Rural Transport:

Rural Transport Services Henri L. Beenhakker, S. Carapetis, L. Crowther, S. Hertel, 2019-09-05 This book considers the problem of providing maximum access to transport services and to roads for the rural population of the world's developing countries when limited funds are available. Access is a key factor in both social and economic development. It promotes social intercourse and opens up markets for both the rural and urban populations. Access connotes the ability to travel and to transport goods. The components of access include both the infrastructure and the transport modes or aids that use the infrastructure. Crowther, 1985. **The Rural Transport Problem** David St John Thomas, 2021-05-11 Originally published in 1963 this book was the first to survey the rural transport problem as a whole and it includes the results of extensive research in an important but until then neglected field. The issues of increased car ownership and the reduction of train and bus services and the social impact of this is discussed as well the question of subsidies in the UK as a whole. Three area specific studies deal with the Lake District, Northumberland and Devon.

Improving Rural Mobility Paul Starkey, 2002-01-01 Many inhabitants of rural areas in developing countries lack adequate and affordable access to transport infrastructure services and this lack of transport opportunities constrains economic and social development. This report looks at the role of rural transport in reducing poverty and considers a range of issues affecting rural mobility including costs, stakeholders involved, population densities and competing services. It examines policies for promoting rural mobility including financial and regulatory considerations. *RURAL TRANSPORT IN DEVELOPING COUNTRIES.*, 2019. **Handbook on Transport and Urban Transformation in China** Chia-Lin Chen, Haixiao Pan, Qing Shen, James J.
