Threats to Peace and International Security: Asia versus West Juan Cayón Peña, J. Martín Ramírez, 2023-03-27 This book aims to analyze from a multidisciplinary perspective the current geopolitical conflict between East and West between two differentiated and apparently conflicting cosmogonic visions The geopolitical evolution of the current panorama seems to lead to a new world in the field of international relations a new board played on a planetary level Once again bloc geopolitics can be glimpsed in the immediate future in which the most important actors such as Russia China the United States of America and the European Union are called to position themselves with respect to the territorial and strategic ambitions of

the opponent International law seems to be overwhelmed by military actions and factual pressure on the ground while the battle of ideas extends to the technological field and cyberspace The different origins of the authors with extensive academic military police forces and business experience undoubtedly enriches the unique perspective that this work intends to address always in the attempt to enforce international law and the channels of dialogue between nations such as the best solution to conflicts

Learn Spanish News Vol.1 Nik Marcel, LEARN SPANISH NEWS Vol 1 English Spanish THIS EDITION The dual language text has been arranged into sentences and shorter paragraphs for quick and easy cross referencing The source text is the Spanish language edition of Voice of America VOA The Spanish text has been translated into English for this dual language project The reader can choose between four formats Section 1 English to Spanish Section 2 Spanish to English Section 3 English Section 4 Spanish A methodology for getting the most out of this bilingual format is explained in the book s Foreword The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully this way A reader might like to go back to reading dual language news for reinforcement and further development returning to foreign language only news with a deeper understanding By going back to the same old news you are going over words word patterns and passages with which you already have a certain familiarity The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way even though the news may seem a little dated The aim of informing the reader about actual news is secondary especially given that the content will become less current and less relevant over time If you are having trouble with the level of difficulty in the text a suggested path for learning languages is as follows Familiarise yourself with a basic language instruction book or re read the one you have Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called Spanish Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic Spanish book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable Spanish text a simple novel a Spanish news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an

important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books *Golden Earrings* Belinda Alexandra,2015-08-18 For fans of Colleen McCullough Kate Morton and Lucinda Riley a powerful saga of family love honor and betrayal set in historical Barcelona and romantic Paris from the author of Tuscan Rose You who judge me come Let me tell you a story Paloma Batton is the granddaughter of Spanish refugees who fled Barcelona after the Civil War A disciplined student attending the school of the Paris Opera Ballet Paloma lets little get in the way of her career until she receives a mysterious pair of golden earrings She begins exploring her Spanish heritage and becomes fascinated by la Rusa a woman who rose from poverty to become one of the great flamenco dancers of modern times before committing suicide As Paloma begins to unravel the secrets of the past she discovers more than one person who had good reason for wanting la Rusa dead including Paloma s own grandmother Written with the same depth and emotion as Belinda Alexandra s rich unforgettable saga Kimberly Freeman author of Wildflower Hill Tuscan Rose *Golden Earrings* moves between two of the great cities of Europe Barcelona in the lead up to the Civil War and Paris in the 1970s It is the story of two women and the extremes to which they are willing to go for love And above all it is a story of great passions and great betrayals where nothing is quite as it seems **Cosmic Fragments** Asif A. Siddiqi,2025-05-20 Looking beyond the well trodden celebratory narratives of space exploration and the powerful nostalgia of lunar landings *Cosmic Fragments* focuses instead on the moral ambiguities of spaceflight Beyond the fetishization of machines men and manifest destiny and the Cold War tensions of the space race lies a history rife with violence racial inequity colonial ambitions and catastrophe This volume yields new insights on the crucial role of environmental damage Indigenous dispossession population displacements infrastructural entanglements and narratives of decline in space exploration situated within larger questions in the history of science technology and the environment Each chapter explores histories of space travel across nations and regions to better understand the destructive power of infrastructure waste and exploitative legal regimes at the height of the space age Drawing from postcolonial science studies science and technology studies and anthropology contributors suggest that phenomena designed to disenfranchise and dislocate such as the displacement of Indigenous peoples were deeply imbedded in the coloniality of space travel By confronting and challenging problematic early accounts rooted in the cultural mores of settler colonialism *Cosmic Fragments* offers a fundamental repositioning of the history of spaceflight **Gran Libro de Los Mejores Cuentos: Volumen 6** Rabindranath Tagore,Alexander Puchkin,Katherine Mansfield,Jack London,Alejandro Dumas,Virginia Woolf,F.
