beyond the box office hits of Disney and DreamWorks, this guide to every animated movie ever released in the United States covers more than 300 films over the course of nearly 80 years of film history. Well-known films such as *Finding Nemo* and *Shrek* are profiled, and hundreds of other films, many of them rarely discussed, are analyzed, compared, and catalogued. The origin of the genre and what it takes to make a great animated feature are discussed, and the influence of Japanese animation, computer graphics, and stop-motion puppet techniques are brought into perspective. Every film analysis includes reviews, four-star ratings, background information, plot synopses, accurate running times, consumer tips, and MPAA ratings. Brief guides to made-for-TV movies, direct-to-video releases, foreign films that were never theatrically released in the U.S., and live-action films with significant animation round out the volume. *TV Guide* Stephen F. Hofer,2006 This book looks at the origins and growth of television through the pages of *TV Guide* and covers the complete run of this American icon from the first guides in 1953 to the last issue in guide format on October 9, 2005. It includes full-color reproductions of every cover ever printed and is both a collector's guide with pricing included and a retrospective view of the medium. **Bowker's Complete Video**
