A Comparative Law Perspective** Grzegorz Blicharz, 2019 *Freedom of Religion A Comparative Law Perspective* consists of five chapters looking at freedom of religion particularly the display of religious symbols in Poland Italy Hungary and the United States It provides a concise and very insightful look into the legal regimes of

four nations allowing reader to get a solid comparative view of public religious displays in these countries Each chapter has sufficient depth and overall this edited volume will be a useful resource to scholars and jurists in this area Dr James C Phillips Stanford University's Constitutional Law Center The presented volume leads to an in depth reflection on the issue of the display of religious symbols in the public sphere which is widely discussed today Most of the articles prove that secularism of the contemporary state ruled by law targets Christian symbolism cross cradle the Decalogue Christian religious symbols shall always be inscribed in the temporal order otherwise they have no chance to be displayed in the public sphere In this way the rights of Catholic believers as one of the dominant religious groups are restricted in the name of the protection of religious and areligious minorities As a result the aim is to bring about the actual equality of all religions and ultimately the final removal of the Christian tradition from Western culture Against this background Polish as well as Hungarian and Italian judicial decisions present a different approach which as the authors of the volume prove presents a position in favour of the presence of religious symbolism in the public sphere The multifaceted evaluation of the inconsistency casuistry and nuance of the jurisprudence of the US Supreme Court is extremely creative and interesting It allows to conclude that the jurisprudence of the US Supreme Court which usually limits the presence of religious symbols in the public forum has not yet become universally binding The pluralism of philosophical and religious attitudes still constitutes the axiological core of American democracy Prof dr hab Andrzej Dziadzio Jagiellonian University in Krak w

**Freedom of Speech A Comparative Law Perspective** Grzegorz Blicharz, 2019 Freedom of Speech A Comparative Law Perspective offers a wide ranging review of free speech law in Europe the U S Canada and Australia with a special focus on hate speech and on artistic and scientific speech It provides a great deal of information on these topics in a single volume which presents a considerable value to anyone who wants to study the subject prof Christopher Wolfe University of Dallas The book is disturbing It encourages to pose serious questions in particular about the phenomenon of the persecution for expressing traditional views which ceased to be accepted by certain political and intellectual elites It presents the context which allows us to realize how difficult it is to address such issues Nevertheless searching for the answers seems absolutely necessary The analyses of the US law could be considered a universal parable about the awareness of free speech The analyses of the law in other countries warn us how fragile the protection of freedom of expression is prof Franciszek Longchamps de Brier Jagiellonian University in Krak w The volume focuses on an important and complex theoretical question of practical value which is inscribed in the debate on the limits of freedom of speech It is a collection of independent studies with a clearly presented central idea Written by the authors representing not only different academic institutions and countries but even different legal cultures Such a choice of authors offers a variety of presented evaluations which testifies to the richness of content included in the book and is an invitation to further studies and analyses prof Wojciech Lis John Paul II Catholic University of Lublin

**German Administrative Law in Common Law Perspective** Mahendra P. Singh, 2001-08-30 The volume is a thoroughly revised

edition of the author's book on German Administrative Law which was first published in 1985. From the perspective of a common law jurisdiction, the author presents the basic framework of German administrative law along the lines administrative law is understood in the English speaking world. It covers all the essential elements of German administrative law. It is updated to include the latest developments and the impact of EC law in different spheres. *Defects of Consent in Consumer E-Commerce from the Polish Law Perspective* Katarzyna Południak-Gierz, 2021-10-11. The regulation on defects of consent loses its usefulness and should be replaced by special regulations more suited to the requirements of consumer e-commerce. The study's main objective is to verify whether due to the evolution of the concept of the declaration of intent, the emergence of non-individual consumer protection instruments and technological developments, the code regulation of defects in the declaration of will remains useful in the case of contracts concluded by consumers on the Internet. The impact of the development of the Internet environment on the applicability and effectiveness of this traditional private institution is analyzed. Mechanisms that in practice displace the regulation of vice of consent are indicated. *The Principles of Architectural Perspective* George Alexander Thomas Middleton, 1919. *Legal and Ethical Challenges of Artificial Intelligence from an International Law Perspective* Themistoklis Tzimas, 2021-07-30. This book focuses on the legal regulation mainly from an international law perspective of autonomous artificial intelligence systems of their creations as well as of the interaction of human and artificial intelligence. It examines critical questions regarding both the ontology of autonomous AI systems and the legal implications: what constitutes an autonomous AI system and what are its unique characteristics? How do they interact with humans? What would be the implications of combined artificial and human intelligence? It also explores potentially the most important questions: what are the implications of these developments for collective security from both a state-centered and a human perspective as well as for legal systems? Why is international law better positioned to make such determinations and to create a universal framework for this new type of legal personality? How can the matrix of obligations and rights of this new legal personality be construed and what would be the repercussions for the international community? In order to address these questions, the book discusses cognitive aspects embedded in the framework of law, offering insights based on both *de lege lata* and *de lege ferenda* perspectives. **Scene Painting and Bulletin Art** Frank H. Atkinson, 1916. An easy Course of Perspective, preparatory to freehand drawing and sketching from nature. For the use of schools J. I. KIDDLE, 1872. **Wisconsin Journal of Education**, 1876. *The Amazon from an International Law Perspective* Beatriz Garcia, 2011-02-21. With a vast river network and rainforests extending over eight South American countries, the Amazon plays a vital role, particularly in maintaining biodiversity and terrestrial carbon storage. Due to its ecological characteristics, the Amazon benefits not only those countries but also the international community at large. However, the Amazon forests are being rapidly cleared with a consequent loss of biodiversity and impact on global climate. This book examines whether international law has an impact on the preservation of the Amazon by inquiring into the forms of

cooperation that exist among the Amazon countries and between them and the international community and to what extent international cooperation can help protect the Amazon Given the role of this region in maintaining the balance of the global environment the book examines whether the Amazon should be granted a special legal status and possible implications in terms of international cooperation     Map Reading and Military Sketching Paul Stanley Bond, Thomas Leroy McMurray, Edwin Hunter Crouch, 1923     **Journal of the American Institute of Architects** , 1921
