Dalko: The Untold Story of Baseball's Fastest Pitcher Bill A. Dembski, Alex Thomas, Brian Vikander, 2020-10-27 Gripping and tragic Dalko is the definitive story of Steve White Lightning Dalkowski baseball's fastest pitcher ever Dalko explores one man's unmatched talent on the mound and the forces that kept ultimate greatness always just beyond his reach For the first time Dalko The Untold Story of Baseball's Fastest Pitcher unites all of the eyewitness accounts from the coaches analysts teammates and professionals who witnessed the game's fastest pitcher in action In doing so it puts readers on the fields and at the plate to hear the buzzing fastball of a pitcher fighting to achieve his major league ambitions Just three days after his high school graduation in 1957 Steve Dalkowski signed into the Baltimore Orioles system Poised for greatness he might have risen to be one of the stars in the Baseball Hall of Fame Instead he spent his entire career toiling away in the minor leagues An inspiration for the character Nuke LaLoosh in the classic baseball film Bull Durham Dalko's life and story were as fast and wild as the pitches he threw The late Orioles manager Earl Weaver who saw baseball greats Nolan Ryan and Sandy Koufax pitch said Dalko threw harder than all of em Cal Ripken Sr Dalkowski's catcher for several years said the same Bull Durham screenwriter Ron Shelton who played with Dalkowski in the minor leagues said They called him Dalko and guys liked to hang with him and women wanted to take care of him and if he walked in a room in those days he was probably drunk This force on the field that could break chicken wire backstops and wooden fences with his heat but racked up almost as many walks as strikeouts in his career spent years of drinking all night and showing up on the field the next day just in time to show his wild heat again What the Washington Post called baseball's greatest what If story is one of a superhuman once in a generation gift a near mythical talent that refused to be tamed Steve Dalkowski will forever be remembered for his remarkable arm Said Shelton In his sport he had the equivalent of Michaelangelo's gift but could never finish a painting Dalko is the story of the fastest pitching that baseball has ever seen an explosive but uncontrolled arm

"Curious, if True" Amy Bright, 2012-11-30 The fantastic has occupied the literary imagination of readers and scholars across historical theoretical

and cultural contexts Representations of the fantastic in literature rely on formal and generic types tropes and archetypes to mediate between depictions of fantasy and reality Present in myth and folklore the gothic and neo gothic and contemporary and mainstream fantasy the fantastic reach stretches into many conceptions of literature over time Curious if True The Fantastic in Literature presents recent articles by graduate students on the fantastic and makes connections across category genre and historical periods Fantasy is used as an organizing topic a genre that has always allowed for a broad interpretation of its meaning From magic realism to high fantasy sci fi to the Gothic this collection furthers the reach of fantasy in the study of English literature The authors value tradition in their reading and their writing but are not afraid to reach across genre borders to show their understanding of the fantastical in literature The ideas presented span years and literary periods texts and genres and show the undeniable value of interdisciplinary study to expand perspectives in the field of English

Culture in Mind Bradd Shore, 1998-10-29 Despite the recognized importance of cultural diversity in understanding the modern world the emerging science of cognitive psychology has relied far more on experimental psychology neurobiology and computer science than on cultural anthropology for its models of how we think In this exciting new book anthropologist Bradd Shore has created the first study linking multi culturalism to cognitive psychology exploring the complex relationship between culture in public institutions and in mental representations In so doing he answers in a completely new way the age old question of whether humans are basically the same psychologically independent of cultures or basically diverse because of cultural differences The first half of the book emphasizes cultural models from Australian Aboriginal rituals and Samoan comedy skits to more familiar terrain including a study of baseball as a cultural model for Americans Along the way the author sheds new and

novel light on many familiar institutions from educational curricula and shopping malls to modular furniture and cyberpunk fiction These observations are then linked to theoretical developments in linguistics semiotics and neuroscience creating a bold new approach to understanding the role of culture in everyday meaning making The author argues that culture must be considered an intrinsic component of the human mind to a degree that most psychologists and even many anthropologists have not recognized This new position of cultural models will make absorbing reading for psychologists anthropologists linguists and philosophers and to anyone interested in the issues of cultural diversity multiculturalism or cognitive science in general
