the decades and eventually moved from the counterculture into our laboratories libraries and living rooms Now physicians and therapists routinely recommend meditation words like karma and mantra are part of our everyday vocabulary and Yoga studios are as ubiquitous as Starbucks The insights of India s sages permeate so much of what we think believe and do that they have redefined the meaning of life for millions of Americans and continue to do so every day Rich in detail and expansive in scope American Veda shows how we have come to accept and live by the central teaching of Vedic wisdom Truth is one the wise call it by many names
