*Russia's Interventions in Ethnic Conflicts* James J. Coyle, 2020-11-30 This book explores the thirty year border conflict between Armenia and Azerbaijan specifically around the former autonomous republic of Nagorno Karabakh and shows how Russia is the only winner in this conflict fighting on both sides supplying arms to both sides and acting as the arbiter between the two sides The author looks at Armenia Azerbaijan and the separatists from military political economic and diplomatic perspectives and offers insights on how the fighting has influenced society and vice versa The book provides an update to the history of the war to include major fighting in 2020 and examines how Russia obtained three military bases and most economic assets in Armenia while becoming Azerbaijan s major weapons supplier to the tune of six billion dollars It shows how Russia has tried to sideline the internationally supported Minsk negotiations in favor of Russia assuming the sole role of arbiter and argues that even though Russia has submitted a number of ceasefire proposals it does little to encourage the sides to implement them The book includes a discussion of international law United Nations Resolutions and rulings by the European Court of Human Rights

**The Bolsheviks and the Russian Empire** Liliana Riga, 2012-11-12 This comparative historical sociology of the Bolshevik revolutionaries offers a reinterpretation of political radicalization in the last years of the Russian Empire Finding that two thirds of the Bolshevik leadership were ethnic minorities Ukrainians Latvians Georgians Jews and others this book examines the shared experiences of assimilation and socioethnic exclusion that underlay their class universalism It suggests that imperial policies toward the Empire s diversity radicalized class and ethnicity as intersectional experiences creating an assimilated but excluded elite lower class Russians and middle class minorities universalized particular exclusions as they disproportionately sustained the

economic and political burdens of maintaining the multiethnic Russian Empire The Bolsheviks social identities and routes to revolutionary radicalism show especially how a class universalist politics was appealing to those seeking secularism in response to religious tensions a universalist politics where ethnic and geopolitical insecurities were exclusionary and a tolerant imperial imaginary where Russification and illiberal repressions were most keenly felt **The Statesman's Yearbook 2007** B.
