Rural Vulnerability To Famine In Ethiopia 195877:

People of the Plow James McCann, 1995-07-15 For more than two thousand years Ethiopia's ox plow agricultural system was the most efficient and innovative in Africa but has been afflicted in the recent past by a series of crises famine declining productivity and losses in biodiversity James C McCann analyzes the last two hundred years of agricultural history in Ethiopia to determine whether the ox plow agricultural system has adapted to population growth new crops and the challenges of a modern political economy based in urban centers This agricultural history is set in the context of the larger environmental and landscape history of Ethiopia showing how farmers have integrated crops tools and labor with natural cycles of rainfall and soil fertility as well as with the social vagaries of changing political systems McCann traces characteristic features of Ethiopian farming such as the single tine scratch plow which has retained a remarkably consistent design over two millennia and a crop repertoire that is among the most genetically diverse in the world **People of the Plow** provides detailed documentation of Ethiopian agricultural practices since the early nineteenth century by examining travel narratives early agricultural surveys photographs and engravings modern farming systems research and the testimony of farmers themselves collected during McCann's five years of fieldwork He then traces the ways those practices have evolved in the twentieth century in response to population growth urban markets and the presence of new technologies **Rural**

Vulnerability to Famine in Ethiopia, 1958-77 Mesfin Wolde Mariam, 1986-09 This book sets out to demonstrate that the subsistence production system with the disincentives of oppression and exploitation which keeps peasants and their families permanently at barely subsistence level without any means of averting or coping with the consequences of crop failure is the system that creates famine in time of peace Poverty and Underdevelopment in Tribal Areas Suvendra Jenamani, 2005 This

Book Attempts To Measure The Spatial Incidence Of Poverty In Tribal Areas In India With Special Reference To Kalahandi District Of Orissa Correlating The Physical And Environmental Factors Such As Access To Land Water And Forest With The Incidence Of Poverty It Analyses The Institutional And Social Relation Of Production In Understanding The Persistent Poverty In The Area Prosecution of Politicide in Ethiopia Marshet Tadesse Tessema, 2018-09-26 This book investigates the road

map or the transitional justice mechanisms that the Ethiopian government chose to confront the gross human rights violations perpetrated under the 17 years rule of the Derg the dictatorial regime that controlled state power from 1974 to 1991

Furthermore the author extensively examines the prosecution of politicicide or genocide against political groups in Ethiopia Dealing with the violent conflict massacres repressions and other mass atrocities of the past is necessary not for its own sake but to clear the way for a new beginning In other words ignoring gross human rights violations and attempting to close the chapter on an oppressive dictatorial past by choosing to let bygones be bygones is no longer a viable option when starting on the road to a democratic future For unaddressed atrocities and a sense of injustice would not only continue to haunt a nation but could also ignite similar conflicts in the future So the question is what choices are available to the newly installed

government when confronting the evils of the past There are a wide array of transitional mechanisms to choose from but there is no one size fits all mechanism Of all the transitional justice mechanisms namely truth commissions lustration amnesty prosecution and reparation the Ethiopian government chose prosecution as the main means for dealing with the horrendous crimes committed by the Derg regime One of the formidable challenges for transitioning states in dealing with the crimes of former regimes is an inadequate legal framework by which to criminalize and punish divergent human rights violations With the aim of examining whether or not Ethiopia has confronted this challenge the book assesses Ethiopia's legal framework regarding both crimes under international law and individual criminal responsibility This book will be of great relevance to academics and practitioners in the areas of genocide studies international criminal law and transitional justice Students in the fields of international criminal law transitional justice and human rights will also find relevant information on the national prosecution of politicide in particular and the question of confronting the past in general Marshet Tadesse Tessema is Assistant Professor of the Law School College of Law and Governance at Jimma University in Ethiopia and Postdoctoral Fellow of the South African German Centre University of the Western Cape in South Africa

Understanding Ethiopia's Tigray War Martin Plaut, Sarah Vaughan, 2023-02-16 The war in Ethiopia's northern region of Tigray began in November 2020 It inflicted more casualties than any other contemporary conflict in the world It has also been among the least understood The fighting and accompanying blockade led to an estimated 600 000 deaths more than the number who died in the 1984-5 famine International journalists were banned as the region was sealed off from the outside world by Ethiopian and Eritrean governments prosecuting a strategy designed to crush Tigray at almost any cost Hatred of Tigrayans was stoked by senior advisers to Ethiopia's Prime Minister Abiy Ahmed they have called Tigrayans weeds who must be uprooted their place in history extinguished Their language was reminiscent of that which preceded the genocide in Rwanda The war was also orchestrated by Eritrea's President Isaias Afwerki who came to wield increasing influence over Ethiopian affairs It drew in Somali troops as well as Eritrean forces Peace agreements signed in November 2022 ended the worst of the violence but without resolving the war's underlying drivers which continue to feed a tense and uncertain situation This book provides the first clear explanation of the factors that led to the conflict unravelling their roots in Ethiopia's long and complex history It describes the battles that were fought at such terrible cost and the immense suffering particularly of women who were brutally abused

The Ecology Of Survival Douglas H Johnson, David M Anderson, 2019-06-26 This book is concerned with evaluating the antiquity of the domestication changes in northern Africa considering the nature of the environments in which they arose their social implications and the influence of climatic change on their later progress

Rising From The Ashes Mary Baughman Anderson, Peter J Woodrow, 2019-07-11 This book explores the significant role of grassroots organizations in complementing that of governments and intergovernmental organizations in situations of disaster relief and shows how creative local initiatives can result in the mutual reinforcement of

emergency relief and development programs **A Survey of Agricultural Economics Literature** Lee R. Martin,1992

A Tributary Model of State Formation Berhanu Abegaz,2018-06-09 A Tributary Model of State Formation Ethiopia 1600 2015 addresses the perplexing question of why a pedigreed Ethiopian state failed to transform itself into a nation state Using a comparative institutionalist framework this book explores why Ethiopia an Afroasian civilizational state has yet to build a modern political order comprising a sturdy state the rule of law and accountability to the ruled The book provides a theoretical framework that contrasts the European and the Afroasian modes of state formation and explores the three major variants of the Ethiopian state since 1600 Gondar Shewa and Revolutionary It does this by employing the conceptual entry point of tributarism and teases out the implications of this perspective for refashioning the embattled postcolonial African political institutions The primary contribution of the book is the novel framing of state formation through the lens of a landed Afroasiatic peasantry in giving rise to a fragile state whose redistributive preoccupation preempted the emergence of a productive economy to serve as a buoyant revenue base Unlike feudal Europe the dependence of the Afroasian state on arm s length overlordship rather than on tightly managed landlordship incentivized endemic extractive contests among elites with the capacity for violence for the non fixed tribute from independent wealth producers Tributarism I argue here stymied the transition from a resilient statehood to a robust nation statehood that befits an open order society This book will be of interest to scholars in economics political science political economics and African Studies Berhanu Abegaz is Professor of Economics College of William Mary USA **Mass Starvation** Alex de Waal,2017-12-08 The world almost conquered famine Until the 1980s this scourge killed ten million people every decade but by early 2000s mass starvation had all but disappeared Today famines are resurgent driven by war blockade hostility to humanitarian principles and a volatile global economy In Mass Starvation world renowned expert on humanitarian crisis and response Alex de Waal provides an authoritative history of modern famines their causes dimensions and why they ended He analyses starvation as a crime and breaks new ground in examining forced starvation as an instrument of genocide and war Refuting the enduring but erroneous view that attributes famine to overpopulation and natural disaster he shows how political decision or political failing is an essential element in every famine while the spread of democracy and human rights and the ending of wars were major factors in the near ending of this devastating phenomenon Hard hitting and deeply informed Mass Starvation explains why man made famine and the political decisions that could end it for good must once again become a top priority for the international community **Dull Disasters?** Daniel Jonathan Clarke,Stefan Dercon,2016 This is an open access title available under the terms of a CC BY 3 0 IGO licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Dull Disasters shows how countries and their partners can better prepare for natural disasters such as typhoons earthquakes floods and drought By harnessing lessons from finance political science economics psychology and the natural sciences it is possible for governments civil society private firms and

international organizations to work together to achieve better preparedness thereby reducing the risks to people and economies and enabling quicker recoveries In this way responses to disasters become less emotional less political less headline grabbing and more business as usual and effective *Africa, Asia, and South America Since 1800* A. J. H. Latham, 1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access Distributed in the US by St Martin s Press Annotation copyright Book News Inc Portland Or **Ploughing New Ground** Getnet Bekele, 2017 In October 2016 the Ethiopian administration declared a State of Emergency in response to anti Government demonstrations and mass riots Officially said to result from subversive activities channelled from Eritrea Egypt and diasporic populations in the West the evidence in fact suggests that the riots stemmed from widespread internal dissatisfaction Large scale land dispossessions following bilateral deals with transnational agribusiness damming of major rivers construction of sugar estates and industry parks as well as urban sprawl have put pressure on agricultural and rural areas Today displacement drought and widening inequalities surround fears of severe food shortages and political instability Drawing on informant testimonies court archives field reports and other sources the author examines these developments in Ethiopia s lake region He shows how transformations over time in spatial politics state society relations and the organization of production and exchange have influenced the situation today and reveals the impact of these changes on a population of smallholder farmers for which agriculture is not only the mainstay of the national economy but a way of life Getnet Bekele is Associate Professor of History at Oakland University MI where he teaches African History and the Environmental and Economic History of Africa and the Global South **Routledge Companion to Media and Humanitarian Action** Robin Andersen, Purnaka L. de Silva, 2017-09-14 In this moment of unprecedented humanitarian crises the representations of global disasters are increasingly common media themes around the world The Routledge Companion to Media and Humanitarian Action explores the interconnections between media old and new and the humanitarian challenges that have come to define the twenty first century Contributors including media professionals and experts in humanitarian affairs grapple with what kinds of media language discourse terms and campaigns can offer enough context and background knowledge to nurture informed global citizens Case studies of media practices content analysis and evaluation of media coverage and representations of humanitarian emergencies and affairs offer further insight into the ways in which strategic communications are designed and implemented in field of humanitarian action **Famine, Fieldwork and Performance** Angela Christina Tshai Raven-Roberts, 2000 **Dictionary of Human Rights Advocacy Organizations in Africa** Santosh

C. Saha,1999-05-30 There is a growing tendency in all of the developing countries to see the right to employment education and other basic rights as adjuncts to basic political rights Also in many African countries there have been movements for expansive rights that should include children s rights and women s rights in addition to the basic civil and political rights Most current sources have selectively taken into consideration the work of politically oriented groups This volume includes the status and work of human rights groups in Africa currently working to uphold both the basic as well as the expansive rights One possible way of resolving the conflict between relativism and universalism is to project commonalities of norms and values through examinations of many advocacy groups in Africa that highlight the plight of refugees women and children as well as civil and political rights This dictionary lists the current advocacy groups working in Africa to uphold and protect both the basic political rights and the expansive rights of previously unacknowledged segments of the population from governmental infringements Advocacy groups are listed A to Z with additional resource information following each entry This book will be a useful reference to students and scholars of African history Third World Studies International Human Rights and Political Science and Academic libraries
