Rural Artists Colonies In Europe 1870 1910 Places Of Nostalgia:

Rural Artists' Colonies in Europe, 1870-1910 Nina Lübbren, 2001 This ground breaking book presents a critical study of pictorial narrative in nineteenth century European painting Covering works from France Germany Britain Italy and elsewhere it traces the ways in which immensely popular artists like Jean L on G r me Karl von Piloty and William Quiller Orchardson used unique visual strategies to tell thrilling and engaging stories Regardless of genre content or national context these paintings share a fundamental modern narrative mode Unlike traditional art they do not rely on textual sources nor do they tell stories through the human body alone Instead they experiment with objects spaces cause and effect relations and open ended ambiguity prompting viewers and reviewers to read for clues in order to weave their own elaborate tales

Karin Bergoo Larsson and the Emergence of Swedish Design Marge Thorell, 2018-11-27 Identified as the first designer of what would become known as Swedish Modern by the National Museum of Women in the Arts in Washington D C Karin Bergoo Larsson 1859 1928 was a mother of eight and wife to Sweden s beloved painter Carl Larsson Herself a well regarded artist she gave up painting when she married at the request of her husband Taking up needles and cloth she then turned a somewhat ugly cottage Lilla Hyttnas in the tiny village of Sundborn Sweden into a designer showcase Inspired by the Swedish countryside she filled the home with handcrafted wall hangings bed coverings tablecloths pillow covers and even furniture of her own design while greatly influencing her husband s work by encouraging him to move away from dark oils to more illuminating and light filled watercolors His paintings of their home made her interior designs famous and her influence continues to inform the concepts of retail giant IKEA **Bibliographic Index** , 2001 [Bibliographic Guide to Art and Architecture](#) New York Public Library. The Technological Unconscious in German Modernist Literature Larson Powell, 2008 Even after the end of modernism and postmodernism the grandiose fantasies of artifice and self reference that have informed so much modernist literature still resonate in the social constructivism of current literary and cultural theory in the idea that we can perform or construct identities or social roles without external constraint as if we had consumer choice of self Larson Powell s book posits nature as a limit to such fantasies redefining aesthetic modernity s conception of and relation to nature and therefore its relation to reality He shows how nature no longer the idealized maternally coded Utopia of the Romantics becomes the trace of specific political sexual and technological traumas The book s four chapters center on the representation of nature in German prose and especially poetry by Rainer Maria Rilke Gottfried Benn Bertolt Brecht and Alfred Döblin from the years 1900 to 1945 while making reference to other literatures as well Powell s term the Technological Unconscious refers to a point of intersection between psychoanalysis and social and scientific theories of modernism and also to the philosophical mediation between history and nature a motif important from Kant to Adorno Powell critiques the tendency toward jargon of an often merely rhetorical theory while continuing to develop the philosophical and conceptual inheritance of Continental

traditions He analyzes in connection with the works treated the conceptions of subject and system in the theories of Adorno Luhmann and Lacan and their relation to their complement nature The Technological Unconscious is thus an important polemical intervention both in the debates over interdisciplinarity and in those between eclectic culturalist theories such as New Historicism and postcolonialism on the one hand and systems theory and psychoanalysis on the other Book Jacket
