**Exclusion and Poverty in India and Central Asia** Chittaranjan Senapati, 2016-09-09 The early years of 1990s economic reform and change has neglected social sectors both in India and Central Asia As a result poverty has also increased in India and Central Asian countries The economic political and social situation has worsened in all Central Asian states due to transition from command economy to market economy The early 1990s political decision has been dominated by a narrowly conceived version of economic policy for both India and Central Asia As a result the quality and the structure of social protection changed in a negative way Indeed in some cases the pursuit of a strict economic orthodoxy has left various sections of the community marginalized and alienated Both the societies confront a number of challenges that is as profound as the economic changes of the past The process of globalization and technical change has influenced economy and society in complex ways including raising expectations of consumption and remuneration for skilled knowledge workers creating greater demand for some information skills and services causing unemployment amongst those with few qualifications and destabilizing some traditional ways of life and increasing social exclusion It detaches groups and individuals from social relations and institutions and prevents them from full participation in the normal activities of the society In India and Central Asia communities face social exclusion on the basis of their identity as ethnic groups socio economic groups religious community and gender Inclusive development therefore is essential and it should be the top priority in development programs of India and Central Asia Research in this area has not been touched upon so far Since Central Asian countries are relatively new and trying to establish their democratic institutions this piece of work will be helpful for their nation building processes So far as the mutual benefit for both the regions is concerned India is an old democracy and its inclusive policy can be lessons for Central Asian countries On the other hand the experience of Central Asias policy implementation can be a lesson for India This piece of work has

potential impulses to policy makers academicians and researchers of these five Central Asian countries and India This work can make a distinction than the conventional researcher in India by focusing on development studies social exclusion inclusive policies and comparative studies in international developments Key words social exclusion poverty deprivation development diversity India Central Asia Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan Handbook of Rural Studies Paul Cloke,Terry Marsden,Patrick Mooney,2006-01-26 This is a unique interpretation of rural issues that will become essential reference for students scholars politicians developers and rural activists Imre Kovach President European Society for Rural Sociology Research director Institute for Political Sciences Budapest **Rural Geography** Michael Woods,2005-01-05 An introduction to contemporary rural societies and economies in the developed world Rural Geography examines the social and economic processes at work in the contemporary countryside **Financial Exclusion and the Poverty Trap** Pamela Lenton,Paul Mosley,2012-02-27 The persistence of poverty hurts us all and attacking poverty is a major policy objective everywhere In Britain the main political parties have an anti poverty mandate and in particular an agreed commitment to eliminate child poverty by 2020 but there is controversy over how this should be done This book addresses one of the main causes of poverty financial exclusion the inability to access finance from the high street banks People on low or irregular incomes typically have to resort to loan sharks doorstep lenders and other informal credit sources a predicament which makes escape from the poverty trap doubly difficult Over the last fifteen years a strategy of breaking down the poverty trap has been implemented known in the UK as community development financial institutions CDFIs typically non profit lending institutions focussed on the financially excluded and seeking to learn from the achievements of microfinance around the world Focussing on the period 2007 09 during which the UK went into a global recession this book investigates how CDFIs work and how well they have helped low income people and businesses to weather that recession Based on a study of eight CDFIs in four UK cities we ask what ideas for overcoming financial exclusion have worked well and which have worked badly What can we learn from the experience of these CDFIs which can help reduce poverty in this country and globally We assess the impact of CDFIs using a range of indicators including income assets education health and ask what changes in policy by both CDFIs and government agencies for example benefits agencies might be able to increase impact Some of the key lessons are CDFIs need to work with appropriate partners to build up savings capacity in their clients the community environment is vital in determining who escapes from the poverty trap and CDFIs can never function properly unless they learn how to control their overdue debts This book will be vital reading for those concerned with social policy microfinance and anti poverty policies in industrialised countries and around the world *Poverty and Exclusion in a Global World* A.S. Bhalla,Frédéric Lapeyre,2016-07-27 In Western Europe the notion of social exclusion is rapidly diffusing in recent years This book investigates the notion of social exclusion as a new way to approach social issues such as the new poverty long term unemployment precariousness social polarization and disintegration Particular attention is paid to both the global

relevance of an approach in terms of social exclusion and its value compared to more conventional approaches in terms of poverty of deprivation It is shown that social exclusion goes beyond these by explicitly embracing the relational as well as the distributional aspects of poverty and emphasizing processes In this book the authors explore the specific forms of social exclusion in the ongoing processes of globalization deregulation crisis of the welfare state and rise of individualism

**Poverty and Exclusion in a Global World** A. Bhalla,F. Lapeyre,2004-04-30 This volume looks at the three dimensions of social exclusion economic social and political Exclusion is analyzed as a new approach to such issues as the new poverty precariousness long term unemployment social polarization and lack of citizenship The book shows how relational and distributional aspects of poverty are interlinked *Urban Poverty* ,1995 **Forthcoming Books** Rose Arny,2003
