Russia The Land:

Russia, the Land of the Great White Czar Edith Caroline Phillips, 1904 Russia - The Land Greg Nickles, 2000
Introduces the land of Russia including the country's geography history industry agriculture and wildlife **Land Reform in Russia, 1906-1917** Judith Pallot, 1999-05-20 Since the collapse of the USSR there has been a growing interest in the Stolypin Land Reform as a possible model for post Communist agrarian development Using recent theoretical and empirical advances in Anglo American research Dr Pallot examines how peasants throughout Russia received interpreted and acted upon the government's attempts to persuade them to quit the commune and set up independent farms She shows how a majority of peasants failed to interpret the Reform in the way its authors had expected with outcomes that varied both temporally and geographically The result challenges existing texts which either concentrate on the policy side of the Reform or if they engage with its results use aggregated official statistics which this text argues are unreliable indicators of the pre revolutionary peasants reception of the Reform *Russia's Agriculture in Transition* Zvi Lerman, 2008-01-01 This book explores the development of factor markets in Russian agriculture during the transition to a market economy identifying the impact of existing constraints on agricultural growth **The Old Faith and the Russian Land** Douglas Rogers, 2016-02-04 The Old Faith and the Russian Land is a historical ethnography that charts the ebbs and flows of ethical practice in a small Russian town over three centuries The town of Sepych was settled in the late seventeenth century by religious dissenters who fled to the forests of the Urals to escape a world they believed to be in the clutches of the Antichrist Factions of Old Believers as these dissenters later came to be known have maintained a presence in the town ever since The townspeople of Sepych have also been serfs free peasants collective farmers and now shareholders in a post Soviet cooperative Douglas Rogers traces connections between the town and some of the major transformations of Russian history showing how townspeople have responded to a long series of attempts to change them and their communities tsarist era efforts to regulate family life and stamp out Old Belief on the Stroganov estates Soviet collectivization drives and antireligious campaigns and the marketization religious revival and ongoing political transformations of post Soviet times Drawing on long term ethnographic fieldwork and extensive archival and manuscript sources Rogers argues that religious political and economic practice are overlapping arenas in which the people of Sepych have striven to be ethical in relation to labor and money food and drink prayers and rituals religious books and manuscripts and the surrounding material landscape He tracks the ways in which ethical sensibilities about work and prayer hierarchy and inequality gender and generation have shifted and recombined over time Rogers concludes that certain expectations about how to be an ethical person have continued to orient townspeople in Sepych over the course of nearly three centuries for specific identifiable and often unexpected reasons Throughout he demonstrates what a historical and ethnographic study of ethics might look like and uses this approach to ask new questions of Russian Soviet and post Soviet history **Russia's Policy Challenges** Stephen K. Wegren, 2016-07-08

Designed for use in courses on contemporary Russia this volume explores Russia's policy dilemmas in three realms: international security, socio-political and socio-economic. In each of these categories Russia faces daunting problems, none of which is likely to be resolved quickly or easily. Yet over the longer term the extent to which policymakers are successful in dealing with these challenges will go far in determining Russia's future place in the world, how Russians will live and what kind of country Russia becomes. Each expertly authored chapter outlines the nature of one major issue, traces its evolution and policy developments under the Yeltsin and Putin presidencies and evaluates the effectiveness and prospects of efforts to come to grips with the challenge.

Holy Leaders of the Russian Land Evgeny Poselyanin, *Wealth without work, Pleasure without conscience, Science without humanity, Knowledge without character, Politics without principle, Commerce without morality, Worship without sacrifice* <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html>

Every Russian person sacredly loves his homeland. And in the way Russian people relate to Russia there is a lot different from the attitude of foreigners to their native countries. Russian people not only love their land as the place of their homeland and their ancestors where their whole life flows, not only are grateful to her for the opportunity to lead a quiet life which she gives them. Russians honor Russia as a sacred thing of the soul, pray for it. Miraculously their love for their native country is intertwined with faith in God. They consider it a happy and longed-for deed to die for their homeland and all their enthusiastic and special feeling for Russia is so clearly expressed in two words: Holy Russia. Why is one of all the countries in the world called Holy? What is the difference between the people who applied this great word, saint, to the name of their land and does not call it otherwise? Yes, the significance of this name of Rus is great and a deep meaning is hidden in it. This word also points to the special God's choice of the Russian people and to its special spiritual goals and aspirations. There was in ancient times one sacred people descended from the righteous chosen by God. The Lord Himself led him in wonderful ways, gave him earthly power, he could also receive future heavenly glory. This people were Jews. But this chosen people did not remain faithful to God's covenants at the head of it there were persons who replaced the living faith of the heart with the dry performance of certain external rites. Life-giving love has dried up in him. And when the God of love sent into the world to save people to remove the curse for the Fall of the first man, His Son, the Jews did not recognize Christ and the Son of Man was crucified in Jerusalem on the cross. And the bright destiny that this people could acquire for itself was forever destroyed by a terrible cry before Pilate: "condemned Christ. His blood be on us and on our children."

State Capability and Challenges to Russia's Food Security in the Twenty-first Century Stephen K. Wegren, 2025-11-24. This book offers a rigorous examination of Russia's state capability through the critical lens of food security, revealing profound implications for domestic stability and international relations. Drawing on extensive research, the author demonstrates how food insecurity has historically catalyzed political instability in Russia, explaining the Putin regime's substantial investment in agricultural self-sufficiency since 2014. The analysis extends beyond domestic considerations to interrogate Russia's unique position as the sole major authoritarian

grain exporter in a changing global order It contains compelling evidence that Russia's management of food security challenges constitutes a pivotal factor in contemporary geopolitics As climate change threatens future Russian grain production it shows the consequences extend to dependent regimes and global market stability This timely contribution advances scholarly understanding of how control over fundamental resources influences state capability and international relations It will be essential reading for researchers and students in Russian studies international relations food security and political economy as well as policymakers engaged with global food systems and security governance Bibliography on Land Utilization, 1918-36, 1938 This bibliography has been compiled as a companion volume to the Bibliography on Land Settlement issued in 1934 by the United States Department of Agriculture as Miscellaneous Publication 172 It contains selected references to the literature on the economic aspects of land utilization and land policy in the United States and in foreign countries published for the most part during the period 1918-36 Novel Methods for Monitoring and Managing Land and Water Resources in Siberia Lothar Mueller, Askhad K. Sheudshen, Frank Eulenstein, 2015-11-15 This book presents an analysis of land and water resources in Siberia initially characterizing the landscapes their ecosystems crucial processes human impacts on soil and water quality and the status quo of available research Further chapters deal with modern monitoring and management methods that can lead to a significant knowledge shift and initiate sustainable soil and water resources use These include soil hydrological laboratory measurement methods process based field evaluation methods for land and water quality remote sensing and GIS technology based landscape monitoring methods process and ecosystem modeling approaches methods of resource and process evaluation and functional soil mapping and tools for controlling agricultural land use systems More than 15 of these concrete monitoring and management tools can immediately be incorporated into research and practice Maintaining the functions of great landscapes for future generations will be the reward for these efforts **Russian Land Tenure** Mervyn Crobaugh, 1923 The Industries of Russia ... Russia. Ministerstvo finansov, 1893 **The pilgrimage of the Russian abbot Daniel in the Holy Land, 1106-1107 A.D. [tr.] annotated by sir C.W. Wilson** Daniel (of Kiev.), 1888 **Continuity And Change In Rural Russia A Geographical Perspective** Gregory Ioffe, Tatyana Nefedova, 2018-02-23 Contrary to the viewpoint of many Western scholars the authors of this penetrating analysis argue that private farming is not a viable option in Russia's future Instead a convergence of Soviet style subsidiary farming with traditional and reorganized collective farms is the most plausible path of evolution in most rural areas Grigory Ioffe and Tatyana Nefedova arrive at this conclusion by a careful examination of ongoing reform efforts in Russian agriculture against the backdrop of European and Russian agrarian history and rural spatial development since the late nineteenth century The comparisons at the national level are then filled in with consideration of a number of Russian provinces oblasti and regions raiony Their research reveals the substantial negative impact of rural depopulation on the Russian agrarian economy Seventy original maps richly complement and support the narrative *Understanding Land-Use*

and *Land-cover Change in Global and Regional Context* Elena Milanova, 2005-01-08 Most of the papers of this book were presented in the IGU LUCC 2003 Moscow Workshop on Global and Regional Land Use Cover Changes and at International Conference Society and Environment Interaction Under Global and Regional Changes which was held in Barnaul Altai Russia in summer 2003

Land-Cover and Land-Use Changes in Eastern Europe after the Collapse of the Soviet Union in 1991 Garik Gutman, Volker Radeloff, 2016-11-14 This work analyzes the effects of one of the most dramatic changes of entire societies that the world has ever witnessed It explores the collapse of socialist governance and management systems on land cover and land use in various parts of Eastern Europe As readers will discover this involved rapid and unprecedented changes such as widespread agricultural abandonment Changes in the countries of the former Soviet block former Soviet Union republics and European Russia are compared and contrasted Contributing authors cover topics such as the carbon cycle and the environment effects of institutional changes on urban centers and agriculture as well as changes in wildlife populations The volume includes analysis of the drivers of agricultural land abandonment forest changes in Black Sea region an extreme drought event of 2010 impacts of fires on air quality and other land cover land use issues in Eastern Europe Satellite data used were mostly from optical sensors including night lights observations with both coarse and medium spatial resolution Ultimately this work highlights the importance of understanding socioeconomic shocks that is those brief periods during which societies change rapidly resulting in significant impact on land use and the environment Thus it shows that change is often abrupt rather than gradual and thereby much harder to predict This book is a truly international and interdisciplinary effort written by a team of scientists from the USA Europe and Russia It will be of interest to a broad range of scientists at all levels within natural and social sciences including those studying recent and ongoing changes in Europe In particular it will appeal to geographers environmental scientists remote sensing specialists social scientists and agricultural scientists

Legal Impediments to Effective Rural Land Relations in Eastern Europe and Central Asia Roy L. Prosterman, Timothy M. Hanstad, 1999-01-01 Excessive concentration of land ownership as is feared by many transition governments has not been a feature of land markets where they have been allowed to function relatively freely and where land has been allocated in kind to households and individuals The World Bank has long been active in the Europe and Central Asia region in monitoring and evaluating land reform developments and supporting the development of land markets Bank efforts to date have made a significant impact in our client countries and studies produced by the Bank have been used as impartial references on this subject by both international organizations and the countries themselves This report was developed as a result of these efforts It focuses on The principal issues faced by the transition economies of Eastern Europe and the Former Soviet Union The potential approaches for resolving specific problem issues *The Political Economy of Rural Livelihoods in Transition Economies* Max Spoor, 2008-09-26 This book is an analytical stock taking exercise on processes of land reform and rural market restructuring and development in the context of transition economies in Central and Eastern Europe the former Soviet Union and Asia
