Worobec, June Pachuta Farris, 2015-03-26 This is the first comprehensive multidisciplinary and multilingual bibliography on Women and Gender in East Central Europe and the Balkans Vol 1 and The Lands of the Former Soviet Union Vol 2 over the past millennium The coverage encompasses the relevant territories of the Russian Hapsburg and Ottoman empires Germany and Greece and the Jewish and Roma diasporas Topics range from legal status and marital customs to economic participation and gender roles plus unparalleled documentation of women writers and artists and autobiographical works of all kinds The volumes include approximately 30 000 bibliographic entries on works published through the end of 2000 as well as web sites and unpublished dissertations Many of the individual entries are annotated with brief descriptions of major works and the tables of contents for collections and anthologies The entries are cross-referenced and each volume includes indexes **Medieval German Voices in the 21st Century**, 2021-11-08 As witnessed by a tremendous upsurge in medieval research academic meetings innovative interpretive approaches enrolment numbers and

public interest Medieval Studies are proving once again to be a vibrant field of investigations both inside and outside of academia Nevertheless there is a tendency among colleagues and administrators in the field of Germanistik German Studies to exclude the earlier period as an exotic and irrelevant subject matter The contributors to this volume all of whom teach at North American universities make a strong case for the paradigmatic function of medieval German literature for the general field of Germanistik and argue that many of the most recent changes in our discipline related to the German Studies paradigm have been foreshadowed by Medieval Studies where interdisciplinarity comparative approaches the consideration of Mentalitätsgeschichte theology history art history even gender studies and the history of everyday life have often constituted the *conditio sine qua non* Some of the authors in this volume argue for the relevance of medieval German literature by investigating concrete cases taken from the Middle Ages others show how modern German literature has been deeply influenced by medieval texts The purpose of this volume is not to privilege medieval literature over modern literature but instead to reclaim the premodern period as an important and relevant field of investigation within contemporary German Studies
