Michael Gauvreau, Nancy Christie

Rural Ireland 1600-1900 Modernisation And Change:

Rural Ireland 1600-1900 Trinity College (Dublin, Ireland), 1987 This book is concerned with analysis and interpretation of some of the leading processes which brought about change in Ireland in the period 1600 to 1900 Law and order rebellion and its causes and consequences farming techniques and the changing role of women in nineteenth century Ireland are among the themes addressed by eight individual contributors Jacket **A History of Settlement in Ireland** Terry

Barry, 2012-11-12 A History of Settlement in Ireland provides a stimulating and thought provoking overview of the settlement history of Ireland from prehistory to the present day Particular attention is paid to the issues of settlement change and distribution within the contexts of environment demography culture The collection goes further by setting the agenda for future research in this rapidly expanding area of academic interest This volume will be essential reading for all those with an interest in the archaeology history and social geography of Ireland The Laws and Other Legalities of Ireland, 1689-1850

Seán Patrick Donlan, 2016-03-03 While Irish historical writing has long been in thrall to the perceived sectarian character of the legal system this collection is the first to concentrate attention on the actual relationship that existed between the Irish population and the state under which they lived from the War of the Two Kings 1689 1691 to the Great Famine 1845 1849 Particular attention is paid to an understanding of the legal character of the state and the reach of the rule of law with contributors addressing such themes as how law was made and put into effect how ordinary people experienced the law and social regulations how Catholics related to the legal institutions of the Protestant confessional state and how popular notions of legitimacy were developed These themes contribute to a wider understanding of the nature of the state in the long eighteenth century and will therefore help to situate the study of Irish society into the mainstream of English and European social history Women and the Irish Diaspora Breda Gray, 2004-07-31 Based on original research with Irish women both at home and in England this book explores how questions of mobility and stasis are recast along gender class racial and generational lines

Adolescence in Modern Irish History Catherine Cox, Susannah Riordan, 2015-09-15 This edited collection is the first to address the topic of adolescence in Irish history It brings together established and emerging scholars to examine the experience of Irish young adults from the affective revolution of the early nineteenth century to the emergence of the teenager in the 1960s Bridging Boundaries in British Migration History Marie Ruiz, 2020-09-28 This

memorial book honours the legacy of Eric Richards's work in an interplay of academic essays and personal accounts of Eric Richards Following the Eric Richards methodology it combines micro and macro perspectives of British migration history and covers topics such as Scottish and Irish diasporas religious labour and wartime migrations Eric Richards was an international leading historian of British migration history and a pioneer at exploring small and large scale migrations His last public intervention given in Amiens France in September 2018 opens the book It is preceded by a tribute from David Fitzpatrick and Ngaire Naffine's eulogy This book brings together renowned scholars of British migration history The book combines local

and global migrations as well as economic and social aspects of nineteenth and twentieth century British migration history

The Irish Bridget Margaret Lynch-Brennan, 2014-06-05 Bridget was the Irish immigrant servant girl who worked in American homes from the second half of the nineteenth century into the early years of the twentieth. She is widely known as a pop culture cliché: the young girl who wreaked havoc in middle class American homes. Now in the first book length treatment of the topic Margaret Lynch Brennan tells the real story of such Irish domestic servants providing a richly detailed portrait of their lives and experiences. Drawing on personal correspondence and other primary sources Lynch Brennan gives voice to these young Irish women and celebrates their untold contribution to the ethnic history of the United States. In addition, recognizing the interest of scholars in contemporary domestic service, she devotes one chapter to comparing Bridget's experience to that of other ethnic women over time in domestic service in America.

Ulster Presbyterians and the Scots Irish Diaspora, 1750-1764 B. Bankhurst, 2013-11-25 Bankhurst examines how news regarding the violent struggle to control the borderlands of British North America between 1740 and 1760 resonated among communities in Ireland with familial links to the colonies. This work considers how intense Irish press coverage and American fundraising drives in Ireland produced empathy among Ulster Presbyterians.

Essays in the History of Irish Education Brendan Walsh, 2016-09-29 This book provides a complete overview of the development of education in Ireland including the complex issue of how religion can coexist with education and how a national identity can be aided through Irish language teaching. It also offers a comprehensive exploration of the development, issues, challenges, and future of education in Ireland within the context of historical studies.

Ireland in the Age of Revolution, 1760-1805, Part II Harry T Dickinson, 2021-02-25 The latter half of the eighteenth century saw Irish opposition movements being greatly influenced by the American and French revolutions. This two part six volume edition illustrates the depth and reach of this influence by publishing pamphlets dealing with the major political issues of these decades.

Melancholy Accidents Carolyn Conley, 1999-01-01 While most scholarly attention on violence in post famine Ireland has focused on political crimes, this book examines non political violence which made up the vast majority of incidents in that period. Ireland's overall crime rate was below that of England and Wales but the proportion of violent offenses to non violent ones was significantly higher in Ireland. In *Melancholy Accidents* Carolyn Conley decries the commonly held belief that recreational and domestic violence was generally the result of understandable emotions. Conley demonstrates that the meaning of violence in post famine Ireland was complex, personal, and often deeply traditional and idiosyncratic. This unique book will be valuable to a wide variety of scholars including those who study women's history, European history, and social problems.

British Population History Michael Anderson, 1996-07-13 This book brings together in one volume the four studies on British population history already published in the series *New Studies in Economic and Social History* and adds to them a new essay on British population in the twentieth century. Between them the authors survey the trends and debates in British population history from 1348 to 1991. Research over the past twenty five

years has transformed our understanding of how population has grown and declined of why the numbers of births deaths marriages and migrants have risen and fallen and thrown much new light on the economic and social impact of these changes The studies in this book supply introductions to these problems for readers who are not themselves demographers but who as students teachers or non specialist historians and social scientists want to know more about what happened and what are the main topics of current debate Full bibliographies for further study are included

An Imperial State at War Lawrence Stone,2013-10-18 The study of eighteenth century history has been transformed by the writings of John Brewer and most recently with *The Sinews of Power* he challenged the central concepts of British history Brewer argues that the power of the British state increased dramatically when it was forced to pay the costs of war in defence of her growing empire In *An Imperial State at War* edited by Lawrence Stone himself no stranger to controversy the leading historians of the eighteenth century put the Brewer thesis under the spotlight Like *The Sinews of Power* itself this is a major advance in the study of Britain s first empire

Ireland and the Industrial Revolution Andy Bielenberg,2009-05-07 This monograph provides the first comprehensive analysis of industrial development in Ireland and its impact on Irish society between 1801 1922 Studies of Irish industrial history to date have been regionally focused or industry specific The book addresses this problem by bringing together the economic and social dimensions of Irish industrial history during the Union between Ireland and Great Britain In this period British economic and political influences on Ireland were all pervasive particularly in the industrial sphere as a consequence of the British industrial revolution By making the Irish industrial story more relevant to a wider national and international audience and by adopting a more multi disciplinary approach which challenges many of the received wisdoms derived from narrow regional or single industry studies this book will be of interest to economic historians across the globe as well as all those interested in Irish history more generally

Labour, Love, and Prayer Andrea Ebel Brożyna,Queen's University of Belfast. Institute of Irish Studies,1999 An interesting new look at the Irish problem *Labour Love and Prayer* makes a valuable contribution to the histories of women Ireland and religion

The Cambridge History of Ireland: Volume 4, 1880 to the Present Thomas Bartlett,2018-02-28 This final volume in the *Cambridge History of Ireland* covers the period from the 1880s to the present Based on the most recent and innovative scholarship and research the many contributions from experts in their field offer detailed and fresh perspectives on key areas of Irish social economic religious political demographic institutional and cultural history By situating the Irish story or stories as for much of these decades two Irelands are in play in a variety of contexts Irish and Anglo Irish but also European Atlantic and latterly global The result is an insightful interpretation on the emergence and development of Ireland during these often turbulent decades Copiously illustrated with special features on images of the Troubles and on Irish art and sculpture in the twentieth century this volume will undoubtedly be hailed as a landmark publication by the most recent generation of historians of Ireland

Hungering for America Hasia R. DINER,2009-06-30 Millions of immigrants were drawn to

American shores not by the mythic streets paved with gold but rather by its tables heaped with food How they experienced the realities of America s abundant food its meat and white bread its butter and cheese fruits and vegetables coffee and beer reflected their earlier deprivations and shaped their ethnic practices in the new land Hungering for America tells the stories of three distinctive groups and their unique culinary dramas Italian immigrants transformed the food of their upper classes and of sacred days into a generic Italian food that inspired community pride and cohesion Irish immigrants in contrast loath to mimic the foodways of the Protestant British elite diminished food as a marker of ethnicity And East European Jews who venerated food as the vital center around which family and religious practice gathered found that dietary restrictions jarred with America s boundless choices These tales of immigrants in their old worlds and in the new demonstrate the role of hunger in driving migration and the significance of food in cementing ethnic identity and community Hasia Diner confirms the well worn adage Tell me what you eat and I will tell you what you are *Unlikely Entrepreneurs* Barbra Mann Wall,2005

In *Unlikely Entrepreneurs* Barbra Mann Wall looks at the development of religious hospitals in the late nineteenth and early twentieth centuries and the entrepreneurial influence Catholic sisters held in this process When immigrant nuns came to the United States in the late nineteenth century they encountered a market economy that structured the way they developed their hospitals Sisters enthusiastically engaged in the market as entrepreneurs but they used a set of tools and understanding that were counter to the market Their entrepreneurship was not to expand earnings but rather to advance Catholic spirituality Wall places the development of Catholic hospital systems located in Illinois Indiana Minnesota Texas and Utah owned and operated by Catholic sisters within the larger social economic and medical history of the time In the modern health care climate with the influences of corporations federal laws spiraling costs managed care and medical practices that rely less on human judgments and more on technological innovations the modern hospital reflects a dim memory of the past This book will inform future debates on who will provide health care as the sisters depart how costs will be met who will receive care and who will be denied access to health services **Mapping the Margins** Michael Gauvreau,Nancy Christie,2004 A re evaluation of the history and historiography of the Canadian family **Singlewomen in the European Past, 1250-1800** Judith M. Bennett,Amy M. Froide,2013-02-01 When we think about the European past we tend to imagine villages towns and cities populated by conventional families married couples and their children Although most people did marry and pass many of their adult years in the company of a spouse this vision of a preindustrial Europe shaped by heterosexual marriage deceptively hides the well established fact that in some times and places as many as twenty five percent of women and men remained single throughout their lives Despite the significant number of never married lay women in medieval and early modern Europe the study of their role and position in that society has been largely neglected *Singlewomen in the European Past* opens up this group for further investigation It is not only the first book to highlight the important minority of women who never married but also the first to address the critical matter of differences among women

from the perspective of marital status Essays by leading scholars among them Maryanne Kowaleski Margaret Hunt Ruth Mazo Karras Susan Mosher Stuard Roberta Krueger and Merry Wiesner deal with topics including the sexual and emotional relationships of singlewomen the economic issues and employment opportunities facing them the differences between the lives of widows and singlewomen the conflation of singlewomen and prostitutes and the problem of female slavery The chapters both illustrate the roles open to the singlewoman in the thirteenth through eighteenth centuries and raise new perspectives about the experiences of singlewomen in earlier times
