Cat Culture Janet Alger, Steven Alger, 2011-02-07 Even people who live with cats and have good reason to know better insist that cats are aloof and uninterested in relating to humans Janet and Steven Alger contend that the anti social cat is a myth cats form close bonds with humans and with each other In the potentially chaotic environment of a shelter that houses dozens of uncaged cats they reveal a sense of self and build a culture a shared set of rules roles and expectations that organizes their world and assimilates newcomers As volunteers in a local cat shelter for eleven years the Algers came to realize that despite the frequency of new arrivals and adoptions the social world of the shelter remained quite stable and pacific They saw even feral cats adapt to interaction with humans and develop friendships with other cats They saw

established residents take roles as welcomers and rules enforcers That is they saw cats taking an active interest in maintaining a community in which they could live together and satisfy their individual needs Cat Culture s intimate portrait of life in the shelter its engaging stories and its interpretations of behavior will appeal to general readers as well as academics interested in human and animal interaction

Legal Fictions in Private Law Liron Shmilovits, 2022-01-06 Legal fictions are falsehoods that the law knowingly relies on. It is the most bizarre feature of our legal system: we know something is false and we still assume it. But why do we rely on blatant falsehood? What are the implications of doing so? Should we continue to use fictions, and if not, what is the alternative? *Legal Fictions in Private Law* answers these questions in an accessible and engaging manner, looking at the history of fictions, the theory of fictions, and current fictions from a practical perspective. It proposes a solution to what to do about fictions going forward and how to decide whether they should be accepted or rejected. It addresses the latest literature and deals with the law in detail. This book is a comprehensive analysis of legal fictions in private law and a blueprint for reform.
