

The phrase rush to judgement is a silly one. When it comes to judgement, most of us don't have to rush. We don't have to even leave the couch. Our judgement is easy to reach for.

Goodin, Kai Spiekermann, 2018-04-26 Democracy has many attractive features Among them is its tendency to track the truth at least under certain idealized assumptions That basic result has been known since 1785 when Condorcet published his famous jury theorem But that theorem has typically been dismissed as little more than a mathematical curiosity with assumptions too restrictive for it to apply to the real world In *An Epistemic Theory of Democracy* Goodin and Spiekermann propose different ways of interpreting voter independence and competence to make jury theorems more generally applicable They go on to assess a wide range of familiar political practices and alternative institutional arrangements to determine what constellation of them might most fully exploit the truth-tracking potential of majoritarian democracy The book closes with a discussion of how epistemic democracy might be undermined using as case studies the Trump and Brexit campaigns Madam Foreman Amana

Citizenship, Education and Violence Waghid Yusef, 2013-12-30 The focus of this book is to offer a humane rocesponse to dealing with violence An interpretive analysis is presented in order to think differently about violence in schools and about how a citizenship education of becoming can deal with the unpredictable consequences of violence in its own potentiality It seems to the authors that given the confident onslaught of violence there is nothing left to do but to offer insight into the nature of violence itself and by so doing to search for unexplored ways of humane response and being The authors are not pretending to hold a magic wand that will sanctify schools into the safe zones that they ought to be and as which they should serve in any society This would be both presumptuous and misleading What one is looking and hoping for however is a renewed engagement a slight tilting of the perspective so that something other than how we have always responded to violence perhaps will emerge The authors are confident that such a deconstructive approach to violence in schools through the lens of a reconsidered view of citizenship education can assist them and others to wrestle with its potential for destruction that can be changed into options for co belonging of a non violent if not peaceful kind **Language and Power in Court** J. Cotterill, 2003-10-14 Sociolinguists and lawyers will find insight and relevance in this account of the language of the courtroom as exemplified in the criminal trial of O J Simpson The trial is examined as the site of linguistic power and persuasion focusing on the role of language in re presenting and re constructing the crime In addition to the trial transcripts the book draws on Simpson s post arrest interview media reports and post trial interviews with jurors The result is a unique multi dimensional insight into the Trial of the Century from a linguistic and discursive perspective *Liberal Democracy in*

Crisis Alen Toplišek, 2018-09-12 This book rethinks resistance against neoliberalism in the context of the crisis of Western liberal democracy and the rise of new radical left parties in Europe Drawing upon a wide range of methodological approaches in contemporary political and social theory it explores how the aftermath of the 2008 financial crisis represents the opening of possibilities for resistance and examines the structural hurdles facing radical politics in effectively challenging neoliberalism The author challenges the dominant conceptions of democratic politics by critically interrogating the role of liberalism in the depoliticisation of governing and the neoliberal restructuring of the democratic role of the state The trajectory of new radical left parties in Slovenia Greece and Spain is used to demonstrate the need to overcome the binary divide between institutional politics and resistance in radical political theory and practice **Governance in the 21st**

Cebulski, Frank Cebulski, 2010

Nearly all of the poems in this collection were written within a period of three months consecutively one a day I deliberately set myself the task of writing a poem a day for as long as I could sustain the effort and keep my creative energy flowing I had before in my writing career brief periods of intense creativity where I wrote poems every day for example when I was finishing my sonnet sequence *Mediterranean Sonnets* I wrote fourteen sonnets in as many days These are memorable creative episodes because they don't come often and the poems deriving from such an intense focused activity are always unified and consistent in a qualitative manner by form and technique metrics and poetic pulsion The imagination grasps things with unusual clarity These sessions are always pleasurable because as Seamus Heaney once said to me after he himself had experienced such a period of creativity and productivity they bolster a bit the poet's belief in his own genius Not that genius should be measured by the bucketful but there is a certain confirmed value in sustained performance Many poets of course have achieved similar and greater feats of poetic muscularity in the modern era Rilke for one in writing *Sonnets to Orpheus* February 25 1922 at Chateau de Muzot in Switzerland and William Carlos Williams who wrote something every day for a year for *Kora in Hell* *Improvisations* 1917 September 1918 published in 1920 and this while he was working every day as a pediatrician and general physician in his other profession Williams vowed not to change a word as written of course this did not happen as his critical faculties prevailed as have mine in this collection I am myself pleased and surprised by how many of these poems stand as first written *Stop Collaborate and Listen: Developing Impactful HR Partnerships through*
