Russia And China A Theory Of Inter State Relations

Alexei D. Voskressenski

Russia And China A Theory Of Inter State Relations:

Russia and China Alekseĭ Dmitrievich Voskresenskiĭ, 2003 This study incorporates elements from the disciplines of international relations and history to address key international and domestic elements that have shaped the interactions between Russia and China over time It demonstrates how changes in the inter state relationship were and are initiated Controversial issues are examined through previously unobtainable materials from sources including the Archives of Foreign Policy of the Russian Empire the Archives of Foreign Policy of the Russian Federation and the Russian Centre for the Preservation and Research of the Documents of Modern History

Russia and China Alexei D. Voskressenski, 2015-03-04 This study incorporates elements from the disciplines of international relations and history to address key international and domestic elements that have shaped the interactions between Russia and China over time It demonstrates how changes in the inter state relationship were and are initiated Controversial issues are examined through previously unobtainable materials from sources including the Archives of Foreign Policy of the Russian Empire the Archives of Foreign Policy of the Russian Federation and the Russian Centre for the Preservation and Research of the Documents of Modern History

Russia-China Relations in the Post-Crisis International Order Marcin Kaczmarski, 2015-03-24 The book explores developments in Russia China relations in the aftermath of the global economic crisis arguing that the crisis transformed their bilateral affairs regional liaisons and crucially altered the roles both states play on the international arena Discussing how Russo Chinese cooperation has accelerated in energy trade arms sales and in the Russian Far East the focus is on how the still mutually advantageous relationship has become more asymmetric than ever reflecting China s meteoric rise and Russia s decline These dynamics are explored through three perspectives domestic regional and global Domestically the book traces the role of political coalitions and key interest groups involved in how the two states shape their reciprocal policies Changes in the regional dimension are examined with particular reference to a new status quo emerging in Central Asia The book concludes by explaining how the changing relationship is affecting the international order including the balance of power vis vis the United States as well as Russia and China s changing attitudes towards global governance

The United States and Contemporary China-Russia Relations Brandon K. Yoder, 2022-04-28 China and Russia have grown progressively closer over the last two decades yielding a China Russia axis uniquely capable of challenging the United States and of revising key aspects of the international order Although the scholarly literature has offered detailed descriptions and various ad hoc explanations of this trend the Sino Russian bilateral relationship has been the subject of very little scrutiny using rigorous theory which has precluded the formation of logically coherent and empirically supported explanations for increasing China Russia cooperation Moreover the cooperative post Cold War trend in the bilateral relationship is puzzling for each of the major paradigms of international relations theory realism constructivism and liberalism This volume brings together leading IR scholars from various theoretical perspectives as well as theoretically informed experts in Chinese and

Russian foreign policy The chapters develop and apply nuanced theoretical arguments to derive testable hypotheses for the cooperative trend in China Russia relations In contrast to existing scholarship the book offers generalizable insights that both improve our understanding of a crucially important contemporary case while also advancing IR theory in substantial ways

The Shanghai Cooperation Organization and Conflict De-escalation James MacHaffie, 2023-03-10 This book's main objective is to determine the role if any the Shanghai Cooperation Organization SCO plays in de-escalating tensions among its members It argues that the SCO is uniquely suited to keep its disparate members many of whom have border disputes with each other from escalating tensions among themselves The book proposes a rivalry de-escalation model that differs from the standard belief that rivalries de-escalate due to a shock or external pressure This model states that trust can be built between two rival states when confidence building measures are instilled and utilized repeatedly over a long period of time The SCO provides these mechanisms in the form of annual summits between state leaders and routine military exercises involving military units from every member Examining three case studies involving the founding six members of the organization the book argues that the SCO is effective in keeping rivalries de-escalated among its members This book will be of much interest to students of Asian politics regional security and international relations

China-Taiwan Relations in a Global Context C. X. George Wei, 2012 This book traces the development of Taiwan's relations with its diplomatic partners and its policy towards the political opponents of its political opponent mainland China Paying particular attention to the powers that could exercise great influence in the future of East Asia *China Taiwan Relations in a Global Context* examines the main diplomatic strategies of Taiwan and its counterparts and the major problems for Taiwanese foreign relations To date there is very little scholarship which examines the Taiwan Issue outside of the triangular Beijing Washington Taipei framework this book does exactly that The contributors examine the development of Taiwan's relationship with less prominent countries and governments and attempt to ascertain how such examinations could give rise to new variables that help explain the strategy and purpose of Taiwan's foreign policy as well as the reaction and response of mainland China This book provides readers with vital information about Taiwan's foreign policymaking and introduces rarely told stories about Taiwan's foreign relations The research demonstrates the ceaseless and unyielding diplomatic efforts of the Taiwanese for survival in a shrunken international space and renders for readers a better understanding of the complexity of Taiwan's relations with the rest of the world This book is essential reading for anyone interested in Taiwan studies Chinese politics Cross Strait relations and Asian foreign policy

China & the World David L. Shambaugh, 2020 As the world evolves in increasingly unpredictable directions one of the key determinants of the future global order will surely be the impact of China No country and no society can escape China's reach indeed many seek its embrace China brings benefits to many but it's also a problematic interlocutor for others In *China and the World* one of the world's leading China specialists David Shambaugh has assembled fifteen leading international authorities on China to create the most comprehensive and up to

date scholarly assessment of China's foreign relations and roles in international affairs The volume covers China's contemporary position in all regions of the world with all major powers and across multiple arenas of China's international interactions It also explores the sources of China's grand strategy how the past shapes the present and the impact of domestic factors that shape China's external behavior China and the World is a uniquely focused and well organized volume that provides many insights into China's calculations and behavior and identifies a number of challenges China will face in the future

The Rise of China: Policies of the EU, Russia and the US, 2008 **Is International Law**

International? Anthea Roberts, 2017-09-18 This book takes the reader on a sweeping tour of the international legal field to reveal some of the patterns of difference dominance and disruption that belie international law's claim to universality Pulling back the curtain on the divisible college of international lawyers Anthea Roberts shows how international lawyers in different states regions and geopolitical groupings are often subject to distinct incoming influences and outgoing spheres of influence in ways that reflect and reinforce differences in how they understand and approach international law These divisions manifest themselves in contemporary controversies such as debates about Crimea and the South China Sea Not all approaches to international law are created equal however Using case studies and visual representations the author demonstrates how actors and materials from some states and groups have come to dominate certain transnational flows and forums in ways that make them disproportionately influential in constructing the international This point holds true for Western actors materials and approaches in general and for Anglo American and sometimes French ones in particular However these patterns are set for disruption As the world moves past an era of Western dominance and toward greater multipolarity it is imperative for international lawyers to understand the perspectives and approaches of those coming from diverse backgrounds By taking readers on a comparative tour of different international law academies and textbooks the author encourages them to see the world through the eyes of others an essential skill in this fast changing world of shifting power dynamics and rising nationalism

China and the World David Shambaugh, 2020-01-02 As the world evolves in

increasingly unpredictable directions one of the key determinants of the future global order will surely be the impact of China No country and no society can escape China's reach indeed many seek its embrace China brings benefits to many but it's also a problematic interlocutor for others In China and the World one of the world's leading China specialists David Shambaugh has assembled fifteen leading international authorities on China to create the most comprehensive and up to date scholarly assessment of China's foreign relations and roles in international affairs The volume covers China's contemporary position in all regions of the world with all major powers and across multiple arenas of China's international interactions It also explores the sources of China's grand strategy how the past shapes the present and the impact of domestic factors that shape China's external behavior China and the World is a uniquely focused and well organized volume that provides many insights into China's calculations and behavior and identifies a number of challenges China will face in

the future *The Pragmatic Dragon* Eric Hyer, 2015-01-15 China shares borders and asserts vast maritime claims with over a dozen countries and it has had boundary disputes with nearly all of them Yet in the 1960s when tensions were escalating with the Soviet Union India and the United States China moved to conclude boundary agreements with these neighbours peacefully In this wide ranging study of China s boundary disputes and settlements Eric Hyer uncovers a legacy not in keeping with the fearful image of China on the world stage Rather he finds the country s territorial negotiations have been pragmatic and strategic with China demonstrating willingness to compromise and even forgo historical claims in order to establish legitimate boundaries This behaviour in earlier periods is pertinent to the ongoing territorial disputes in the East and South China Seas The Pragmatic Dragon analyzes these disputes and the strategic rationale behind China s behaviour providing important insights into the foreign policy of a nation whose presence on the world stage continues to grow

Multidimensional Diplomacy of Contemporary China Jean-Marc F. Blanchard, Simon Shen, 2012-07-10 Since the end of the Cold War the new Chinese leadership generation has had to promulgate new guiding principles for handling global diplomacy which acknowledges China s new position Given the dramatic changes in the international system and its domestic economic success for the growing China s rise idea on the global stage China in the 21st century faces a mixture of old and new challenges including terrorism hegemonism and authoritarianism While Deng Xiaoping combined Taoism an ancient Chinese philosophy into Taoist diplomacy in response to the hostile international position after the Tiananmen Incident China s foreign policy keeps changing and the multidimensional diplomacy adopted by China can be seen as a consistent theme in Chinese foreign policy in the 21st century Multidimensional Diplomacy of Contemporary China attempts to examine the origins guiding principles and sequential outcomes of China s multidimensional diplomacy in the 21st century working under the flag of peaceful development harmonious international order and global responsibility The contributions are grouped into three sections The first discusses the theoretical foundations of multidimensional diplomacy The second section turns the analytical focus to China s immediate neighbors in East Asia and at last the book will go beyond the immediate neighborhood of China to the global community These essays explore China s dealings with the countries of Africa the Gulf and the South Pacific and provide other in depth analyses on China s foreign policy towards Pakistan Russia and Japan This book seeks to significantly shape the knowledge and thinking about China s global interactions in the 21st century Non-Western

Theories of International Relations Alexei D. Voskressenski, 2016-12-16 This book addresses the problem of World Regional Studies and its components regional complexes regional subsystems and global regions With an increasingly complex international system and the emergence of new actors it is clear that the conceptual framing within the classical disciplines of IR Political Theory International Political Economy or Comparative Politics can no longer fully explain a number of processes originating from a tighter and intricate nexus between local regional and global dimensions World Regional Studies explains the emergence of new phenomena in international relations and world politics on a regional and

predominantly non Western regional level How do non Western societies react to the transformations of the global order Is a non Western democracy possible Should we discuss the possibilities for the appearance of a non Western IR theory or a new framework for analyzing de westernized global development This study based on decade long research and teaching post in World Regional Studies at MGIMO University and Russian University of Humanitarian Studies RGGU seeks to answers these questions *Revolutionary Transformations* Anja Blanke, Julia C. Strauss, Klaus Mühlhahn, 2023-04-13 An international team of scholars explore China s transformative revolutionary decade the 1950s calling into question existing narratives The New Silk Road Diplomacy Hasan H. Karrar, 2010-07-01 With the collapse of the Soviet Union in 1991 independent states such as Kazakhstan sprang up along China s western frontier Suddenly Beijing was forced to confront internal challenges to its authority at its border as well as international competition for energy and authority in Central Asia Hasan Karrar traces how China cooperated with Russia and the Central Asian republics to stabilize the region facilitate commerce and build an energy infrastructure to import the region s oil While China s gradualist approach to Central Asia prioritized multilateral diplomacy it also brought Beijing into direct competition with the United States which views Central Asia as vital to its strategic interests *Readings in European Security* François Heisbourg, 2005 This volume serves as a prism through which the European Union s external relations and security can be assessed Experts tackle strategic issues such as Russia s relationship with the West the rise of China with special reference to arms supplies Iran s nuclear program and European homeland security against the background of global terrorism On these issues and others transatlantic relations continue to be more relevant than ever with the United States and the EU intertwined in the world s tightest network of economic and societal relations As the enlarging EU stretches to cover an expanding area of competence its responses to these challenges affect not only its internal security but increasingly that of its neighbors and other powerful actors on the world stage

IBSS: Political Science: 2004 Vol.52 The British Library of Political and Economic Science, 2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French **How Russia Is Not Ruled** Allen C. Lynch, 2005-01-10 The state remains as important to Russia s prospects as ever This is so not only because as in any society an effectively functioning state administration is necessary to the proper functioning of a complex economy and legal system

but also because in Russian circumstances factors of economic geography tend to increase costs of production compared to the rest of the world. These mutually reinforcing factors include the extreme severity of the climate, the immense distances to be covered, the dislocation between European population centers and Siberian natural resource centers, and the inevitable predominance of relatively costly land transportation over sea-borne transportation. As a result, it is questionable whether Russia can exist as a world civilization under predominantly liberal economic circumstances in a unified liberal global capital market. Large-scale private direct capital investment will not be directed to massive outdoor infrastructure projects typical of state investment in the Soviet period.

Readings in European Security Michael Emerson, 2009. Intends to serve as a prism through which the EU's external relations and security can be assessed with contributions from its US and Russian partners. This book contains working papers on a variety of topical strategic issues including the EU's role in the Middle East conflict, missile defense, recognition of Kosovo, and more.

China's Asia Lowell Dittmer, 2018-02-23. This balanced and deeply informed book provides a comprehensive account of China's Asia policy since the Cold War. Lowell Dittmer traces the PRC's policy toward its Asian neighbors in the context of the country's move from a developing nation to a great power capable of playing a role in world politics commensurate with its remarkable economic rise. The author considers China's bilateral relations with Russia, Central Asia, South and Southeast Asia, and Australia. Each of these relationships is also viewed in terms of China's rivalry with the United States, which has viewed China's rise with admiration tinged with a certain foreboding. Thus, Dittmer employs a triangular analysis to understand Beijing's attempt to expand in Asia while at the same time deterring Washington's interference. Reframing the international relations of Asia in a thought-provoking and informed manner, this important book presents a panoramic view of the dynamics at work on all sides of China.

Enjoying the Track of Appearance: An Psychological Symphony within **Russia And China A Theory Of Inter State Relations**

In a global used by displays and the ceaseless chatter of fast connection, the melodic beauty and psychological symphony created by the written word frequently disappear in to the back ground, eclipsed by the persistent sound and disruptions that permeate our lives. But, set within the pages of **Russia And China A Theory Of Inter State Relations** a charming literary value brimming with organic thoughts, lies an immersive symphony waiting to be embraced. Constructed by a masterful musician of language, this interesting masterpiece conducts readers on a mental trip, well unraveling the hidden melodies and profound impact resonating within each cautiously crafted phrase. Within the depths with this emotional review, we can investigate the book is central harmonies, analyze their enthralling publishing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
