Russia And The World 1917 1991

Brendan Simms

Russia And The World 1917 1991:

Russia and the World, 1917-1991 Caroline Kennedy-Pipe, 1998 An investigation of the evolution of Soviet foreign policy from the Revolution of 1917 until the end of the Soviet era tracing the origins and characteristics of Soviet external strategies from their Marxist Leninist roots through to the collapse of communism There is a careful analysis of Soviet foreign policy alongside the inception of the Bolshevik state with its global manifesto of revolutionary change Stalin's struggle to survive the twin threats of a revisionist Germany and militant Japan through alliance with the capitalist states the expansion of Soviet power in the closing stages of World War II and the subsequent Cold War the Soviet search for some form of accommodation with the West from the 1960s onwards the attempts of successive leaderships to find a way of regenerating the failing Soviet system and the impact of economic weakness on Soviet behaviour in both the Third World and Eastern Europe Based on a wide range of sources including Russian materials that have become available since the end of the Cold War this work differs from many standard accounts in its emphasis of the factional nature of decision making over external strategies and its description of competing strains in Soviet thinking about the outside world Russian and Soviet Diplomacy, 1900-39 Alastair Kocho-Williams, 2011-12-13 Addressing the impact of the Russian Revolution and change and continuity in diplomacy during the transition from Empire to Soviet Union this book examines how Russia's diplomacy was conducted the diplomats behind it the establishment of the Soviet diplomatic corps and the steps taken to integrate the Soviets into the diplomatic world *A History Of Russia Volume 2* Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **The Shadow of War** Stephen Lovell, 2011-06-24 Taking the achievements ambiguities and legacies of World War II as a point of departure *The Shadow of War* The Soviet Union and Russia 1941 to the Present offers a fresh new approach to modern Soviet and Russian history Presents one of the only histories of the Soviet Union and Russia that begins with World War II and goes beyond the Soviet collapse through to the early twenty first century Innovative thematic arrangement and approach allows for insights that are missed in chronological histories Draws on a wide range of sources and the very latest research on post Soviet history a rapidly developing field Supported by further reading bibliography maps and illustrations *European Dictatorships 1918-1945* Stephen J. Lee, 2012-11-12 *European Dictatorships 1918-1945* surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe's states to dictatorships between the first and the second World Wars It describes the course of dictatorship in Europe before and during the Second World War and examines the phenomenon of dictatorship itself and the widely different forms it can take From the notorious dictatorships of Mussolini

Hitler and Stalin to less well known states and leaders this book scrutinizes the experiences of Russia Germany Italy Spain and Portugal and Central and Eastern European states This third edition has been revised throughout to include recent historical research and contains a completely new chapter on the meaning of dictatorship Including new tables maps and diagrams this is the perfect survey for all students of the period To view the companion website please visit www.routledge.com/textbooks/9780415454858 **CCEA A2-level History Student Guide: Clash of Ideologies in Europe (1900-2000)**

Henry Jefferies, 2018-09-24 Build reinforce and assess students knowledge throughout their course tailored to the 2016 CCEA specification and brought to you by the leading History publisher this study and revision guide combines clear content coverage with practice questions and sample answers Ensure understanding of the period with concise coverage of all Unit content broken down into manageable chunks Develop the analytical and evaluative skills that students need to succeed in A level History Consolidate understanding with exam tips and knowledge check questions Practise exam style questions matched to the CCEA assessment requirements for every question type Improve students exam technique and show them how to reach the next grade with sample student answers and commentary for each exam style question Use flexibly in class or at home for knowledge acquisition during the course or focused revision and exam preparation *Historical Dictionary of Russian and Soviet Foreign Policy* Norman E. Saul, 2014-12-16 The conduct of the foreign relations of the Russian state in its several contexts Kiev Rus Muscovy Russian Empire Provisional Government Union of Soviet Socialist Republics and Russian Federation were unique in its common currents from the beginning to the present Geography was certainly a key factor located in the center of the world s largest land mass and surrounded by often hostile forces All of the Russias had to confront the problems of open frontiers and the conduct of relations with a number of adjacent states of different ethnicity and with many that were more distant No other nation states had to face such complex and divergent circumstances over their histories Most other Great Powers were neighbors of similar states in culture and historical background whereas Russia had to deal with Asian as well as European countries The *Historical Dictionary of Russian and Soviet Foreign Policy* covers the history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important individuals events and other aspects of the foreign policy of this important country This book is an excellent access point for students researchers and anyone wanting to know more about Russian foreign policy **Russia and the West from Alexander to Putin** Andrei P. Tsygankov, 2012-06-28 Since Russia has re emerged as a global power its foreign policies have come under close scrutiny In *Russia and the West from Alexander to Putin* Andrei P Tsygankov identifies honor as the key concept by which Russia s international relations are determined He argues that Russia s interests in acquiring power security and welfare are filtered through this cultural belief and that different conceptions of honor provide an organizing framework that produces policies of cooperation defensiveness and assertiveness in relation to the West Using ten case studies spanning a period from the early nineteenth century to the

present day including the Holy Alliance the Triple Entente and the Russia Georgia war Tsygankov's theory suggests that when it perceives its sense of honor to be recognized Russia cooperates with the Western nations without such a recognition it pursues independent policies either defensively or assertively *Russia at War* Timothy C. Dowling, 2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia's military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration *Stalinism* Alter L. Litvin, John L. H. Keep, 2005 This volume the fruit of co operation between a British and Russian historian seeks to review comparatively the progress made in recent years largely thanks to the opening of the Russian archives in enlarging our understanding of Stalin and **Over the Horizon** David M. Edelstein, 2017-09-15 How do established powers react to growing competitors The United States currently faces a dilemma with regard to China and others over whether to embrace competition and thus substantial present day costs or collaborate with its rivals to garner short term gains while letting them become more powerful This problem lends considerable urgency to the lessons to be learned from *Over the Horizon* David M Edelstein analyzes past rising powers in his search for answers that point the way forward for the United States as it strives to maintain control over its competitors Edelstein focuses on the time horizons of political leaders and the effects of long term uncertainty on decision making He notes how state leaders tend to procrastinate when dealing with long term threats hoping instead to profit from short term cooperation and are reluctant to act precipitously in an uncertain environment To test his novel theory Edelstein uses lessons learned from history's great powers late nineteenth century Germany the United States at the turn of the twentieth century interwar Germany and the Soviet Union at the origins of the Cold War *Over the Horizon* demonstrates that cooperation between declining and rising powers is more common than we might think although declining states may later regret having given upstarts time to mature into true threats **Europe** Brendan Simms, 2013-04-04 Half a millennium of European warfare brilliantly retold by masterly historian Brendan Simms At the heart of Europe's history lies a puzzle In most of the world humankind has created enormous political frameworks whether ancient such as China or modern such as the United States Sprawling empires

kingdoms or republics appear to be the norm By contrast Europe has remained stubbornly chaotic and fractured into often amazingly tiny pieces with each serious attempt to unify the continent by Charles V Napoleon and Hitler thwarted In this marvelously ambitious and exciting new book Brendan Simms tells the story of Europe s constantly shifting geopolitics and the peculiar circumstances that have made it both so impossible to dominate but also so dynamic and ferocious It is the story of a group of highly competitive and mutually suspicious dynasties but also of a continent uniquely prone to interference from semi detached elements such as Russia the Ottoman Empire Britain and just as centrally to Simms argument the United States Europe The Struggle for Supremacy will become the standard work on this crucial subject and an extremely enjoyable one Reviews This is a brilliant and beautifully written history From the Holy Roman Empire to the Euro Brendan Simms shows that one of the constant preoccupations of Europeans has always been the geography the power and the needs of Germany Europe is a work of extraordinary scholarship delivered with the lightest of touches It will be essential absorbing reading for anyone trying to understand both the past and the present of one of the most productive and most dangerous continents on earth William Shawcross World history is German history and German history is world history This is the powerful case made by this gifted historian of Europe whose expansive erudition revives the proud tradition of the history of geopolitics and whose immanent moral sensibility reminds us that human choices made in Berlin and London today about the future of Europe might be decisive for the future of the world Timothy Snyder author of Bloodlands About the author Brendan Simms is Professor of the History of International Relations at the University of Cambridge His major books include Unfinest Hour Britain and the Destruction of Bosnia shortlisted for the Samuel Johnson Prize and Three Victories and a Defeat The Rise and Fall of the First British Empire **Russia and the USSR in the Twentieth Century** David MacKenzie,Michael W. Curran,2002 In this revision of their best selling text MacKenzie and Curran present a succinct updated history from the later imperial tsarist regime to the current Russia Acclaimed in the field for its clarity comprehensiveness and accuracy the text balances social cultural history with political history through the Putin presidency and offers Russian as well as post Soviet views of Russian history **Russia's European Choice** T. Hopf,2008-05-26 Russia has never been able to escape its relationship with Europe or Europe with Russia Geography and history have conspired to make them both neighbors and unavoidable factors in each other s daily lives From the early 1700s until the collapse of the Soviet Union in 1991 Europe and Moscow both relied on material power to balance against any threats emerging from East and West More recently Europe and the EU have adopted a different strategy make Russia non threatening by making it European like us Meanwhile Russia s resistance to Europe s assimilationist mission is increasingly robust fuelled by energy exports to Europe and the world Contributors to this volume wrestle with the question of whether the European project is feasible desirable or even ethical **A Geography of Russia and Its Neighbors** Mikhail S. Blinnikov,2021-01-22 Authoritative yet accessible the definitive undergraduate text on Russian geography and culture has now been thoroughly

revised with current data and timely topics such as the annexation of Crimea and Sevastopol and other background for understanding Russia's 2022 invasion of Ukraine. Thematic chapters provide up-to-date coverage of Russia's physical, political, cultural, and economic geography. Regional chapters focus on the country's major regions and the other 14 former Soviet republics. Written in a lucid conversational style by a Russian-born international expert, the concise chapters interweave vivid descriptions of urban and rural landscapes, examinations of Soviet and post-Soviet life, deep knowledge of environmental and conservation issues, geopolitical insights, engaging anecdotes, and rigorous empirical data. Over 200 original maps, photographs, and other figures are also available as PowerPoint slides at the companion website, many in color.

New to This Edition: Separate chapter on Ukraine and Crimea covering events through 2019; timely topics: the political crisis in Ukraine and annexation of Crimea and Sevastopol; the return of Putin as president; climate change and environmental degradation; economic slowdown; political shifts in the republics; the role of Russian-backed forces in Syria, Libya, and Central African Republic; changes in Russia-United States relations; and more. Thoroughly updated population, economic, and political data. 80 new or updated figures, tables, and maps. Pedagogical Features: End-of-chapter review questions, suggested assignments, and in-class exercises. Within-chapter vignettes about Russian places, culture, and history. End-of-chapter internet resources and suggestions for further reading. Companion website with all figures and maps from the book, many in full color.

Selling to the Masses Marjorie L. Hilton, 2012-01-08 In *Selling to the Masses*, Marjorie L. Hilton presents a captivating history of consumer culture in Russia from the 1880s to the early 1930s. She highlights the critical role of consumerism as a vehicle for shaping class and gender identities, modernity, urbanism, and as a mechanism of state power in the transition from tsarist autocracy to Soviet socialism. Beginning in the late nineteenth century, Russia witnessed a rise in mass production, consumer goods, advertising, and new retail venues such as arcades and department stores. These mirrored similar developments in other European countries and reflected a growing quest for leisure activities, luxuries, and a modern lifestyle. As Hilton reveals, retail commerce played a major role in developing Russian public culture; it affected celebrations of religious holidays, engaged diverse groups of individuals, defined behaviors and rituals of city life, inspired new interpretations of masculinity and femininity, and became a visible symbol of state influence and provision. Through monarchies, revolution, civil war, and monumental changes in the political sphere, Russia's distinctive culture of consumption was contested and recreated. Leaders of all stripes continued to look to the commerce of exchange as a key element in appealing to the masses, garnering political support, and promoting a modern nation. Hilton follows the evolution of retailing and retailers alike from crude outdoor stalls to elite establishments through the competition of private versus state-run stores during the NEP and finally to a system of total state control, indifferent workers, rationing, and shortages under a consolidating Stalinist state.

History of Russia in 100 Minutes Tanel Vahisalu, 2017-03-12 *History of Russia in 100 Minutes* is a crash course for beginners. Here you will find the complete history summarized and retold in simple language with accurate dates, the most relevant names, and essential
